## Overview

In the School of Environmental Studies, you will acquire an appreciation of the scope and complexity of environmental systems, the ability to deal with the socio-economic dimensions of an issue, and the fundamental knowledge to adapt to changes in the future. Students will study environmental systems from both the perspective of the natural and physical sciences, while recognizing the human and cultural dimensions of the issues.

## Advice to Students

### Geography and Planning

- **Counsellor:** Ryan Danby (ryan.danby@queensu.ca) - Biosciences Complex, Room 3244

### Geological Sciences and Geological Engineering

- **Counsellor:** David McLagan (david.mclagan@queensu.ca) - Biosciences Complex, Room 3230

### Biomedical and Molecular Sciences (Life Sciences)

- **Counsellor:** Louise Winn (winnl@queensu.ca) - Biosciences Complex, Room 3127

## Environmental Studies Plans

The School of Environmental Studies offers Plans in both the Arts and Sciences. The following outlines describe each Plan:

### Major (Arts)

- **Plan in Environmental Studies**
  - This Plan will prepare arts students to engage in and address environmental issues that are pressing and complex, requiring scientific expertise, socio-political understanding, the linking of global and local processes, and individual and institutional responsibility.

### General (Arts)

- **Minor (Arts)**
  - This Plan provides an introduction and overview of environmental studies.

### Joint Honours (Arts)

- **Plan in Environmental Studies**
  - This Plan provides disciplinary strength in the humanities and social science plus interdisciplinary environmental courses on the science side. Students will acquire a basic science background, an understanding of the complexity of environmental issues and their solutions.
Plan in Environmental Science
This Plan provides a multidisciplinary view of environmental science with an emphasis on sustainability, and ecosystem and human health. The Plan includes core courses in science, integrative courses in science and social science, and environmental courses in the humanities.

Specialization (Science) Plans
