

MARKET-FOCUSED RESEARCH WORKSHOP SERIES FOR HEALTH INNOVATION RESEARCHERS

WHAT IS IT?

A series of four workshops that will help improve the chances of your health innovation research being successfully translated or commercialized. Developed and delivered by Queen's Partnerships & Innovation, these workshops will provide you with the skills and knowledge needed to take your health innovation to the next level.

WHO IS IT FOR?

- Early career researchers
- Post-doctoral fellows
- Graduate students

WHY PARTICIPATE?

Gain the skills and knowledge needed to develop health innovations with real impact.

The skills and knowledge learned during these workshops will be valued by both academia and industry and will be helpful in:

- Preparing successful grant applications
- Building meaningful partnerships with industry or funding agencies
- Creating greater awareness of your research and capabilities
