LIBERATORY PEDAGOGIES AND IMAGINARIES

Teaching to Transgress: A Teaching and Learning Speaker Series

This speaker series is inspired by scholar, educator, and activist bell hooks' critical work on liberatory practices and pedagogy. In her book "Teaching to Transgress: Education as the Practice for Freedom," bell hooks encourages us to think of the classroom as a space to transgress boundaries, a space that connects "the will to know with the will to become." To her, engaged education was a practice for freedom, and the classroom, a space where liberatory practices can be imagined and rehearsed.

Inspired by her work and her legacy, the Teaching to Transgress Speaker Series seeks to feature radical thinkers, practitioners, and pedagogues, and to foster the exchange of critical and innovative pedagogies and teaching practices. With a focus on I-EDIAA (Indigenizing- Equity, Diversity, Inclusion, Anti-racism, Accessibility) the invited speakers will enrich existing programming at the Center for Teaching and Learning at Queen's University and engage the teaching community in emerging, effective, and novel approaches to teaching and learning.
