

MATHEMATICS AND STATISTICS

Facilities

The Department of Mathematics and Statistics is located in its own building, Jeffery Hall. Graduate students are provided with study space in Jeffery Hall and most classes and seminars are scheduled in the building.

Financial Assistance

Most graduate students who require financial support receive funding from various assistantships, fellowships and scholarships or awards. Students holding external scholarships such as NSERC or OGS are normally offered additional support. Please contact the department for details.

Areas of Research

Faculty research represents a wide variety of areas including pure mathematics, mathematical physics, mathematics applied to engineering, mathematical biology and both theoretical and applied statistics. A summary of the current research interests of our faculty is available on the Department of Mathematics and Statistics here: <https://www.queensu.ca/mathstat/research> (<https://www.queensu.ca/mathstat/research/>).
