

Get to know University Councillor Daria Adèle Juüdi-Hope BScN'11, MPH'20

What is your most memorable moment as a student at Queen's?

Oh dear... would it be wrong to say that the most memorable moments were spent in the Sim Lab. Grant Hall on graduation day was also memorable.

Please share a little bit about your current career.

I am pivoting from Indigenous Health to Cancer Care. I am developing skills in teaching and academia and hoping to pursue studies to teach effectively.

What is the best career advice you've ever received?

Allow yourself to grow. Do not lose who you are in the journey.

What is the career highlight you are most proud of?

My career has constantly been punctuated by challenges that have led to next opportunities. I can't think of a job that means less or more than the other so far in my career.

How do you enjoy spending your free time?

I practice yoga when I can. I garden or play with my foster child. I attend community events. I gather with family and friends.

What motivated you to stand for election for University Council?

I was curious about what the University's position on its culture and reputation. I wanted to be involved in contributing to the changes and improvements required for our university to be the best place to learn and work. Being a part of University Council is my way to give back to Queen's.

What are your aspirations for being on University Council?

I hope to be involved in key committees advancing strategic goals and to network with alumni chapters.
