

Course Mapping Worksheet

Your Degree Plan and Academic Advisement Report (AAR) give you the big picture! Your destination, so to speak. But would you like a more detailed road map to help you break up the journey into something more manageable? **This worksheet is that road map.** Designed to be used as your personal planner to keep you on track or when working with an Academic Advisor. Simply fill out each term you intend to study at Queen's with the courses you need for each year. Check your degree Plan for the Core, Option, Supporting and Additional Requirements for your particular Plan or Plans (for example, generally there are 18.0 units towards your Major Plan each year (9.0 per term); 12.0 units towards your Minor plan (6.0 units per term); or 15.0 in each for Medial or Specialization). Don't forget your minor, medial or Certificate Plan requirements. Once you've mapped your Plan requirements, it's time to think about the elective requirements for your Program. Often students forget that their degree is made up of your Plan requirements AND the electives.

Year One

Fall	Units	Type	Winter	Units	Type	Summer (optional)	Units	Type
Total			Total			Total		

Total		
Plan	Required	To Date

Year Two

Fall	Units	Type	Winter	Units	Type	Summer (optional)	Units	Type
Total			Total			Total		

** if you are taking a full-year course (Fall and Winter), please remember that the unit count for the fall portion is 0. The Winter term portion is 6.0 units.

Course Mapping Worksheet

Year Three

Fall	Units	Type	Winter	Units	Type	Summer (optional)	Units	Type
Total			Total			Total		

Year Four

Fall	Units	Type	Winter	Units	Type	Summer (optional)	Units	Type
Total			Total			Total		

** if you are taking a full-year course (Fall and Winter), please remember that the unit count for the fall portion is 0. The Winter term portion is 6.0 units.
