ABOUT CSEW (CENTRE FOR THE STUDY OF EDUCATION & WORK, OISE/UT):

Head: Peter Sawchuk

Co-ordinator: D'Arcy Martin

The Centre for the Study of Education and Work (CSEW) brings together educators from university, union, and community settings to understand and enrich the often-undervalued informal and formal learning of working people. We develop research and teaching programs

at the Ontario Institute for Studies in Education (UofT) that strengthen feminist, anti-racist, labour movement, and working-class perspectives on learning and work.

Our major project is APCOL: Anti-Poverty Community Organizing and Learning. This five-year project (2009-2013), funded by SSHRC-CURA, brings academics and activists together in a collaborative effort to evaluate how organizations approach issues and campaigns and use popular education.
