

Cultural Studies Program

Establishment of Supervisory Committee

The student, faculty members, and program director must sign this form. All faculty members must be affiliated with Cultural Studies. An MA Committee has one supervisor or two co-supervisors, plus one committee member who acts as the reader of the thesis, paper or project. A PhD committee has one supervisor or two co-supervisors, plus two committee members who act as readers of the thesis or project. Since adjunct faculty will be compensated by the program in accordance with the collective agreement, the program director must be consulted in advance to see if funding is available. Once the committee has been established, further changes require the written consent of all signatories.
