Dear Georgina,

After review and careful consideration of the IPPH Advisory Review Committee Final Report, the SARC members accepted the recommendations of the Report and as a result, recommend to Senate that IPPH members operate as a "research group" of Queen's University, as outlined in Senate policies. As a result of the Institute reverting to group status, the word "Institute" must be removed from the title. I would recommend that the group be named Population and Public Health Research Group.

Should you have any questions or concerns, please do not hesitate to contact me.

R. Kerry Rowe
Vice-Principal (Research)
