Homecoming 2022

On **Saturday, October 29, 2022**, alumni, faculty, and staff from Geography and Planning gathered outside Mac-Corry E208 to meet friends old and new, and to share memories of their time at Queen's. Visitors were offered refreshments, small keepsakes, and tours of the department's learning and office spaces. Dr. Laura Jean Cameron kindly opened the Sonic Arts of Place Lab and invited alumni to experience the *Blasted Pine Speakers* interactive installation, which was well-received by all.
