The Department of Pathology and Molecular Medicine in the Queen’s University Faculty of Health Sciences and its affiliated teaching hospitals is recruiting an academic Anatomical Pathologist with subspecialty training/expertise in dermatopathology. The ability to participate in other diagnostic pathology subspecialties, particularly gastrointestinal pathology, would be considered an asset. Applicants with dual certification in Dermatology and Dermatopathology are also encouraged to apply.

We are a very collegial department, with a strong culture of scholarship. The successful candidate would be collaborating with a new and expanding Dermatology unit at the university and would be provided protected time to establish a research program. The applicant would also be expected to contribute to the department’s undergraduate, graduate and residency training programs. There is the potential for significant flexibility in the balance of service and academic time commitments for this position. The compensation package is very competitive.

Candidates must be eligible for medical licensure in the province of Ontario and must hold postgraduate qualifications in Pathology. This is an international search and the University invites applications from all qualified individuals. Preference will be given to applicants who hold certification from the Royal College of Physicians & Surgeons of Canada or the American Board of Medical Specialties. Appointment will be at an academic rank commensurate with experience.

Evaluation of applications will begin September 12th, 2014 and will continue until the position is filled. Applicants should submit a letter of interest and CV to: Dr. Tim Childs, Anatomic Pathology Service Chief, Department of Pathology and Molecular Medicine, Queen's University, Kingston, Ontario K7L 3N6 (Tel): (613) 533-2850; (Fax): (613) 533-2907; E-mail: childst2@kgh.kari.net (electronic submission preferred). One of Canada’s leading universities, Queen’s has a long-standing reputation for academic excellence, research and a diverse and vibrant learning environment. With its strong tradition of public service, the University has helped to shape Canadian values and policies, educating notable political and cultural figures. Queen’s University is located on the shores of Lake Ontario, in the heart of historic Kingston, midpoint between Montreal, Toronto, and the nation’s capital.

Queen’s is committed to employment equity and diversity in the workplace and welcomes applications from women, visible minorities, Aboriginal people, persons with disabilities, and persons of any sexual orientation or gender identity. The University will provide support in its recruitment processes to applicants with disabilities, including accommodation that takes into account an applicant’s accessibility needs. If you require accommodation during the interview process, please contact: Barb Latimer at <latimer@path.queensu.ca>. All qualified candidates are encouraged to apply; however, Canadian citizens and permanent residents will be given priority.
