Bachelor of Fine Art (Honours, Major-General) in the Faculty of Arts and  
Science**

**I n t r o d u c t i o n**

The proposal to introduce a new Bachelor of Fine Art (Honours, Major-Minor) and a Bachelor of Fine Art (Honours, Major-General) in the Faculty of Arts and Science was reviewed by the Senate Committee on Academic Development (SCAD) at its meeting of May 5, 2010. J. Pierce, Associate Dean of the Faculty of Arts and Science, attended the SCAD meeting to speak to the proposal and to answer questions from members of SCAD. Members of SCAD were also provided with background documentation provided by the Faculty of Arts and Science. A copy of the documentation is attached to this report.

**A n a l y s i s   a n d   D i s c u s s i o n**

The following should be noted:

- If approved, the introduction of a Major-Minor and a Major-General will allow students to combine their Fine Art degrees with a minor in another Arts and Science discipline;
- The proposal reflects an emerging emphasis in the Faculty of Arts and Science towards the Major-Minor option;
- Students will continue to be admitted directly into the Bachelor of Fine Art program and admission numbers and requirements will remain the same;
- Students will have greater flexibility when choosing their additional credits to complete the required total for the degree.

FACULTY/SCHOOL: FACULTY OF ARTS AND SCIENCE/DEPARTMENT OF ART

PROPOSED NEW PROGRAM: BACHELOR OF FINE ARTS (HONOURS, MAJOR-MINOR)  
BACHELOR OF FINE ARTS (HONOURS, MAJOR-GENERAL)

PROPOSED IMPLEMENTATION DATE: SEPTEMBER 2010

DATE OF FACULTY BOARD APPROVAL: 26 March 2010

SIGNATURE OF THE HEAD:  DATE: 16 MAR 2010

SIGNATURE OF THE DEAN:  DATE: 16 march 2010

PART A

1. **OBJECTIVES:**  
Please summarize the rationale for introducing this program. The program should be consistent with the Queen's mission, the academic plans of the unit including its teaching and research strengths, the relation of the unit with other academic units and the standards, educational goals and learning objectives of the degree. Explain how this program will achieve the expected academic quality. Please identify the Faculty, School or Department, which will be administratively responsible for the academic aspects of this program such as supervision of graduate students, curriculum development and the Internal Academic Review Process.

The objectives of these programs is to allow Fine Art (Honours) students to complete a minor in an Arts and Science discipline in combination with their Fine Art degree. In a set of earlier submissions to the Faculty of Arts and Science, the Fine Art division of the Department of Art requested the introduction of a BFAH Major in Fine Art to replace the BFAH Special Field (SPF) in Fine Art. The movement from the BFAH SPF to the Major was undertaken to create a program more responsive to the request for a program of greater flexibility made by students and to respond to an emerging emphasis throughout the Faculty of Arts and Science on the Major-Minor option. This Major-Minor option is one most requested by students, and it offers students the opportunity to balance the specialization appropriate to further graduate study in one field (the Major) against the ability to explore a secondary field in somewhat less depth but with recognition for this exploration on the transcript (in the form of the Minor). Moreover, the structure of the SPF required that 15.0 of the 20.0

credits taken for the degree were determined by the Fine Art concentration. Reducing the core to 10.0, the typical number of concentration courses in the Major, allows for students to take an increased number of electives or to pair a Minor with the Major. In addition to the objectives of meeting student demand for greater flexibility and aligning with general academic trends in the Faculty of Arts and Science, the Major structure is more sustainable in terms of the number of courses required by the department.

The Major has already been passed by the Faculty of Arts and Science. The proposed programs to (the Major-Minor and the Major-General) will allow students who wish to combine a substantial concentration in another area with a Bachelor of Fine Arts Major.

## 2. **ADMISSION REQUIREMENTS:**

The admission requirements (preparation and achievement) should be appropriate for the learning objectives of the program and the institution to ensure the appropriate quality of student applicants. In no case should admission requirements be lower than the published minimum standards for the University. Indicators of student demand including applications, registrations, projected enrolment levels, and of the quality of students must be considered. Where admission is competitive, actual admission requirements may be higher than the published minimum standards. Information about anticipated enrolments should also be included.

The admission requirements for the BFAH MAJOR-MINOR ARTF will be the same as those for the SPF. Students will be required to meet the academic minimum of 80 per cent and will be also assessed on a portfolio of work submitted to the Fine Art instructors. The number of students currently admitted will be the same as those admitted to the SPF.

## 3. **CURRICULUM:**

Provide a detailed overview of the proposed program, along with the proposed *Calendar* description. Details such as course requirements (core, supporting, recommended, optional courses), prerequisites, problems students may encounter and new courses being proposed for the program should be included. The structure and curriculum of the program should be appropriate for its learning objectives.

The proposed programs follow the same pattern as the existing Major-Minor and Major-General programs; i.e., combining a Major concentration (in this case, the Major in Fine Art) with a Minor or General concentration in another discipline.

### **BFAH Major-Minor**

#### **Bachelor of Fine Art (Honours) - BFAH**

The four-year B.F.A.(Honours) Major-Minor degree consists of a minimum of 20.0 credits as described below.

#### **Major-Minor Concentrations - MJM**

**a** The major concentration in Fine Art (10.0 credits studio, 2.0 supporting credits and 8.0 elective credits to total 20.0)

**b** 5.0 credits in a second discipline (the minor concentration): 1.0 credit at the 100 level or above, 2.0 credits at the 200 level or above, and the remaining credits from the 010 to the 599 level at the discretion of the Department. The approved sequences of courses are shown in departmental sections. Up to 2.0 essential prerequisite or corequisite credits in other disciplines may be required to support a minor concentration.

**c** Additional credits to complete the required total for the degree may be chosen freely, provided the prerequisites have been met.

### **BFAH Major-General**

#### **Bachelor of Fine Art (Honours) - BFAH**

The four-year B.F.A.(Honours) Major-General degree consists of a minimum of 20.0 credits as described below.

### **Major-General Concentrations - MJG**

- a** The major concentration in Fine Art (10.0 credits studio, 2.0 supporting credits and 8.0 elective credits to total 20.0)
- b** 8.0 credits in computing, geography, mathematics and statistics, and the natural sciences, to include 5.0 or 6.0 credits in one concentration: 1.0 credit at the 100 level or above, 2.0 credits at the 200 level or above, and the remaining credits from the 010 to the 599 level at the discretion of the Department. The approved sequences of courses are shown in departmental sections. Up to 2.0 essential prerequisite or corequisite credits in other disciplines may be required to support a minor concentration.
- c** Additional credits to complete the required total for the degree may be chosen freely, provided the prerequisites have been met.

#### **4. TEACHING:**

Briefly explain how the intended mode of delivery (including, where applicable, distance or on-line delivery) and standards of instruction for this program are appropriate to meet the program's learning objectives.

As with the SPF, the mode of delivery is a mix of lectures and practical courses. The Fine Art program emphasizes studio time in which students experience directly the use of different forms of media for artistic creation.

#### **5. EVALUATION OF STUDENT PROGRESS:**

Briefly explain the intended method of evaluation of student progress and how it is appropriate for this program.

The methods of evaluation will be consistent with current practices. As with other Honours degrees at Queens, students will be required to achieve an overall average of 60 in the courses offered to meet the requirements of the degree and also in the courses offered to meet the requirements of the concentrations.

As with the SPF, the evaluation process includes the assessment of essay-based and class participation activities typical of other programs. Unique to this program is the important assessment of the creative works completed as part of the studio work for the degree.

#### **6. EQUITY:**

This program's planning, development and implementation should be consistent with the equity goals of the University and must avoid direct, indirect and systemic discrimination.

The program is consistent with the equity goals of the university.

#### **7. HUMAN RESOURCES:**

Please demonstrate that the number, quality and academic expertise of the faculty in the area of the proposed program are sufficient to meet the demands of the program. Where appropriate, the availability of support staff, teaching and laboratory assistants should be indicated. (Additional details should be provided on the Resource Implications Checklist in **PART B** of this form).

The four FTEs will teach all required Fine Art courses of the proposed BFA Major. This is a reduction of one and a half adjunct positions.

**8. PHYSICAL AND INFORMATION RESOURCES:**

Please provide a summary of available or required program-specific resources, such as: classroom requirements, laboratories, information technology services and facilities, and library facilities and information resources (including unique and special collections). (Additional details should be provided on the Resource Implications Checklist in **PART B** of this form).

Some additional lab resources will be needed for this program, but they have been supported by the Faculty of Arts and Science and form a part of its submission to the Principal's Transition Fund.

**9. FINANCIAL RESOURCES:**

There should be evidence of sufficient resources to introduce and maintain the program for a reasonable period of time. This should include consideration of any additional funds from internal sources and from government or other external sources as well as possible financial impact of the programs on other programs, within and outside the unit. (Additional details should be provided on the Resource Implications Checklist in **PART B** of this form).

The one and a half Adjunct salary savings will offset costs of one-time purchases for new program delivery.

**10. SOCIETAL CONTEXT (STUDENT DEMAND, SOCIETAL NEED, DUPLICATION):**

Please provide a summary of how this program is expected to meet student demand and societal need. Evidence of student demand could include: projected enrollment levels, application statistics, origin of student demand (domestic and international), and duration of projected demand. Evidence of review and comment by appropriate student organizations should be provided. Please explain how the program will fulfill a societal need in specifically identified fields (academic, public and /or private sector) and consider the probable availability of positions on graduation, the likelihood of attracting out of province or international students and the equity implications of the program. In the case of a professional program, discuss its congruence with the regulatory requirements of the profession. Please cite similar programs offered by other institutions and provide evidence of additional societal need and/or student demand as well as indicate innovative and distinguished aspects of the program.

There is a rise in student demand for the BFA Major degree that allows for broad selection of elective courses. It is expected that the BFA Major will attract more national and international portfolio submissions.

**11. LEARNING AND PROGRAM OUTCOMES:**

While the aim of a university education is to produce educated individuals who possess good judgment and the capacity for critical thought, it is also important to consider specific indicators of learning and program outcomes, such as a graduation rate, length of studies, job placement, external scholarships, awards of graduating students, results of professional certification or licensing examinations, etc. Please discuss the anticipated outcomes of this program.

The BFA Major will make our graduates more competitive in graduate school and job placement. The broad choice of elective courses will allow students to tailor their selection to their personal future goals and potential related requirements.

**12. OTHER ISSUES:**

Please describe any additional special considerations with respect to this program.

None
