3. Substitutions

A. Students may be permitted to substitute PSYC 501 for COGS 499 and 6.00 additional units of the Plan, provided they have taken PSYC 203 and (PSYC 301 and PSYC 302) meet the minimum grade requirements for PSYC 501, and have the support of a supervisor in PSYC.

B. Students in the internship version of this Plan will substitute 3.00 units from COMP at the 300-level for requirement 1.K. (COGS 499). In addition, the B.Cmp.(Hons.) Program requirements will be increased by 6.00 units from COMP at the 300-level, for a total of 126.00 units if the student is taking a 12-month internship, or by 9.00 units from COMP at the 300-level, for a total of 129.00 units if the student is taking a 16-month internship.

4. Notes

A. Students with no programming experience should review the Introductory Courses (<https://www.queensu.ca/academic-calendar/arts-science/schools-departments-programs/computing/>) paragraph included on the School of Computing overview page in the *Calendar*.

B. As COGS is a multi-disciplinary subject, several first-year courses are required. With the exception of CISC 121 and MATH 111, 100-level courses may be deferred to later years depending upon the planned progression of subsequent courses. With approval of an advisor, COGS 100 may be taken in Year 2 of the Plan.

C. Many upper-year courses in CISC, LING, PHIL and PSYC have prerequisites outside the courses required for COGS, and students should take this into account in planning for their optional and elective units. Not all upper-year courses are offered every year.

D. The Plan allows 24.00 units for elective courses. Many disciplines are narrowly focused, and electives are essential to allow students to broaden their education. In the case of COGS, the Plan is already very broad, and students are encouraged to use their electives to further pursue the area(s) of Cognitive Science in which they are most interested.

E. With the approval of the Undergraduate Chair, students who take CISC 500 working on a project directly related to Cognitive Science may count 3.00 units towards COGS_Computing.

F. A maximum of 6.00 units from courses offered by other Faculties and Schools may be counted toward the program and/or Plan requirements. This includes courses in BMED, COMM, GLPH, LAW, NURS and courses in the Faculty of Engineering and Applied Science.

The following lists contain courses offered through other Departments. In accordance with Academic Regulation 2.5 (Access to Classes), students do not have enrolment priority in all of these courses.
