

## Paddle-based Recreation and Tourism in the SLINP and Environs

Juliene McLaughlin

## Frontenac Arch Biosphere Reserve

## St. Lawrence Islands National Park

## Objectives

- Explore the social benefits of paddling including learning, health and contributions to place-based governance;
- Assess the nature of the relationship between paddlers, the associated private sector companies and the SLINP staff;
- Determine the state of paddling planning and management in the SLINP and environs.

## Methodology

- Literature review
- Stakeholder workshop
- Survey
- Semi-structured interviews

## Questions?
