

Queen's University is pleased to announce the appointment of Kevin Deluzio as dean of the Faculty of Engineering and Applied Science for a five-year term effective July 1, 2017. The offer of appointment from Principal Woolf was in response to the enthusiastic recommendation of the Principal's Advisory Committee chaired by Provost Benoit-Antoine Bacon.

Dr. Deluzio, a proud Queen's alumnus, is currently the head of the Department of Mechanical and Materials Engineering at Queen's, where he has been a faculty member since 2006.

He was previously the founder and director of the Dynamics and Human Motion Laboratory at Dalhousie University and an associate professor in the School of Biomedical Engineering, cross appointed to the Department of Surgery.

Dr. Deluzio's research career is based on an academic foundation of applied mathematics, statistics and mechanical engineering. His transformative work, in particular on human motion and orthopaedic biomechanics, has gained international recognition through extensive publications, direct contributions in international conferences and service, and leadership in his profession.

Dr. Deluzio's service to Queen's has included various advisory committees across the university, the development of a workload standard model to support a highly productive faculty, and the implementation of a successful mentorship program for new faculty members. As an instructor, he has been recognized for his award-winning collaborative teaching models and cross-disciplinary programming.

His promotion of research excellence has been a hallmark of his headship which has led to success in innovation, funding and reputation for the Faculty of Engineering and Applied Science. His collaborative leadership style will serve the faculty well at a time of great opportunity provided by faculty renewal and the opening of cutting-edge engineering research space in the Innovation and Wellness Center.

The principal and the provost wish to extend their sincere thanks to Kim Woodhouse for an exceptional 10-year tenure as dean, and to the following individuals for their exceptional commitment and sound advice on the Principal's Advisory Committee.

Benoit-Antoine Bacon	Provost and Vice-Principal (Academic)
Irène Bujara	University Advisor on Human Rights and Equity
Mark Daymond	Professor, Mechanical and Materials Engineering

Marc Dignam	Department Head and Professor, Department of Physics, Engineering Physics and Astronomy
Amir Fam	Associate Dean (Research and Graduate Studies), Professor and Donald and Sarah Munro Chair in Engineering and Applied Science
Saba Farbodkia	President, Society of Graduate & Professional Students
John Fisher	Acting Vice-Principal, Research
Brian Frank	Associate Dean (Teaching and Learning) and Professor, Electrical and Computer Engineering
Melanie Howard	Director, Aboriginal Access to Engineering
Sarah Kauffman	Executive Director Finance and Administration, Faculty of Engineering and Applied Science
Marianna Kontopoulou	Associate Head and Professor, Chemical Engineering
Jane McMillan	Executive Director of Development, Faculty of Engineering and Applied Science
Kathy O'Brien	Associate Vice-Principal (International)
Julian Ortiz	Associate Professor, Mining Engineering
Taylor Sadwasky	President, Engineering Society Representative
Lori Stewart	Director, Office of the Provost and Vice-Principal (Academic)
Ann Tierney	Vice-Provost and Dean of Student Affairs
