Cyclical Program Review Final Assessment Report

Programs Reviewed:
- Mathematics (BA, BAH, BSc, BScH)
- Statistics (BA, BAH, BSc, BSCH)
- Mathematics and Statistics (MSc, PhD)
- Mathematics and Engineering (BASc, MASc, PhD)

In accordance with Queen’s University Quality Assurance Processes (QUQAP), this final assessment report provides a synthesis of the external evaluation, internal responses and assessment of the above programs. This report identifies the significant strengths of the program, and opportunities for program improvement. It sets out and prioritizes the recommendations that have been selected for implementation.

An implementation plan is attached that identifies:
- who will be responsible for acting on and monitoring progress on the recommendations,
- any resource or governance implications resulting from the recommendations, and
- timelines for implementation of the recommendations.

Summary of Review
1) The department’s self-study was reviewed by the Dean, Faculty of Arts and Science, Vice-Provost and Dean, School of Graduate Studies and Vice-Provost (Teaching and Learning). It was approved on 19 December 2017.
2) The review team visit took place on 26th -27th February 2018. The review team members were:
   i. Dr. Richard Lockhart, Department of Statistics & Actuarial Science, Simon Fraser University
   ii. Dr. Monica Nevins, Department of Mathematics and Statistics, University of Ottawa
   iii. Dr. Marc Dignam, Department of Physics, Engineering Physics and Astronomy, Queen’s University
3) The visit included a tour of facilities and meetings with
   i. Students (undergraduate and graduate)
   ii. Faculty
   iii. Staff
   iv. Liaison librarian
   v. Cognate department heads
   vi. Postdoctoral fellows
   vii. Dean, Faculty of Arts and Science
The review team reported on 12 March 2018. Responses to the review team report were provided by the Head, Department of Mathematics and Statistics, Dean, Faculty of Engineering and Applied Science, Dean, Faculty of Arts and Science and Vice-Provost and Dean, School of Graduate Studies.

5) The Senate Cyclical Program Review Committee considered all the documentation at its meeting on 07 May 2018, and reported to the Provost on the programs’ strengths, opportunities for enhancement and recommendations for improvement.

The following strengths were noted:

- Commitment to excellence in teaching, student academic support and experiential learning
- Inclusive and diverse department with a strong sense of community
- Collaborative, innovative and interdisciplinary research
- Innovative interdisciplinary undergraduate program offerings
- Excellent student retention rates

The following opportunities for enhancement were noted:

- Begin to address other aspects of the globalism-diversity-inclusion pillar such as those relating to teaching and learning (variety of teaching strategies, clear assessment outcomes, scaffolded support to develop writing and speaking skills)
- Increase the number of TAs in the Help Centre to assist with upper year courses. Fully integrate all teaching materials to onQ
- In conjunction with Physical Plan Services (PPS) improve study and classroom space for graduate students and address the overall poor condition of Jeffery Hall, including accessibility
- Based on USAT scores, introduce professional development for instructors
- Curriculum development that includes non-Western historical perspectives and highlights achievements of underrepresented groups in the field
- Recruit more women into the Math and Engineering program, graduate programs and faculty complement
- Develop a communications plan to inform students about the campus services that are available

The academic programs in the Department of Mathematics and Statistics have been approved to continue.

Date of next review: 2025-2026

Prepared by Vice-Provost (Teaching and Learning) 30 June 2018
## Implementation Plan

The Deans, Faculty of Arts and Science and Faculty of Engineering and Applied Science shall be responsible for monitoring the implementation plan. The details of progress made will be presented in writing to the Provost and Vice-Provost (Teaching and Learning) and filed in the Office of the Provost and Vice-Principal (Academic). Monitoring reports will be posted on the university web site.
