Overview

The study of employment relations has a long tradition at Queen's, with several programs at both the graduate and undergraduate levels providing a broad foundation in the field, including labour-management relations, labour and employment law, conflict management and negotiations, economics, human resources management, organizational behaviour, and labour policy.

The Certificate in Employment Relations requires completing 15 units and can be completed fully online (by completing five (5) online courses) or through a combination of online and in-class courses (to total five (5) courses). It is open to current undergraduate degree students at Queen's University. The Certificate in Employment Relations requires completing 30 units and is open to current undergraduate degree students at Queen's University. The Minor Plan in Employment Relations, in combination with a Major Plan in another subject, and with sufficient electives, will lead to an Honours Bachelor Degree. The Employment Relations General Plan, with sufficient electives to total 90 units will lead to a Bachelor of Arts degree.

Advice for Students

The Certificate and the BA General/Minor in Employment Relations are both excellent choices that will open up a number of possible career paths in both the public and private sectors in areas such as human resources management and labour relations, and complements a wide range of careers in other disciplines such as business, private and public sector management, and labour law. Below are some considerations when choosing which program to pursue.

The Employment Relations Certificate program can be taken either in conjunction with a degree program, in which case the Arts and Science regulations concerning limited double counting of courses apply; or the Certificate can be earned as a stand-alone credential. New part-time students for the Certificate need to meet existing admission criteria for certificates. New part-time student applicants can also enter the Faculty of Arts and Science as non-degree students and, if they meet Arts and Science eligibility criteria for progression to a degree program, can enroll in the Certificate program at a later date. All students enrolled in the Certificate in Employment Relations program need to meet the Faculty of Arts and Science progression criteria.

Whether the BA General (https://queensu-ca-public.courseleaf.com/arts-science/schools-departments-programs/employment-relations/employment-relations-general-arts-ba)/Minor (https://queensu-ca-public.courseleaf.com/arts-science/schools-departments-programs/employment-relations/employment-relations-minor-arts/) in Employment Relations is taken in conjunction with a Major degree program or the General plan, the appropriate Arts and Science regulations concerning completion of degree plans apply. The BA in EMPR will normally be completed in three years of full-time study. All students enrolled in the BA General/Minor in Employment Relations program need to meet the Faculty of Arts and Science progression criteria.
Note: Students wishing to take a course at the 200 or 300 level, for which they lack the stated prerequisites, may appeal to the Course Instructor to have the prerequisites waived.
