

CURRICULUM VITAE

Christopher Robert Bowie, Ph.D., C.Psych.

Professor & Clinical Psychologist

Work Address: Queen's University, Department of Psychology, Kingston, Ontario, K7L 3N6, Canada
Tel 613-533-3347, Fax 613-533-2499, Email: BowieC@QueensU.ca
Website: www.queensu.ca/psychology/People/Faculty/Christopher-Bowie.html

Biosketch

Dr. Bowie is a Professor in the Department of Psychology, and a member of the Psychiatry Department and Centre for Neuroscience Studies, at Queen's University in Kingston, Ontario. He is the Head Consulting Psychologist at the Early Psychosis Intervention Program in Kingston and a Clinician Scientist at the Centre for Addiction and Mental Health in Toronto. His research interests focus on determining the causes and correlates, and developing treatments for, cognitive deficits in mental disorders such as schizophrenia and mood disorders.

He completed his Ph.D. at Hofstra University in New York, training with Drs. Mark Serper and Philip Harvey. For his PhD work, was awarded the Association for Psychological Science's award for Top Ranked Thesis of the year. He was the first doctoral student to receive the New York State Office of Mental Health Award for Services Research based on his pioneering work on cognitive remediation for severely ill people with schizophrenia.

After his doctoral internship at the Clinical Neuroscience Center of Pilgrim Psychiatric Center, he did post-doctoral training with Dr. Barbara Cornblatt, earning a Young Investigator Award from the National Alliance for Research in Schizophrenia and Depression (NARSAD). Dr. Bowie then accepted an academic appointment at Mount Sinai School of Medicine in New York and continued to study the functional consequences of cognitive impairment in schizophrenia before moving to Queen's in 2008. He has received two additional NARSAD Awards to study cognitive remediation in schizophrenia and in 2011 received the Top-Ranked Young Investigator Fellow at the annual Winter Brain Conference. Most recently, he was awarded the Dr. Samarthji Lal award for mental health research from the Graham Boeckh Foundation.

Dr. Bowie is the author of over 200 peer reviewed scientific publications and several books and book chapters. He was co-editor of: *Cognitive Remediation to Improve Functional Outcomes* and his novel cognitive remediation's treatment manual: *Action-Based Cognitive Remediation*. Currently he is leading multiple trials of cognitive remediation for severe mental disorders, developing new approaches to understand stigma and social exclusion toward psychosis, and examining the interactive effects of cognitive deficits and cognitive processes.

CURRENT POSITIONS

Primary Appointment:

Professor (1 July 2016)
Department of Psychology, Queen's University

Other Appointments:

Head Consulting Psychologist, Heads Up! Early Intervention for Psychosis Program, Kingston, ON
Independent Scientist at Centre for Addiction and Mental Health, Toronto, ON

Cross-Appointments

Department of Psychiatry, Queen's University
Centre for Neuroscience Studies, Queen's University

EMPLOYMENT HISTORY

| | |
|-----------|--|
| 2015-2020 | Director of Clinical Training Department of Psychology, Queen's University |
| 2012-2016 | Associate Professor Department of Psychology, Queen's University |
| 2008-2012 | Assistant Professor Department of Psychology, Queen's University |
| 2006-2008 | Assistant Professor Mount Sinai School of Medicine |
| 2004-2008 | Clinical Psychologist Bronx Veteran's Affairs Medical Center |
| 1997-2008 | Applied Behavior Science Specialist Epilepsy Foundation of Long Island |
| 2003-2006 | Instructor Mount Sinai School of Medicine |
| 2002-2003 | Assistant Psychologist/Post-Doctorate in Neuropsychology The Recognition and Prevention Program (B. Cornblatt, PhD, Mentor) The Zucker Hillside Hospital of the North-Shore LIJ Health System |
| 2002-2004 | Neuropsychological Examiner The Epilepsy Foundation of Long Island |
| 1998-2002 | Neuropsychology Research Fellowship Mount Sinai School of Medicine (P. Harvey, PhD, Mentor) |
| 2000-2002 | Assistant Research Coordinator The Zucker Hillside Hospital of the North-Shore LIJ Health System |
| 1999-2000 | Clinical Psychology Intern Pilgrim Psychiatric Center, Brentwood, NY, USA |

RESEARCH INTERESTS

Neurocognition in Psychosis and Mood Disorders
Functional Outcomes in Psychotic and Mood Disorders
Novel Behavioral Assessment Methods
Early Intervention and Prevention of Severe Mental Illness
Pharmacological and Behavioral Treatment of Cognitive Deficits and Affective Biases

LICENSE

New York State Licensed Psychologist #016712-1

College of Psychologists of Ontario, Certificate in Clinical Psychology (Certificate Number 4913)

EDUCATION

Hofstra University, Clinical/School Psychology

M.A. Awarded, August 1997

Ph.D. Awarded, June 2002

Dissertation Title: "Neurocognition, Symptomatology, and Social-Adaptive Functioning in Alcohol-Abusing Schizophrenia Patients"

State University of New York, Oswego, Psychology

B.A. with Honors Awarded, May 1996

HONORS AND AWARDS

American Psychological Society (*Now Association for Psychological Science*)

Graduate Student Grant Program: First Prize for Ph.D. Dissertation, June 2002

The New York State Office of Mental Health

Achievement Award in the Area of Services Research for 2002

National Alliance for Research in Schizophrenia and Depression

Young Investigator's Award, 2003

Schizophrenia Global Medical Conference

Young Investigator Travel Award, 2004

National Institute of Health

Student Loan Repayment Award, 2004

National Alliance for Research in Schizophrenia and Depression

Young Investigator's Award, 2007

Winter Conference on Brain Research

Travel Fellowship, 2011 *Ann Kelley Memorial Fellowship as top rated fellow

Queen's University

Office of Research Services Travel Award, 2011

Ontario Ministry of Research and Innovation

Early Researcher Award, 2011

American Journal of Psychiatry

Editor's choice for article of the year, 2012

Brain and Behavior Research Foundation

Independent Investigator Award, 2013

Queen's University

Undergraduate Teaching Award, 2019

Graham Boeckh Foundation

Dr. Samarthji Lal Award for Mental Health Research, 2020

TEACHING

Mount Sinai School of Medicine

Classification of Memory Disorders; Differential Diagnosis of Geriatric Depression; (“Pseudodementia”) and Dementia; Differential Diagnosis of Psychotic Disorders; Neuropsychiatry of Schizophrenia; Neuropsychology of Schizophrenia; Research Methodology; Statistics

Colloquium Coordinator 2011-2013
Undergraduate Committee 2012-2015
Policy and Procedures Committee 2015-2018
Graduate Committee 2015-2018
Director of Clinical Training 2015-2020

ADVISING/SUPERVISION

Thesis Committee

Supervisor

Master’s Theses:

Maya Gupta, Clinical Psychology, Queen’s University, 2011, M.Sc. Thesis:

Understanding treatment-resistant depression: the complicated relationships among neurocognition, symptoms, and functioning.

Katherine Holshausen, Clinical Psychology, Queen’s University, 2012, M.Sc. Thesis:

Structured Therapy for the Enhancement of Purposeful Speech (STEPS): A step in the right direction to treating formal thought disorder in schizophrenia.

Michael W. Best, Clinical Psychology, Queen’s University, 2013, M.Sc. Thesis:

Neurophysiological Behavioural Responses to Schizophrenia-Associated Communication Abnormalities

Melissa Milanovic, Clinical Psychology, Queen’s University, 2016, M.Sc. Thesis: *Self-efficacy in depression: bridging the gap between competence and real-world functioning*

Tanya Tran, Clinical Psychology, Queen’s University, 2017, M.Sc.: *Effort-based Decision Making in Behavioral and Cognitive Challenges as Predictors of Functioning in Major Depression*

Stephanie Woolridge, Clinical Psychology, Queen’s University, 2019, M.Sc. Thesis: *Reducing diagnostic*

uncertainty in first-episode psychosis: a neuropsychological approach to differentiating between cannabis-induced and primary psychotic disorders.

Cheslea Wood-Ross, Clinical Psychology, Queen's University, 2020, M.Sc.: *Cognitive performance in geriatric depression: examining the sensitivity of clinical neuropsychological and experimental working memory tasks.*

Ph.D. Theses:

Maya Gupta, Clinical Psychology, Queen's University, 2015, Ph.D. Thesis: *Family Cohesion and Flexibility in Early Episode Psychosis*

Katherine Holshausen, Clinical Psychology, Queen's University, 2016, Ph.D. Thesis: *What's so funny? an evaluation of the relations among humour use, mirth, and depressive symptomatology*

Michael Grossman, Clinical Psychology, Queen's University, 2018, Ph.D. Thesis: *Mechanisms of Social Cognition in Early Episode Psychosis*

Michael W. Best, Clinical Psychology, Queen's University, 2019, Ph.D. Thesis: *A Comparison of Perceptual Training and Executive Training for Improving Neurophysiological Processing, Neurocognition, and Community Functioning in Individuals with Psychotic Disorders*

Melissa Milanovic, Clinical Psychology, Queen's University, 2020, Ph.D. Thesis: *Cognitive training in major depressive disorder: perceptions of cognitive malleability, importance of autonomy, and efficacy of a brief psychoeducational intervention.*

Committee Member

Clinical Psychology, Queen's University M.Sc. Theses:

Allisha Patterson, 2009, Sylvia Magrys, 2009, Cherie La Roque, 2010, Laura Katz, 2010, Reagan Mazurka, 2012, Daniella Ladowski, 2014, Tiffany Tsui, 2016, Mashal Haque, 2016, Simone Cunningham, 2017, Katherine Fretz, 2018

Clinical Psychology, Queen's University Ph.D. Theses:

Julie Burbidge, 2013, Adam Heenan, 2014, Sylvia Magrys, 2015, Lisa Bradford, 2015, Laura Katz, 2015, Cherie La Roque, 2018, Justin Gates, 2019, Amanda Shamblaw, 2019, Ashley Vanstone, 2018

Brain Behaviour, and Cognitive Psychology, Queen's University Ph.D. Theses:

Nicole Bardikoff, 2016

Neuroscience, Queen's University, M.Sc. Theses:

Ryland Steel, 2013, Elaine Choi, 2015, Staci Angelis, 2016, Robyn Cardy, In Progress

Neuroscience, Queen's University, M.Sc. Theses:

Celina Nahanni, 2014,

Education, Queen's University, M.Sc. Theses:

Christina Luzius-Vanin, 2019

External Examiner

Margarita Bougioukas, Clinical Psychology, Hofstra University, 2008, Ph.D. Thesis

Regan Eric Patrick, Psychology, McMaster University, 2014, Ph.D. Thesis

June Lystad, Clinical Psychology, University of Oslo, 2016, Ph.D. Thesis

Heather Brooks, Medical Science, University of Toronto, 2018, MSc Thesis

Jessica D'Arcy, Medical Science, University of Toronto, 2020, MSc Thesis
Elayne Aherne, Clinical Psychology, University of Limerick, 2020, PhD Thesis
Karolina Rokita, Clinical Psychology, National University of Ireland-Galway, 2020, PhD Thesis

Post-Doctoral Fellows

Winnie Leung, Ph.D., Mount Sinai School of Medicine, 2006-2008
Matt Vandermeer, Ph.D., Queen's University, 2021-
Chloe Stewart, Ph.D., Queen's University, 2021-

Undergraduate Honour's Psychology Students

2009

Shannon Xavier, Queen's University: *Neurocognition, functional capacity and real-world outcomes in psychometrically defined schizotypy*
Emma Bassett, Queen's University: *Neurocognitive and functional deficits in undergraduate students with elevated depressed*

2010

Michael Levi, Queen's University: *An evoked potential examination of emotional processing in schizophrenia*
Theresa Bernard, Queen's University: *The association between hypomania, self-reported confidence, and betting: an investigation into goal dysregulation*

2011

Lisa Gou, Queen's University: *Does Misery Love Company? Non-conscious Social Mimicry as a Function of Depressive Symptoms and Conversational Partner Affect*
Lauren David, Queen's University: *Deconstructing the Wisconsin Card Sorting Test: Investigating cognitive impairments in schizophrenia using psychophysical and behavioural assessment*
Laura Stefanik, Queen's University: *Explaining neurocognitive variance in functioning in schizophrenia using eye movement and performance-based measures*

2012

Sarah Oullette, Queen's University: *Measuring Stigmatizing Attitudes toward Schizophrenia: A Comparison of Traditional and Novel Approaches*
Erin Meiklejohn, Queen's University: *Influence of Psychiatric Labels and Schizophrenia Symptom Behaviours on Nonverbal Behaviours during Interpersonal Interactions*

2014

Caitlin Heino, Queen's University: *Demonstrating continuity in hallucinations and delusions: A novel method of stigma reduction*
Jennifer Rigby, Queen's University: *Reducing stigma towards schizophrenia with education: A cognitive behavioural theory-approach to group intervention.*

2016

Mariana Borsuk-Gudz, Queen's University: *Affective attentional bias flexibility and depressive symptomatology*

2017

Stephanie Woolridge, Queen's University: *Look on the bright side: Affective attentional bias training in depression*
Chelsea Wood-Ross, Queen's University: *Cognitive Training in Major Depressive Disorder: An investigation of cognitive engagement and perceived self-efficacy*

2018

Lilian J.C. Laferriere, Queen's University: *The Impact of Napping on the Consolidation of Clinically-Relevant Information: A Comparison of Depressed and Healthy Individuals*

Jessie Leigh Eriksen, Queen's University: *A Comparison of Reading Ability in First-Episode Psychosis and Developmental Dyslexia: Evidence for a Differential Diagnosis*

Amanda Hagen, Queen's University: *Effects of Computer- versus Self-Titration of Difficulty during a Cognitive Remediation Exercise on Intrinsic Motivation in Major Depressive Disorder*

2019

Alison Carney, Queen's University: *An Analysis of Strategy Use in Cognitive Remediation for Depression*

Andrew Whiteman, Queen's University: *Chunking Memory and Social Functioning*

2020

Mara Dempsey, Queen's University: *Meeting your potential: Predictors of the competence-performance discrepancy in schizophrenia*

Natasha Barich, Queen's University: *Cognitive and physical activity in individuals with major depressive disorder.*

2021

Lindsay Simourd, Queen's University: *Neurocognitive Ability and Performance Appraisals as a Function of Task Difficulty in Remitted Depression*

2022

Ian Doell, Queen's University: *Social Media Stigmatization of Schizophrenia and Depression*

Maya McGregor, Queen's University: *Subjective disability and distress in early psychosis: Patient and clinician perspectives*

Supervised Graduate Students

Completed

Maya Gupta, M.Sc. & Ph.D., currently Psychologist, PEPP Early Psychosis Program, London, ON

Katherine Holshausen, M.Sc. & Ph.D., currently Director of Research, Community Psychiatry, St. Joseph's Hospital, Hamilton, ON

Michael Grossman, Ph.D., currently Post-Doctoral Fellow at CAMH, Toronto, ON

Mike Best, currently a Ph.D., currently Assistant Professor at University of Toronto

Melissa Milanovic, Ph.D., currently a Psychologist at Centre for Addiction and Mental Health

Active

Mashal Haque

Tanya Tran

Stephanie Woolridge

Chelsea Wood-Ross

Lindsay Simourd

Awards for Supervised Students

Canadian Psychological Association Award for Undergraduate Thesis, 2009 (Shannon Xavier)

Canadian Institute of Health Research Student Fellowship, 2010 (Katherine Holshausen)

Canadian Institute of Health Research Student Fellowship, 2010 (Maya Gupta)

Ontario Graduate Scholarship Fellowship, 2011 (Maya Gupta)

Cognitive Remediation in Psychiatry, 2011: Best Student Poster Presentation (Maya Gupta)

Canadian Psychological Association Clinical Section Travel Award, 2011 (Katherine Holshausen)

Canadian Psychological Association Clinical Section Travel Award, 2011 (Maya Gupta)

Ontario Graduate Scholarship Fellowship, 2012 (Katherine Holshausen)
Cognitive Remediation in Psychiatry, 2011: Best Student Poster Presentation (Michael Grossman)
Canadian Institute of Health Research Doctoral Student Fellowship, 2013 (Maya Gupta)
Vanier Award, 2013 (Katherine Holshausen)
Canadian Institute of Health Research Doctoral Student Fellowship, 2014 (Katherine Holshausen)
Vanier Award, 2014 (Michael Best)
Canadian Institute of Health Research Doctoral Student Fellowship, 2014 (Michael Best)
Social Sciences and Humanities Research Council Doctoral Student Award, 2014 (Michael Grossman)
Social Sciences and Humanities Research Council Master's Student Award, 2014 (Melissa Milanovic)
Social Sciences and Humanities Research Council Doctoral Student Award, 2016 (Melissa Milanovic)
Ontario Graduate Scholarship Fellowship, 2017 (Tanya Tran)
Beck Institute Scholar, 2017 (Michael Best)
Canadian Institute of Health Research Student Fellowship, 2018 (Stephanie Woolridge)
Vanier Award, 2020 (Stephanie Woolridge)

ORAL PRESENTATIONS (SELECTED)

Enhancing Cognition in Severe Mental Disorders. Plenary Talk, Canadian Association for Geriatric Psychiatry, 5 November 2017

Cognition in Mental Disorders: Impairments, Implications, and Opportunities for Treatment. Invited Plenary Speaker, Schizophrenia Society of British Columbia Conference: Bringing Cognitive Remediation to British Columbia, 14 Oct 2017

Avoidance of Cognitive Effort in Depression. Invited Talk, Cognitive Remediation in Psychiatry Conference, 9 June 2017.

Metacognition in Psychosis: From Evidence to Treatment, Symposium Discussant. International Conference on Schizophrenia Research, 26 March 2017

Action-Based Cognitive Remediation: Pairing Cognitive Training with Skill Development and CBT Principles, Oral Paper Session. International Conference on Schizophrenia Research, 28 March 2017

Psychological Treatments for Cognition. Centre for Addiction and Mental Health, McCain Centre Grand Rounds, 22 March, 2017

Cognition and Functional Capacity in Depression as Critical Treatment Targets. Canadian Psychiatric Association Annual Meeting, Continuing Professional Development Symposium. Toronto, 22 September 2016

Action Based Cognitive Remediation. Invited Talk. Rigshospitalet, Denmark, 5 Aug 2016.

Bridging Groups for Cognitive Remediation. Invited Symposium. Cognitive Remediation in Psychiatry, New York, 10 June 2016

Changes in dimensions of negative symptoms differentially predict self-rated and observer-rated functional outcomes following cognitive remediation. Symposium. Schizophrenia International Research Society, Florence, Italy, 4 April 2016

Cognitive remediation for psychosis: which approaches produce effective and sustained behavior change? Invited Talk. Cognition Conference: Schizophrenia International Research Society, Florence, Italy, 1 April 2016

Functioning in Depression: Cognition, Competence, & Everyday Outcomes. Invited Clinical Rounds. St. Joseph's Hospital, Hamilton ON. 16 June 2016.

Cognition in Severe Mental Illness: Implications for Functioning and New Treatment Options. Invited Clinical Rounds. London Health Sciences Centre, London, ON. 5 Feb 2016.

Cognitive Remediation. Invited Workshop. Crisis Workers Society of Ontario. May 2015

Cognitive Remediation to Promote Recovery: Innovative Models from Canada, France, and the New York State Office of Mental Health. Workshop, American Psychiatric Association, May, 2015

Cognitive Impairments in Severe Mental Illness: Implications and Treatment. Invited Psychology Department Talk. National University of Ireland, Galway, March, 2015

Cognitive Impairments in Severe Mental Illness: Implications and Treatment. Invited Psychology Department Talk. University of Limerick, April, 2015

Cognitive Remediation in Depression. Invited Talk. Institute of Medicine Workshop on Enabling Discovery, Development, and Translation of Treatments for Cognitive Dysfunction in Depression, Washington, D.C., February, 2015

Enhancing Cognition and Function in Older Patients with Serious Mental Illness: A Focus on Cognitive-Behavioural Therapy and Skills Training. Workshop, Center for Addiction and Mental Health, Toronto, ON, 10 Oct 2014.

Premorbid Adjustment and Current Societal Factors Contribute to the Prediction of Functional Outcome in Schizophrenia. Symposium Session, Society for Research in Psychopathology, Evanston, IL, 19 Sept 2014.

Cognition in Bipolar Disorder: Profile of Impairment and Strategies for Treatment. Invited Talk, Sunnybrook Hospital, Toronto, ON, 19 August 2014.

Cognitive Remediation: New Methods for Improving Functioning and Reaching Underserved Populations. Invited Talk, Douglas Institute, Montreal, QC, 26 Jun 2014.

Rehabilitation of the Patient with Schizophrenia. Invited Talk, Fundacion Cerebro y Mente Conference, Madrid, Spain, 21 Jun 2014.

Cognitive Remediation Methods to Enhance Functional Outcomes. Invited Plenary Talk, Cognitive Remediation in Psychiatry Conference, New York, 6 Jun 2014.

Early Intervention Programs should not Discourage Struggle and Failure: They are Developmentally Typical and Critical Experiences. Invited Talk, Queen's University Department of Psychiatry Research Day, Kingston, ON, 30 May 2014.

The Experience of Psychosis across Mental Disorders. Invited Talk, Educational Workshop Presented by the Centre for Abuse and Trauma Therapy, Kingston, ON, 23 May 2014.

Functional Capacity Measures. Invited Talk, The International Society for CNS Clinical Trials and Methodology, 20 March 2014.

Selecting Patients for Cognitive Treatment Trials. Invited Talk, The International Society for CNS Clinical Trials and Methodology, 20 March 2014.

“Raising the Bar” Moving Beyond Symptom Reduction and Targeting Everyday Functioning as the Barometer for Treatment Success in Mental Disorders. Invited Talk, Healthy Minds Canada, Kingston ON, Sept 2012.

Neurocognitive Enhancement for Treatment-Resistant Depression: Efficacy, Effectiveness, and the Role of Internet-Based Homework. Invited Talk, Cognitive Remediation in Psychiatry Conference, June 2012.

Cognitive Remediation for Treatment Resistant Depression. Invited Talk, Psychiatry Research Day, Queen's University, Kingston, ON, June 2012.

Cognitive Remediation in Schizophrenia: Maximizing Efficacy and Promoting Effectiveness. Invited Talk, Centre for Addiction and Mental Health, Toronto, April, 2012.

Incorporating Cognitive-Behavioural Techniques into Cognitive Remediation Therapy. Workshop Presented at Cognitive Remediation in Psychiatry. New York, June 10, 2011.

Self-reported Quality of Life and Clinician-Reported Functioning in Schizophrenia: Interrelationships and Sensitivity to Neurocognitive Change. The International Congress on Schizophrenia Research. Symposium Presentation. Colorado Springs, April 6, 2011.

Cognition in Schizophrenia and Bipolar Disorder as a Function of Psychosis Status. Cognition Satellite Conference of the International Congress on Schizophrenia Research. Oral Session. Colorado Springs, April 1, 2011.

Cognitive Remediation in Schizophrenia: Challenges in Generalizing Neurocognitive Enhancement to Everyday Behavior Change. Winter Conference on Brain Research. Symposium Session. January 24, 2011.

Neurocognitive Enhancement in Schizophrenia: Generalization to Real World Disability Reduction? Invited Speaker. Cognitive Remediation in Psychiatry. Invited Speaker. June, 2010.

Prediction and Treatment of Real World Functional Impairments in Schizophrenia. International Conference on Handicap Psychique [MENTAL DISABILITY], *Real-World Functioning* et Retablissement [RECOVERY], Ecole Normale Supérieure, Paris. Invited Speaker. May, 2010.

Functional Disability as a Treatment Target in Psychotic Disorders. Zucker Hillside Hospital, April, 2010. Grand Rounds.

Assessing and Predicting Social versus Adaptive Impairments in Schizophrenia. Zucker Hillside Hospital. April 2010. Research Symposium.

Direct and Indirect Predictors of Real World Outcomes in Bipolar Disorder and Schizophrenia. Society for Research in Psychopathology. Symposium. September, 2009.

Assessment of Disability in Asian Clinical Trials. National Clinical Drug Evaluation Unit. Panel Discussion, May, 2009.

Preparing for the Academic Job Market. Society for Research in Psychopathology. Panel Discussion. September, 2008.

Correlates of Lifetime Work Outcomes in Schizophrenia. Society for Research in Psychopathology. Paper Session. September, 2008.

Cognition and Functional Outcomes in Schizophrenia. University of Medicine and Dentistry of New Jersey. Grand Rounds, November, 2007.

Direct and mediated effects of cognition on functional outcomes in schizophrenia. Society for Research in Psychopathology. Symposium. September, 2007.

What are the functional implications of neuropsychological normality in schizophrenia? Society for Biological Psychiatry. Paper Session. May, 2007.

Predicting real world outcomes from discrete functional and cognitive abilities. International Congress on Schizophrenia Research. Paper Session. April, 2007.

Cognitive and functional deficits in schizophrenia. Woodhull Hospital, Brooklyn, NY. Grand Rounds. September, 2006.

Sadder but wiser in schizophrenia. Society for Research in Psychopathology. Paper Session. September, 2006.

Determinants of functional disability in schizophrenia. Hudson Valley Veteran's Hospital. Grand Rounds, April, 2005.

Are negative symptoms and cognitive impairment separable treatment targets in schizophrenia? National Clinical Drug Evaluation Unit, 2005. Invited Symposium.

ONGOING RESEARCH SUPPORT

1. Canadian Institutes of Health Research
April 2022 - April 2026

Promoting cognitive health in schizophrenia: A national collaborative effort to implement online psychological interventions.

This study examine the effectiveness of two online interventions (ABCR and MCT) on multiple dimensions of mental health and functioning and also evaluate the implementation of such online interventions across multiple care settings.

Role: Principle Applicant

Total Direct Costs: 852,976 CAD

2. Canadian Institutes of Health Research
March 2023-March 2024

Engaging Stakeholders in the Development of Standards for a Canadian Rapid Learning Health System in Early Intervention Services for Psychosis

Role: Co-Applicant

Total Direct Costs: 200,000 CAD

3. Canadian Institutes of Health Research
July 2022-July 2027

Efficacy of Combined Cognitive Behavioural Therapy and Cognitive Remediation Therapy for Schizophrenia-Spectrum Disorders: A Randomized Controlled Trial

We are examining the independent and combined effects of two psychological interventions for psychosis in a five site trial.

Role: Local Principal Investigator (M. Best, Study Principal Investigator)

Total Direct Costs: 956,250 CAD

4. Canadian Institutes of Health Research Planning and Dissemination Grant
July 2022-July 2023

Engaging Stakeholders in Establishing Evaluation Priorities for Early Psychosis Intervention Services

Role: Co-Investigator (A. Polillo, J. Durbin, N Kozloff, PIs)

Total Direct Costs: 10,000 CAD

5. Canadian Institutes of Health Research

April 2020-March 2025

Functional Improvement and Recurrence Risk after First Episode Depression: Independent and Interactive Roles of Premorbid Factors, Cognition, Reward, and Stress

This study is examining how early adverse experiences, cognitive ability, cognitive effort, and reward processing are associated with recovery of daily living skills and episode recurrence in a 2 year period following first episode depression.

Role: Principal Investigator

Total Direct Costs: 673,200 CAD

6. Mental Health Research Canada

April 2020-April 2022

Effectiveness of a Self-Stigma Therapy for Reducing Suicidal Thoughts and Behaviours in Early Psychosis.

This five site trial will examine post-treatment and one-year follow-up effects of a group therapy for self stigma on mood, hopelessness, and suicidal thoughts and behaviours in early psychosis.

Role: Principal Investigator

Total Direct Costs: 50,000 CAD

7. Canadian Institutes of Health Research

April 2019-March 2024

Enhancing Frontal Lobes Plasticity and Function in Patients with Mild Cognitive Impairment

This study is examining how neurostimulation can affect cognitive functioning in patients at-risk for dementia.

Role: Co-Investigator (Tarek Rajji, PI)

Total Direct Costs: 707,625 CAD

8. Brain Canada, Famille Chagnon: Interventions for Prevention of

May 2014-May 2019; 5-year extension awarded to 2024

Alzheimer Disease and Related Disorders: Multi-Investigator Research Initiative.

Prevention of Alzheimer's Dementia in high risk population: A randomized controlled trial of a combination of cognitive training and brain stimulation

This study pairs the cognitive training I have developed with Transcranial Direct Current Stimulation in an older sample at risk for dementia.

Role: Co-Investigator; Lead Investigator: Cognitive Remediation; Lead Investigator: Cognitive Assessment

Overall PIs: Tarek Rajji & Benoit Mulsant

Total Direct Costs: 9,996,087 CAD

9. First Episode Psychosis Program, Hotel Dieu Hospital

April 2010 – Annual Renewal

Contract

Role: Principal Investigator

Total Direct Costs per year: 56,000 CAD

COMPLETED RESEARCH SUPPORT

1. NARSAD Young Investigator's Award

July 2003- June 2006

Changes in Cognitive Functioning after Pharmacological Treatment in Adolescents At-Risk for Schizophrenia

The major goal of this study was to examine changes in neurocognition in adolescents considered prodromal for schizophrenia after they were treated with antipsychotic or antidepressant medications.

Role: Principal Investigator

Total Direct Costs: 60,000 USD

2. NIMH R44 MH068077-02

June 2006-June 2008

Computerized Antipsychotic Evaluation System

This was a subcontract to collect normative data for a computerized cognitive battery designed to be used to track cognitive change following antipsychotic medication administration.

Role: Local Principal Investigator

Total Direct Costs: 17,380 USD

3. NIMH MH 36692

June 2007-May 2012

Silvio Conte Neuroscience Center: White Matter Abnormalities in Schizophrenia

This was a Conte Neuroscience Center grant that supported research on clinical characteristics and post-mortem neuropathology of schizophrenia.

Role: Co-Investigator, Lead for Clinical Assessment

Total Direct Costs: 7,560,505 USD

4. NIMH MH 63116

April 2003-March 2009

Course of Functional Deficits in Elderly Schizophrenics

This was a study of the course of functional deficits in older community dwelling patients with schizophrenia. Older patients were followed with performance-based measures of functional skills and cognitive assessments.

Role: Co-Investigator

Total Direct Costs: 1,125,000 USD

5. United States Department of Defense GW060048

June 2007-June 2011

A randomized, double-blind, placebo-controlled crossover trial of mifepristone in gulf war veterans with chronic multisymptom illness.

Changes in cognitive, behavioral, and medical symptoms were examined with the use of a glucocorticoid receptor antagonist in gulf war veterans with chronic multisymptom illness.

Role: Co-Investigator

Total Direct Costs: 680,000 USD

6 . NARSAD

June 2007-June 2010

Specificity and Generalizability of Cognitive Remediation and Functional Skills Acquisition Training in Schizophrenia

The goal of this project was to assess whether improvement from two behavioral treatments are restricted to the domain they target or generalize to other areas of functioning, as well as to determine whether they are more effective when used sequentially.

Role: Principal Investigator

Total Direct Costs: 60,000 USD

7. NIMH MH

May 2007-April 2013

Chronic Psychiatric Disorders: Linking Genes to Functional Outcomes

The goal of this study was to identify associations among candidate genes in bipolar disorder and schizophrenia with impairments in functional capacity and functional outcomes.

Role: Local Principal Investigator

Total Direct Costs: 128,650 USD

8. Canadian Foundation for Innovation

December 2008-December 2016

Leaders Opportunity Fund

Role: Principal Investigator

Total Direct Costs: 74,500 CAD

9. Ontario Ministry of Research and Innovation

May 2009-May 2010

Leader's Opportunity Fund

Role: Principal Investigator

Total Direct Costs: 74,500 CAD

10. Queen's University Senate Advisory Committee Research Award

April 2014-March 2016

Neurocognitive Engagement in Depression

Role: Principal Investigator

Total Direct Costs: 8,310 CAD

11. Ontario Ministry of Research and Innovation

March 2011-March 2016

Early Researcher Award

Role: Principal Investigator

This award supported graduate student stipend and conference travel costs.

Total Direct Costs: 150,000 CAD

12. Brain and Behavior Foundation, NARSAD Independent Investigator

Sept 2013-Sept 2016

Remote Cognitive Remediation for Schizophrenia

This study examined the efficacy of delivering cognitive remediation to people with schizophrenia in their homes.

Role: Principal Investigator

Total Direct Costs: 100,000 USD

13. Canadian Foundation for Innovation

April 2014-March 2017

Infrastructure Operating Fund

Role: Principal Investigator

Total Direct Costs: 22,350 CAD

14. Queen's University Department of Psychiatry Internal Grant

June 2017-June-2018

Indecisiveness in Major Depressive Disorder: Examining the Causes, Consequences, and Options for Treatment of Indecision

This study used novel experimental paradigms to explore indecision in depression and its relationship to functioning.

Role: Co-Investigator (Principal Investigator: Michela David)

Total Direct Costs: 8,180 CAD

15. Canadian Institutes of Health Research Patient-Oriented Research Collaboration Grants

Feb 2018-Feb 2019

Flourish student mental health research: Pathways to mental health and academic outcomes in undergraduate university students

This study is investigating the development of academic and mental health issues during first year of University.

Role: Principal Investigator (with Anne Duffy, Co-PI)

Total Direct Costs: 79,890

16. Takeda/Lundbeck Investigator Initiated Sponsored Research

September 2015-September 2019

Remediation of Age-Related Cognitive Decline: Vortioxetine and Cognitive Training

This study aims to examine whether computerized cognitive training in combination with vortioxetine improves cognitive abilities in older individuals.

Role: Co-Investigator; Site Principal Investigator (Study Principal Investigator: Eric Lenze)

Total Direct Costs: 600,000 USD

17. Healthy Minds Canada/Sun Life Financial/Pfizer Canada Research Grant

May 2014-May 2018

Action-Based Cognitive Remediation to Improve Vocational Outcomes in Depression

This study examines the effects of a novel cognitive remediation treatment that combines simulated work situations with cognitive activation and strategy development.

Role: Principal Investigator

Total Direct Costs: 98,400 CAD

18. Canadian Institutes of Health Research: Operating Grant

May 2014-May 2019

A Randomized Controlled Trial on Group CBT for Social Anxiety in People with a First Episode of Psychosis

This study examines a group based treatment on social anxiety and uses my cognitive remediation treatment as a comparison group.

Role: Co-Investigator (PI: Martin LePage)

Total Direct Costs: 753,875 CAD

19. University of Manitoba University Research Grants Program

February 2017- March 2020

Examining the Effectiveness of Action-Based Cognitive Remediation for the First-Episode Psychosis

Role: Co-Investigator (PI: Colleen Murphy)

Total Direct Costs: 7,500 CAD

20. Lundbeck Foundation

October 2016-October 2020

Prefrontal target engagement as a neuroimaging biomarker model for cognitive enhancement (PRETEC Marker)

This study will examine a combination of pharmacotherapy and Action-Based Cognitive Remediation in Bipolar disorder patients and their unaffected relatives.

Role: Collaborator

Principal Investigator: Kamilla Woznica Miskowiak

Total Direct Costs: 1,980,000 CAD

21. Innovation Fund of the Alternative Funding Plan for the Academic Health Sciences Centres of Ontario

March 2018- March 2020

Cognitive Remediation Therapy for Late Life Schizophrenia

This study will examine the effects of cognitive remediation on cognition and functioning in patients 65 or older with schizophrenia.

Role: Co-Investigator (Principal Investigator: Angela Golas)

Total Direct Costs: 118,484 CAD

22. St. Michael's Foundation

April 2018-March 2020

Cognitive Remediation for Suicide

This study will use my cognitive remediation techniques to address suicidal ideation.

Role: Co-Investigator (Principal Investigator: Sakina Rizvi)

Total Direct Costs: 20,000 CAD

23. Canadian Institutes of Health Research

September 2015-September 2020

Remote Cognitive Remediation for Acute Depression

This study will examine whether cognitive remediation for patients with depression will help offset relapse rates and improve daily functions after an acute episode.

Role: Principal Investigator

Total Direct Costs: 271,206 CAD

24. Dr. Ian and Shirley Rowe Research Fund

July 2019-July 2021

Psychotic Symptoms in Borderline Personality Disorder: An Examination of Acuity and Piloting of a Novel Treatment to Improve Functional Outcomes in Community Living

Role: Co-Investigator (Katherine Holshausen, PI)

Total Direct Costs: 25,000 CAD

25. Health Research Council of New Zealand

November 2018-June 2021

Treating Cognitive Impairment in Severe Depression

This study will examine the combination of our cognitive remediation program in a hospitalized sample.

Role: Co-Investigator (Principal Investigator: Richard Porter)

Total Direct Costs: 1,151,916 NZD

26. Canadian Institutes of Health Research – Evaluation Grants – On-Campus Post-Secondary Mental Health Services

February 2019-February 2020

U-Flourish student mental health research: Transitions to mental health care

This study will examine longitudinal health and mental health outcomes of university students.

Role: Co-Investigator (Principal Investigator: Anne Duffy)

Total Direct Costs: 99,909 CAD

27. Canadian Institutes of Health Research

Operating Grant: Knowledge Synthesis: COVID-19 in Mental Health & Substance Abuse

May 2020-November 2020

Examining the Efficacy of Evidence-Based Psychosocial Interventions for Schizophrenia-Spectrum Disorders Delivered through Virtual Care

Role: Co-Investigator (PI: Michael Best)

Total Direct Costs: 50,000 CAD

28. Canadian Institutes of Health Research

Operating Grant: Knowledge Synthesis: COVID-19 in Mental Health & Substance Abuse

May 2020-November 2020

Remote cognitive assessment in severe mental illness: A scoping review

Role: Co-Investigator (PI: Martin Lepage)

Total Direct Costs: 50,000 CAD

29. Early Psychosis Intervention Ontario Network: Contract

November 2018-November 2022

Implementation of Action-Based Cognitive Remediation

This study will examine implementation of Action-Based Cognitive Remediation across 20 clinical sites affiliated with a Provincial network.

Role: Principal Investigator

Total Direct Costs: 35,000 CAD

30. The Graham Boeckh Foundation

April 2020

Dr. Samarthji Lal award for mental health research

This award provides support for our laboratory's activities to engage in research on cognitive remediation for severe mental illnesses.

Role: Principal Investigator
Total Direct Costs: 25,000 CAD
