

Where to go on Exchange based on Academic Plan

If you are wondering where to start your exchange research, we suggest you begin with this document.

This list gives you the universities where Queen's students took most of their courses by discipline. The list only indicates up to 10 universities per discipline and is certainly **not exhaustive**. Students may be able to take courses not listed here, and you are encouraged to review the university's websites for course selection to determine suitability. The list is primarily aimed at Arts and Science students; with some suggestions for Engineering students. Health Science students would find a good fit with any of their university options.
