The Academic Calendar is the official publication of Faculty-approved regulations and program information for all undergraduate and graduate plans in the Faculty of Health Sciences. It provides information and links to academic plans of study, admission requirements, information about programs, courses of study and mode of delivery, degree requirements and policies pertaining to the determination of academic standing in the degree programs, sessional dates for the academic year, academic regulations, and appeal regulations.

Timetable Information

Not every course listed in this Calendar is offered every year. For the most up-to-date information on course offerings, students are advised to view the course timetable on SOLUS or consult with the Bachelor of Health Sciences (Honours) program office and/or the Department of Biomedical and Molecular Sciences office.

Curriculum Changes

Students should be aware that course offerings and program requirements change from time to time. Departments work in conjunction with the Faculty of Health Sciences Undergraduate Curriculum Committee to ensure that changes in the curriculum are made with the least amount of disruption to continuing students.

Enrolment Limits and Cancellation of Underenrolled Courses

The University reserves the right to limit enrolment in any class which becomes oversubscribed, even if the course description does not indicate a limited enrolment. As well, underenrolled courses may be cancelled.
