

Term Adjunct Teaching Positions Available

The Department of Physics, Engineering Physics & Astronomy at Queen's University invites applications from suitably qualified candidates interested in teaching the following courses:

PHYS 117B Introductory Physics

This is the second term of an algebra-based physics course for non-specialists with topics including Hooke's law, sound, waves, electricity and magnetism. It is taught in a blended format, with (existing) online modules and in-person problem/example sessions and laboratory. The course has an expected enrollment of ~700 students and is co-taught with another experienced instructor with significant help of teaching assistants. Candidates should ideally have, or be studying towards, a Ph.D and have some teaching experience at the University level in Physics. *This is a winter term appointment for the period of January 1, 2022 - April 30, 2022, with classes starting January 10, 2022.*

APSC 112 - Physics II

This is an on-campus, undergraduate lecture course with an expected enrollment of ~800 students that is co-taught with three other instructors and significant help of teaching assistants. This is a required second course in Physics for Engineering students using calculus, covering topics of vibration and waves, electricity and magnetism. Candidates should ideally have, or be studying towards, a Ph.D and have some teaching experience at the University level in Physics. *This is a winter term appointment for the period of January 1 - April 30, 2022, with classes starting on January 10, 2022.*

Application Info and Process

The University invites applications from all qualified individuals. Queen's is committed to employment equity and diversity in the workplace and welcomes applications from women, visible minorities, Aboriginal peoples, persons with disabilities, and LGBTQ persons. All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority.

The University will provide support in its recruitment processes to applicants with disabilities, including accommodation that takes into account an applicant's accessibility needs. *If you require accommodation during the interview process, please contact:* Physics, Engineering Physics & Astronomy Undergraduate Program Assistant, **Melissa Balson** at 4mjb5@queensu.ca.

The academic staff at Queen's University are governed by the Collective Agreement between the Queen's University Faculty Association (QUFA) and the University, which is posted at <http://queensu.ca/facultyrelations/faculty-librarians-and-archivists/queens-qufa-collective-agreement>.

To comply with Federal laws, the University is obliged to gather statistical information about how many applicants for each job vacancy are Canadian citizens / permanent residents of Canada. Applicants need not identify their country of origin or citizenship, however, all applications must include one of the following statements: "I am a Canadian citizen /

permanent resident of Canada"; OR, "I am not a Canadian citizen / permanent resident of Canada". Applications that do not include this information will be deemed incomplete.

Applications should include:

- A cover letter indicating the courses they are interested in teaching and including one of the two statements regarding Canadian citizenship / permanent resident status specified in the previous paragraph;
- a complete and current curriculum vitae;
- letters of reference sent directly from two (2) referees;
- and any other relevant materials the candidate wishes to submit for consideration such as a letter of intent, teaching dossier, etc.

Please arrange to have applications and supporting letters sent by mail or email to:

Dr. Robert Knobel, Head
Department of Physics, Engineering Physics & Astronomy
Stirling Hall, 64 Bader Lane
Queen's University
Kingston Ontario Canada K7L 3N6
physhead@queensu.ca

Review of applications will begin on **November 20, 2021** and will continue until the positions are filled. The final appointment is subject to budgetary approval. Additional information about the Department of Physics, Engineering Physics & Astronomy can be found at <http://www.queensu.ca/physics>.
