

Recruitment and Selection Policy

Please note that the university's Recruitment and Selection Policy for non-unionized employees has been suspended pending review.

The university's new recruitment management system **CareerQ** is now live. CareerQ supports the university's commitment to attracting highly skilled staff and enables hiring managers to focus on selecting the best talent in a timely, efficient and professional manner.

Furthermore, candidates now have the opportunity to self-identify as members of an equity-seeking group, which will help the university make further progress on its employment equity commitments.

For renewal of term appointments, Hiring Managers should submit a Staffing Request Form (SRF) on CareerQ.

Please contact your **HR Advisor** to discuss the university's requirements for posting vacant or new positions and find other recruitment resources.
