Other Signs of Distress

- Changes in academic performance (deterioration in quality of work, frequently missed assignments and classes, excessive procrastination, avoidance of participation);
- Listlessness or falling asleep in class;
- Unusual behaviour (unexplained crying, laughing to self, rapid speech, disorganized thinking, suspiciousness);
- High levels of irritability;
- Significant weight loss or gain;
- Physical symptoms (nausea, headaches, problems with eating, excessive or disrupted sleeping);
- Changes in hygiene or dress;
- Changes in relationships or social behaviour (withdrawal, isolation or dependency);
- Difficulty concentrating or communicating.

What To Do and Say

**APPROACH**
- It is OK to ask and express concern;
- Be specific about the behaviour that worry you.

**LISTEN**
- Listen non-judgmentally, having an open world view;
- Meet in a private location, be patient and give your undivided attention.

**SUPPORT**
- Acknowledge their thoughts and feelings in a compassionate way;
- Offer hope and reassure them you are concerned and want to help.

**REFER**
- Provide student with resources;
- Offer to make the call with the student.

If you’d like, I can call and book the appointment for you while you are here with me.

Making a Good Referral

- Point out that help is available and seeking help is a sign of strength and courage rather than weakness. Acknowledge that seeking help can be scary;
- Research resources (see the back of this folder), contact Counselling Services for recommendations on how to approach the situation at Ext. 78264;
- If the student appears resistant, you can help by:
  - Offering to contact the resource on their behalf while they are in your office;
  - Offering to sit with the student while they make the initial contact themselves;
  - Accompanying the student to the appointment if appropriate and you feel comfortable;
- Provide the student with take-away materials and information (contact numbers, locations, etc.);
- Offer to follow-up with the student, but don’t insist on knowing what the student has done.

If a Student Says “No” to a Referral

- Respect their decision. Accepting or refusing assistance must be left up to the student, except in emergencies, when life is in danger;
- Don’t force the issue or trick them into going;
- Try and leave the door open for later reconsideration.

I respect your decision. I hope you will keep these options in mind. My door is always open.
