Report to Senate November 2009 Enrolment Report Executive Summary

The annual report on enrolment reports the actual number of students, or head count, enrolled on November 1, 2009, compared to the approved enrolment plan and enrolment for November 2008. The enrolment plan approved by Senate each year specifies admission targets for undergraduate students by degree program and forecasts total full-time undergraduate enrolment using a retention and promotion model to predict, within a range, the number of continuing students. The graduate enrolment forecast is as an overall summary of departmental enrolment objectives, accounting for continuing students and new admission. Attached are several summary tables that include current and historical data reported according to full-time and part-time and international versus domestic status, by program and year of study. More detailed enrolment count reports are filed each November, February, May, and June with the Ministry of Training, Colleges and Universities.

The report and supporting tables highlight that actual enrolment meets or exceeds enrolment targets and projections in almost every Faculty and School. The enrolment plan, approved by Senate in March 2009, projected modest growth at the undergraduate level combined with continuing expansion of masters and doctoral enrolment. As at November 1, 2009, total full-time enrolment is approximately 650 students more than 2008 (almost 1,450 students more than 2007), representing a net year over year increase in total full-time enrolment of 3.7%. The three-year detailed summary appended to this summary shows growth in almost all programs over the reporting period.

The **2009 total full-time enrolment of 18,023** is relative to a planned range of 17,772 – 17,903. The overall enrolment at the University on November 1, 2009, including all part-time, Theological College, and Post-Graduate Medical students, was **22,351**, compared to a total of 21,467 in 2008.

Highlights:

- A diverse enrolment of full-time students, across all years in all direct-entry undergraduate and second-entry professional programs, represent every Canadian province and territory, with 40.6% from the Greater Toronto Area, 54.3% from the rest of Canada and 5.1% have international citizenship.
- First-year undergraduate enrolment of 3,597 (overall admission average 88.1%) met or exceeded targets in almost every program with the exception of Bachelor of Fine Art and the first-year program at the Bader ISC. Upper year enrolment at the BISC is also below target for the Fall term, but total enrolment is expected to meet the 180 overall target for the Winter term.
- Total first-degree full-time enrolment of approximately 12,900 is 300 students, or 2.5%, greater than 2008 and meets the planned enrolment target.
- > Full-time enrolment in second-entry professional programs met projections, with enrolment in the Faculty of Education exceeding the planned level by 40 students or 6%.
- Total full-time enrolment of 2,848 in the School of Graduate Studies has grown by 190 students, or 7%, over 2008, meeting or exceeding overall projections for Doctoral and Masters students respectively. Graduate enrolment in the School of Business is 684 including 630 students in M.B.A. programs, up from 555 in 2008.
- > Total international enrolment of 1,396 includes 240 undergraduate exchange students plus 8 on exchange in Law and three each in Education and Graduate Studies. International graduate students come from 66 different countries with the top five being the U.S., China, India, Iran and Saudi Arabia. Undergraduate students come from 72 countries, the top five being the U.S., China, South Korea, the U.K., and Pakistan. Overall, 89 countries are represented in Queen's total enrolment.
- Almost 58% of the full-time undergraduate population is female; full-time graduate enrolment is 52.8% male, whereas men represent only 44.7% of part-time graduate enrolment.

The following tables are attached for reference:

- A total headcount summary as of November 1, 2009 comparing actual to projected enrolment and November 1, 2008
 enrolment,
- Five-year historical summaries (total and international), three-year summaries by program by year (total and international),
- A three-year summary by age, undergraduate and graduate
- International student enrolment tables showing countries of citizenship for registered students.

This summary report provides a snapshot of enrolment that may be considered representative of the University's overall enrolment profile. The University continues to meet enrolment plans and expectations approved by the Senate.
