

ANATOMY AND CELL BIOLOGY - MASTER OF SCIENCE

Changes to this program, as of September 2014

Effective September 2014, the graduate programs in Anatomy and Cell Biology become part of the Department of Biomedical and Molecular Sciences. There is no new admission to Anatomy and Cell Biology effective September 2014.

Graduate students registered in Anatomy and Cell Biology prior to September 2014 would normally be expected to follow the programs of study and degree requirements in place as of the year of admission.

For more information, go to: Department of Biomedical and Molecular Sciences (<https://www.queensu.ca/academic-calendar/graduate-studies/programs-study/biomedical-molecular-sciences/>)section of this calendar.
