

TEACHING POSITION AVAILABLE – Winter 2026
Sedimentology and Stratigraphy- GEOL-GEOE 238 Department of
Geological Sciences and Geological Engineering
Queen's University, Kingston, ON CAN K7L 3N6

The Department of Geological Sciences and Geological Engineering at Queen's University invites applications from suitably qualified candidates interested in teaching / co-teaching a course in Sedimentology and Stratigraphy (GEOL-GEOE 238). This is an introductory lecture course with an expected enrolment of ~ 75 students. Candidates should have a M.Sc. or Ph.D, and teaching experience at the university level in Geological Sciences. This is a Fall term appointment from September 1st – December 31st, 2025, with classes starting on September 2nd.

The University invites applications from all qualified individuals. Queen's is strongly committed to employment equity, diversity and inclusion in the workplace and encourages applications from Black, racialized/visible minority and Indigenous people, women, persons with disabilities, and 2SLGBTQ+ persons. All qualified candidates are encouraged to apply; however, in accordance with Canadian immigration requirements, Canadian citizens and permanent residents of Canada will be given priority. Please indicate in your application if you have a valid legal work status in Canada. Applications from all qualified candidates will be considered in the applicant pool. In order to support your employment at Queen's, we require you to indicate whether or not you will need a work permit.

The University will provide support in its recruitment processes to applicants with disabilities, including accommodation that takes into account an applicant's accessibility needs. If you require accommodation during this process, please contact: Rebecca Dew, Administrative Assistant, at r.dew@queensu.ca

The academic staff at Queen's University are governed by the *Collective Agreement* between the Queen's University Faculty Association (QUFA) and the University, which is posted at <https://www.queensu.ca/facultyrelations/qufa/collective-agreements-lous-moas>.

Applications should include a complete and current curriculum vitae, letters of reference from two (2) referees, and any other relevant materials the candidate wishes to submit for consideration such as a letter of intent, teaching dossier, etc. Please arrange to have applications and supporting letters sent electronically to Rebecca Dew at r.dew@queensu.ca.

Applications will be received until Monday, June 23rd, 2025. Review of applications will commence shortly thereafter, and the final appointment is subject to budgetary approval. Additional information about the Department of Geological Sciences and Geological Engineering can be found at <http://www.queensu.ca/geol/>.

Course Description:

GEOL 238 Sedimentology and Stratigraphy Units: 3.00

An examination of the genetic link between surficial geological processes and the sedimentary record produced by these processes. Students obtain an integrated overview of the nature and operation of the Earth-surface environment. Topics include the origin of sedimentary rocks and their sedimentary structures, depositional environments and stratigraphic successions; stratigraphic principles and their application to sedimentary basins, with implications for hydrocarbon genesis; interaction of natural processes with human society.

Requirements: Prerequisite [GEOL 104/3.0](#) or permission of the Department.
