MARKING

Marking art can be somewhat more subjective than marking in other fields. All professors and instructors mark differently and emphasize different aesthetic approaches. Each of your professors must include in their syllabus their evaluation criteria. Speak to your professor if you are unsure about the criteria being used to evaluate your work. If you have any questions about your marks, ask your professor for feedback. Feedback may take different forms: some professors give feedback during critiques and others might write notes. Remember that faculty office hours are intended to ensure that you can see a professor about any questions you might have.
