SERVICES

The Sex Therapy Service provides treatment for individuals and couples with a variety of sexual concerns, including the following:

-  Low sexual desire
-  Difficulties with erections
-  Problems with ejaculation
-  Pain during sexual activity
-  Anxiety related to sexual activity
-  Vaginismus
-  Problems with orgasm
-  Issues with gender identity

We do not treat sexual addictions or paraphilic disorders.

Therapy is provided by senior doctoral graduate students in Clinical Psychology who are supervised by Dr. Caroline Pukall.

We adhere to a maximum of 8-12 sessions for most cases.

REFERRALS

Referrals can be made by the client or the client's health professional.

FEES

Each session costs \$50.00 but arrangements can sometimes be made for those with undue financial hardship (although wait times for these cases may be longer).

More information about our services is available at: www.queensu.ca/psychology/PSYCclinic.html
