2ND EDITION

An Introduction to Sustainable Transportation
Policy, Planning and Implementation

Preston L Schiller, Department of Geography and Planning, Queen’s University (Canada) and Department of Civil and Environmental Engineering, University of Washington (Seattle) and Jeffrey R Kenworthy, Curtin University, Perth, Australia and Guest Professor at Frankfurt University of Applied Sciences

The second edition builds and expands upon the highly acclaimed first edition, with new chapters on urban design and urban, regional and inter-city public transportation, as well as expanded chapters on automobile dependence and equity issues; automobile cities and the car culture; the history of sustainable and unsustainable transportation; the interrelatedness of technologies, infrastructure energy and functionalities; and public policy and public participation and exemplary places, people and programs around the globe. Among the many valuable additions are discussions of autonomous and electric vehicles, airport cities, urban fabrics, urban heat island effects and mobility as a service.
