

2020-2021 Annual Summary: Non-Academic Misconduct

We are committed to transparency and for that reason are pleased to make available this data, derived from formal university policies and procedures. While the data is complete in relation to those formal reporting mechanisms, we recognize that in some important areas of university life even the best data provides only part of the overall picture and must be considered in that light.

99% Undergraduate Respondents

71% Respondents Under 19
