DEPARTMENTAL EVENTS:

Wednesday, February 13: 2:30 p.m.; MC E229: Departmental Meeting.

Thursday, February 14; 2:30 p.m.; MC E314; Emerging Research Seminar Series. *Geographical History through Archives, Maps and Aerial Imagery*. See full details further in the newsletter.

OTHER EVENTS:

February 12 – March 26; Kingston Film Festival: Memory Wars. All shows are free and open to the public.

Thursday, February 14; 1:00 p.m.; MC D214: SNID. Mary Jane Logan McCallum (History, University of Winnipeg) will speak on *Structures of Indifference: An Indigenous Life and Death in a Canadian City*.

Thursday, February 14; 10:00 a.m.; Fireplace Reading Room in Stauffer Library. Fireplace Series. Speakers include Jacqueline M. Davies (Professor in Philosophy) and Paul Grogan (Professor in Terrestrial Ecosystem Ecology). See full details further in the newsletter.

Monday, March 4; 7:00 p.m.; Currie Hall, RMC: RMS Department of Political Science and Economics presentation by Joseph Wong (Ralph and Roz Halbert Professor of Innovation at the University of Toronto’s Munk School of Global Affairs and Public Policy; currently Associate V-P and Vice Provost, International, at the University of Toronto). *Why China Needs to Democratize Sooner Rather Than Later: Lessons from its Democratic Neighbours*.

David Gordon (Arts and Science, Department of Geography and Planning). Ottawa Citizen: *New report paints scenarios for the future of Ottawa*. Dr. Gordon says a good scenario plan looks at the entire region.

Thursday, February 14, the GSC will be hosting the Emerging Research Seminar Series in the Rutherford Room (E314) from 2:30-4:00 PM. This month’s theme is “*Geographical history through archives, maps, and aerial imagery*”. Coffee and cookies will be provided!

2:30 - 3:00 PM: **Dr. Daryn Lehoux**– Ancient geographies and mapping

3:00 - 3:30 PM: **Heather Home** – The Archival Landscape: Research Tips for Geographers

3:30 - 4:00 PM: **Sue Bazely** – Kingston Past: the Place, the People, and a Changing Landscape
CIHR - New Investigator Grants in Child and Youth Health - Due: April 22, 2019
CIHR Team Grant: Mental Wellness in Public Safety Team Grants - Due: November 05, 2019, 08:00PM ET
CIHR/SickKids New Investigator Grants in Child & Youth Health - Due: April 22, 2019
OCE: 5G (ENCQOR) Innovation Platform as a Service (iPaaS)

RESEARCH EVENTS AND OTHER:

Undergraduate Student Summer Research Fellowships (USSRF) - Due: Friday March 1, 2019 4:00pm EST
Undergraduate Student Research Awards (USRA) - Due: March 8, 2019

FIREPLACE SERIES

Kindness and Interconnectivity: Set around a fireplace in Queen's Stauffer Library, this conversation aims to spark interdisciplinary thought. Queen's Jacqueline M. Davis (Professor in Philosophy) and Paul Grogan (Professor in Terrestrial Ecosystem Ecology) will meet for an impromptu conversation, seeking both common and uncommon ground. After the conversation, the audience is invited to join in. Learn more here, and please join us on February 14 from 10am to 11:30am in the Fireplace Reading Room in Stauffer Library. Coffee and tea will be available at 9:45am.

Paul Grogan is interested in how the plants, animals and soil organisms of terrestrial ecosystems interact with each other and with their physical environment. Understanding these inter-relationships between biology and the flows of energy and nutrients is the basis for predicting how terrestrial ecosystems will respond to changes in climate, land-use, and other perturbations.

Jackie Davies is a mother, teacher, immigrant and settler who has spent most of her life in Haudenosaunee and Anishinaabe territory, much of it at Queen's. From her undergraduate studies in Life Sciences, Psychology, and Philosophy to her current affiliations with Philosophy, Gender Studies, Jewish Studies, and Cultural Studies, Jackie is convinced of the epistemic necessity of interdisciplinarity.

As part of THINK Grad Studies Days on February 14, 2019 and March 7, 2019, the Department of Geography and Planning will hold a "Meet and Greet" for prospective students on both days from 1:00-2:00 p.m. in Mackintosh-Corry Hall, Room E208 Boardroom. THINK Grad Studies Days - Registration page; THINK Grad Studies Days - Facebook page.

If you have a prospective student coming to visit, the Faculty of Arts and Science would like you to know that they have negotiated special rates for the following hotels: Donald Gordon Centre: $99.00 single occupancy; and $119.00 double occupancy. donaldgordoncentre.com; Holiday Inn Waterfront: $124.99 + tax per night. Parking is an extra $22 per day; Contact Anna Marie Devos: phone: 613-549-8400 x 2660, by email: reservations@hikingstonwaterfront.com, or Toll Free: 1-800-HOLIDAY. hikingstonwaterfront.com/; Hochelaga Inn: $138+ tax per night. hochelagainn.com

Graduate Student Delivers Lecture

Geography doctoral candidate, Jacqueline Hung, recently gave a talk at the Canadian Science and Technology Museum in Ottawa as part of the Curiosity on Stage event series showcasing researchers and innovations in STEM fields. Jackie spoke about her research on terrestrial ecology and where it fits into the bigger climate warming picture.
The Kingston Canadian Film Festival is the globe's largest all-Canadian film festival entering their 19th year. Dates are set for February 28 to March 3, and all events take place in downtown Kingston. A couple of films that may be of interest to departmental members include:

**THE WOMAN WHO LOVES GIRAFFES;** [https://kingcanfilmfest.com/KCFF19/loves-giraffes/](https://kingcanfilmfest.com/KCFF19/loves-giraffes/)

In the 1950s, a giraffe-obsessed young Canadian named Anne Innis Dagg bucked the societal conventions of her times by traveling to Africa and becoming the first person to conduct a study of African wildlife in its natural habitat. Though her discoveries helped galvanize efforts to protect the species, Dagg herself was hardly invulnerable to the effects of the chauvinism that prevailed in academia. Combining a recreation of Dagg’s original journey with a vivid portrait of its subject in the present, Alison Reid’s documentary shines the spotlight on a woman who was just as intrepid in her pioneering work as a scientist as she was as a fighter for women’s rights and a defender of the impossibly long-necked creature that she’s loved since childhood.

**ANTHROPOCENE;** [https://kingcanfilmfest.com/KCFF19/anthropocene/](https://kingcanfilmfest.com/KCFF19/anthropocene/)

A visually stunning and deeply thought-provoking meditation on the profound and often destructive changes that mankind has wrought on this planet, ANTHROPOCENE: THE HUMAN EPOCH is the third in a collaboration that has already wrought two of the finest ever Canadian documentaries in MANUFACTURED LANDSCAPES and WATERMARK (which closed the KCFF in 2014). Director Jennifer Baichwal and her partner, producer, and cinematographer Nicholas de Pencier once again join forces with photographer Edward
Burtynsky for a wide-ranging look at the dramatic places and very memorable people who are part of this world-altering process. Not soon forgotten, the resulting journey takes viewers from potash mines in the Ural Mountains to Australia’s ravaged Great Barrier Reef to the burning of Africa’s largest stockpile of elephant ivory and rhino horn.

2019 FLA SCIENCE FAIR

It’s that time of year again, and we are happy to announce that the Frontenac, Lennox & Addington Science Fair (FLASF) will take place on Thursday, March 28th and Friday, March 29th, 2019 at Duncan McArthur Hall, Faculty of Education, Queen’s University.

We are recruiting judges. Some projects need to be judged in French so we need fluently bilingual judges. We are recruiting new judges because the number of projects at the Fair has increased significantly in recent years. We need new judges so that every project can have a full schedule of judges! Of course, we always welcome returning judges to sign up again this year.

JUDGES ARE NEEDED ONLY ON THURSDAY EVENING, MARCH 28th

Judges can register by following the “Judges” links at: https://na01.safelinks.protection.outlook.com/?url=www.flasf.on.ca&amp;data=02%7C01%7Cmabeew%40queensu.ca%7C7Ccd1479bfe3c34f8f78ac08d68fab5262%7Cd61ecb3b38b142d582c4efb2838b925e%7C1%7C636854363323211538&amp;sdata=sPy7yoVJV3DRSkRPsXEizzTmailawL%2FW3oMr1EXiaCE%3D&amp;reserved=0

Best regards: Gisela Viegas Fernandes, Judge Registrar R. Stephen Brown, Chief Judge
