Queen’s University is pleased to announce that Dr. Richard Reznick has accepted reappointment as Dean of the Faculty of Health Sciences and Director of the School of Medicine for a five year term effective July 1, 2015. The offer of reappointment from the Principal, Daniel Woolf, was in response to the unanimous and enthusiastic recommendation of the Principal’s Advisory Committee, which was chaired by Alan Harrison, Provost and Vice-Principal (Academic).

Dr. Reznick joined Queen’s as Dean of the Faculty of Health Sciences in July 2010. Under his leadership, the Faculty of Health Sciences has developed a considerably broader profile in the health sciences community and has built strong relationships with all three Kingston hospitals. Dr. Reznick has also fostered a strong connection with students in the faculty.

Dr. Reznick completed his medical degree at McGill University and later graduated from the general-surgery training program at the University of Toronto. He completed a Master of Education degree at Southern Illinois University and then did a fellowship in colorectal surgery at the University of Texas in Houston.

Immediately prior to joining Queen’s, Dr. Reznick was the R.S. McLaughlin Professor and Chair of the Department of Surgery at the University of Toronto and Vice-President, Education, at the University Health Network. He is considered one of the pre-eminent surgical educators in North America and abroad. An accomplished general and colorectal surgeon, his principal academic focus is research in medical education.

As Dean of the Faculty of Health Sciences, Dr. Reznick serves as the Chief Executive Office of the Southeastern Ontario Academic Medical Association (SEAMO). He is also currently a member of the Boards of Kingston General Hospital, Hotel Dieu Hospital and Providence Care.

The Principal joins the Provost in expressing the University’s gratitude to the following individuals, all of whom served on the Principal’s Advisory Committee. Their willingness to undertake this responsibility is very much appreciated.
