## **RE: Letter of Assurance**

Dear N2,

This letter is to assure N2 that I have carefully reviewed all the N2 Clinical SOPs and glossary for 2023 and the comments by your internal reviewers. I reviewed them for adherence to Part C Division 5 of Health Canada and to ICH GCP. I have used my experience in writing clinical SOPs.

In my opinion, these are solid SOPs that can be used by clinical research sites with confidence.

Thank you for the opportunity to assist N2.

Sincerely,

Kim McDonald-Taylor, MSc, CRPC  
Clinical Research Consultant
