The Department of Geological Sciences and Geological Engineering at Queen’s University invites applications from suitably qualified candidates interested in teaching a course in Geological Aspects of Mineral Deposits (GEOE 262). This is an on-campus, introductory lecture course with an expected enrolment of ~20 students. Candidates should have a M.Sc. or Ph.D, and teaching experience at the University level in the field of Geology. This is a winter term appointment for the period January 1, 2018 to April 30, 2018, with classes in session from January 8, 2018 to April 6, 2018.

The University invites applications from all qualified individuals. Queen’s is committed to employment equity and diversity in the workplace and welcomes applications from women, visible minorities, Aboriginal peoples, persons with disabilities, and LGBTQ persons. All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority.

The University will provide support in its recruitment processes to applicants with disabilities, including accommodation that takes into account an applicant’s accessibility needs. If you require accommodation during this process, please contact Megan Rhymer, Departmental Manager at megan.rhymer@queensu.ca or 613-533-2596.

The academic staff at Queen's University are governed by the Collective Agreement between the Queen's University Faculty Association (QUFA) and the University, which is posted at http://www.queensu.ca/facultyrelations/faculty-librarians-and-archivists/queens-qufa-collective-agreement.

To comply with Federal laws, the University is obliged to gather statistical information about how many applicants for each job vacancy are Canadian citizens / permanent residents of Canada. Applicants need not identify their country of origin or citizenship, however, all applications must include one of the following statements: “I am a Canadian citizen / permanent resident of Canada”; OR, “I am not a Canadian citizen / permanent resident of Canada”. Applications that do not include this information will be deemed incomplete.

Applications should include a complete and current curriculum vitae, letters of reference from two (2) referees, and any other relevant materials the candidate wishes to submit for consideration such as a letter of intent, teaching dossier, etc. Please arrange to have applications and supporting letters sent electronically to Dr. Vicki Remenda at GSGE-positions@queensu.ca, or hard copy applications may be submitted to:

Dr. Vicki Remenda, Head
Department of Geological Sciences and Geological Engineering
36 Union Street
Queen’s University
Kingston, Ontario, Canada K7L 3N6

Applications will be received until October 31, 2017. Review of applications will commence shortly thereafter, and the final appointment is subject to budgetary approval. Additional information about the Department of Geological Sciences and Geological Engineering can be found at http://www.queensu.ca/geol/.

Course Description:
GEOE 262/0.5 Geological Aspects of Mineral Deposits
The basic mineralogy and petrology of mineral deposits are examined. The formation and classification of mineral deposits, considering such aspects as tectonic setting, age, rock composition, geometry, and mineralogy are investigated. Emphasis is placed on the processes by which mineral deposits are formed and transformed, and their influence on mining and production. Laboratory work integrates geological information from the scale of hand samples to regional maps as tools to assist with mine design, estimation of ore grade and evaluation of issues related to ore processing.
PREREQUISITES: APSC 151 or equivalent. Must be registered in BSCE or BASC
EXCLUSIONS: GEOE 232 (GEOL 232), GEOE235 (GEOL235), GEOE 362 (GEOL 362)
