

## Plan Your Campus opens a dialogue around the Campus Master Plan

2013-04-01

Fourth-year biomedical engineering student Duncan Iglesias (left) speaks with architect Warren Price, a member of the Campus Master Plan consulting team, at the Plan Your Campus information exchange.

Members of the Queen's community came out to Plan Your Campus, a Campus Master Plan (CMP) information exchange event held on March 26 in the Queen's Centre.

The event gave everyone the opportunity to learn more about the CMP project and to share their experiences of campus with members of the planning team.

The CMP project will establish an engaging and attainable vision to guide how the university changes physically over the next 10 to 15 years. The planning team is currently in the process of consulting with the community in order to gain insight into the opportunities and challenges presented by the campus.

Open houses are planned in May and October in order to give the Queen's and Kingston communities further opportunities to participate in the CMP process.
