Faculty of Arts and Science Strategic Plan

GUIDING Principles

- Equity, diversity, and inclusion including anti-racism, decolonization and Indigenous resurgence
- Excellence in teaching, research and service
- Transparency, accountability and fairness
- Continuous learning, professional development and global engagement

OUR Vision
To create a more collaborative and interdisciplinary environment enabling excellence, research and teaching.

OUR Mission
Working together to solve complex worldwide issues with our students, faculty, staff and supporters.

STRENGTHEN Our Research Prominence
ENRICH The Student Experience
TRANSFORM Our Spaces
SUPPORT Our People

To become a university for the 21st century.
Expand our community partnerships and engagement to deliver experiential learning

Create an on-campus academic spring / summer term (credit / non-credit)

Revise degree requirements to include a required course from a slate of courses carefully designed to educate students about EDI issues

Establish Faculty of Arts and Science teaching awards for individual faculty and institutional teams

Continue development of Mitacs Globalink and Accelerate clusters

Develop and implement a global research plan

Produce a digital course calendar and data analytics to deliver a “seamless” registration experience

Develop “Thrive@FAS” program for staff and faculty

Increase FAS Indigenous teaching and gathering spaces on campus

Explore different ways to engage with non-traditional donor communities
