TEACHING FELLOW POSITION AVAILABLE – Winter 2019
GEOE 414 /3.5 – Foundations of the Oil and Gas Industry
Department of Geological Sciences and Geological Engineering
Queen’s University, Kingston, ON CAN K7L 3N6

The Department of Geological Sciences and Geological Engineering at Queen’s University invites applications from suitably qualified candidates interested in teaching a course in the Foundations of the Oil and Gas Industry. This is an on-campus course with an expected enrolment of ~80 students and is cotaught in conjunction with the Department of Chemical Engineering. Candidates should have a M.A. or M.Sc. or Ph.D, and teaching experience at the University level in geological sciences. This is a winter term appointment for the period January 1, 2019 to April 30, 2019, with classes in session from January 7, 2019 to April 5, 2019.

The University invites applications from all qualified individuals. Queen’s is committed to employment equity and diversity in the workplace and welcomes applications from women, visible minorities, Aboriginal peoples, persons with disabilities, and LGBTQ persons. All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority.

The University will provide support in its recruitment processes to applicants with disabilities, including accommodation that takes into account an applicant’s accessibility needs. If you require accommodation during this process, please contact: Paul Bass, Departmental Manager, at GSGEpositions@queensu.ca or 613-533-2597.

Graduate Teaching Assistant and Teaching Fellows at Queen’s University are governed by the Collective Agreement for Teaching Assistants and Teaching Fellows between PSAC Local 901 and Queen’s University, which is posted at http://psac901.org/. Remuneration will be in accordance with the Collective Agreement.

Applicants must be an enrolled PhD student at Queen’s University. Applications should include a statement of relevant qualifications in relation to Geological Sciences and Engineering, a curriculum vitae, and a short note or email from at least one referee, normally their supervisor, as well as any other relevant materials that the candidate wishes to submit for consideration such as a teaching dossier or student evaluations, etc. Teaching Fellows will be provided mentoring and assistance throughout their appointment by the Head of the Department and/or the Centre for Teaching and Learning.

Please arrange to have applications and supporting documentation sent electronically to Dr. Vicki Remenda at GSGEpositions@queensu.ca, or hard copy applications may be submitted to:

Dr. Vicki Remenda, Head Department of Geological Sciences and Geological Engineering 36 Union Street
Queen’s University Kingston Ontario Canada K7L 3N6

Applications will be received until December 17, 2018. Review of applications will commence shortly thereafter, and the final appointment is subject to budgetary approval. Additional information about the Department of Geological Sciences and Geological Engineering can be found at http://www.queensu.ca/geol/.

Course Description:

Lecture: 3
Lab: 0
Tutorial: 0.5

Fundamentals of the oil and gas industry covering Chemical Engineering and Geological Engineering practice, and
implications of Canadian and world political forces together with business practices are covered. Industry needs for exploration, recovery, processing, business expansion and policy issues will be addressed through case studies, in conjunction with examination of suitable business models. (0/0/0/30/12).

Academic Units:
Mathematics 0
Natural Sciences 0
Complementary Studies 0
Engineering Science 30
Engineering Design 12
