What To Do and Say

APPROACH

- It is OK to ask and express concern
- Be specific about the behaviour that worries you

I've noticed you've been absent from class lately and I'm concerned about you.

LISTEN

- Listen non-judgmentally, having an open world view
- Meet in a private location, be patient and give your undivided attention

Is there anything I can do to help you?

SUPPORT

- Acknowledge their thoughts and feelings in a compassionate way
- Offer hope and reassure them you are concerned and want to help

It sounds like you're feeling out of place.

REFER

- Provide student with resources
- Offer to make the call with the student

If you'd like, I can call and book the appointment for you while you are here with me.

Making a Good Referral

- Point out that help is available and seeking help is a sign of strength and courage rather than weakness. Acknowledge that seeking help can be scary;
- Research resources (see the back of this folder), contact Counselling Services for recommendations on how to approach the situation at ext. 78264;
- If the student appears reluctant, you can help by:
 - Offering to contact the resource on their behalf while they are in your office
 - Offering to sit with the student while they make the initial contact themselves
 - Accompanying the student to the appointment if appropriate and you feel comfortable
- Provide the student with take-away materials and information (contact numbers, locations, etc.);
- Offer to follow-up with the student, but don't insist on knowing what the student has done.

If a Student Says "No" to a Referral

- Respect their decision. Accepting or refusing assistance must be left up to the student, except in emergencies, when life is in danger;
- Don't force the issue or trick them into going;
- Try and leave the door open for later reconsideration.

I respect your decision. I hope you will keep these options in mind. My door is always open.
