

ALL	PSYC 899	Master's Thesis Research	
ALL	PSYC 999	Doctoral Thesis Research	
ALL	PSYC 801	Design of Experiments	Topics include: The logic of the test for significance and controversies concerning it; ANOVA and its underlying linear model for between- subject, within-subject and split-plot designs; orthogonal comparisons for trend analysis and for special contrasts; restricted randomization and the randomized-block design; partial confounding in latin-squares; balancing conditions against trend; hierarchical designs; ANOVA and multiple correlation; designs including organismic variables; random- effect models and the fixed-effect fallacy; data transformations and non-parametric tests. Fall; lectures (3 hrs) and tutorials (1½ hrs).
ALL	PSYC 802	Introduction to Multivariate Analysis	Topics include: History of Multivariate Techniques, Matrix Algebra, Data Assumptions and Preparation, Multiple Regression, Canonical Correlation, Multivariate Analysis of Variance, and Discriminant Function Analysis. Winter; lectures (3 hrs) and tutorials (1½ hrs).
ALL	PSYC 975	Applied Internship I	Students may arrange for one or two terms of supervised applied training outside of the department. Internships will be individually arranged to further the development of each student's program. Student's will submit a list of objectives before the plan is approved, and a report of progress at the end of the term.
ALL	PSYC 976	Applied Internship II	
CLIN	PSYC 805	Introductory Assessment	These courses constitute an introduction to the practical aspects of clinical assessment. In PSYC- 805* students are given skills training and practice in the use of tests of adult intelligence, memory and vocational counseling. In PSYC-806* the emphasis is on tests of children's intelligence, learning and affect. Fall and winter (2 hrs)
CLIN	PSYC 806	Introductory Assessment	
CLIN	PSYC 809	Child-Adolescent Clinical Psychology	Provides an overview of normal and abnormal development from conception to adolescence. Presentations balance theoretical controversies, basic research, and practical applications surrounding development principles considered in both the promotion of competence and the prevention/treatment of disorder. (2½ hrs)
CLIN	PSYC 827	Adult Clinical Psychology	In PSYC-827* major areas of adult psychopathology are emphasized including anxiety and mood disorders, schizophrenia and personality disorders. Fall or Winter (2½ hrs)
CLIN	PSYC 829	Ethical & Professional Issues	Designed to raise students' awareness of ethical principles and expose them to issues and perspectives related to their training as professionals. Seminar (2 hrs)
CLIN	PSYC 838	Introductory Clinical Practica	Students choose two practica from a variety of applied settings. These experiences are designed to introduce students to functioning in a clinical setting. Fall and winter (one day per wk for a total of 120 hrs per course)
CLIN	PSYC 839	Introductory Clinical Practica	
CLIN	PSYC 847	Theory, Treatment & Process	Students are given an introduction to the major theories and basic skills involved in interviewing, cognitive-behavioural therapy, and therapeutic processes. Course content balances theoretical controversies, basic research, and practical applications. A blend of classroom instruction, videotaped interviews, observation, modeling, feedback and supervised practice is used. (3 hours)
CLIN	PSYC 910	Advanced Assessment	In PSYC-910* principles of psychological test construction, and procedures underlying psychological assessment, with particular emphasis on personality assessment are given advanced treatment. Fall and winter (2 hrs)
CLIN	PSYC 922	Multicultural Clinical Practice	This course will provide students with a broad overview of multicultural issues in clinical practice. We will explore constructs such as race, culture, ethnicity, bias, intersectionality, and cultural competence, their relationships with epistemologies of psychopathology, and their impacts on access to and uptake of clinical services. The goal is for students to develop culturally responsive, competent and ethical knowledge and attitude in working with culturally diverse populations. (3 hrs.).
CLIN	PSYC 952	Advanced Clinical Skills	Students will learn advanced skills in interviewing (e.g., diagnostic interviewing, motivational interviewing) and/or intervention (e.g., group therapy, therapy with special populations). A blend of classroom instruction, videotaped therapy sessions, observation, modeling, feedback and supervised practice is used. The specific focus of instruction in any given year will depend upon the availability of instructors.

CLIN	PSYC 957	Advanced Therapy I	Students will learn skills required for conducting therapy using approaches other than Cognitive Behavioural Therapy. (e.g., Interpersonal Psychotherapy for Depression (Klerman model), Systemic Family Therapy). A blend of classroom instruction, videotaped therapy sessions, observation, modeling, feedback and supervised practice is used. The approach taught in any given year will depend upon the availability of instructors. (3 hrs)
CLIN	PSYC 968	Health Psychology	These courses explore various problems associated with the areas of health psychology and behavioral medicine. The focus will vary depending on the instructor. Topics may include the relationship between stress and disease, health promotion, psychological management of pain,
CLIN	PSYC 973	Couple Therapy	Students will learn skills required for conducting couple therapy. A blend of classroom instruction, videotaped therapy sessions, observation, modeling, feedback and supervised practice is used. The approach taught in any given year will depend upon the availability of instructors. Seminar; 3 hrs/week.
CLIN	PSYC 974	Advanced Therapy II	Students will learn skills required for conducting therapy using approaches other than Cognitive Behavioural Therapy. (e.g., Interpersonal Psychotherapy for Depression (Klerman model), Systemic Family Therapy). A blend of classroom instruction, videotaped therapy sessions, observation, modeling, feedback and supervised practice is used. The approach taught in any given year will depend upon the availability of instructors. (3 hrs)
CLIN	PSYC 978	Research Skills/Program Evaluation	Students are given the opportunity to broaden research skills through practical tasks such as preparing a grant proposal, designing a programme evaluation, and critically reviewing research grants and articles. (2½ hrs.). (3.0 credit units).
CLIN	PSYC 983	Advanced Child/Adolescent Therapy	This course is an advanced course on therapy for children and adolescents. The goal of the course is to provide advanced practical skills for clinicians. The course focuses theoretical foundations and applied techniques.Seminar/Lab 3 units. PREREQUISITE: PSYC 847 or equivalent.
CLIN	PSYC 989	Advanced Clinical Practice	Give students supervised experience in all aspects of clinical practice, including: interview and assessment, treatment, report writing, interprofessional communication and consultation, and professional development. (8 hrs per wk for a total of 120 hrs per course)
CLIN	PSYC 990	Advanced Clinical Practice	
CLIN	PSYC 991	Advanced Clinical Practice	
CLIN	PSYC 992	Advanced Clinical Practice	
CLIN	PSYC 993	Clinical Internship	Students in the Clinical Program are required to complete a one-year, full-time internship or its equivalent in an approved setting under the primary supervision of a registered psychologist. This normally will be taken after all course work, comprehensive examinations and Ph.D. thesis are completed. Students who complete all other degree requirements including submission of the final copy of the thesis for binding before starting or during the internship, may apply to change their study status to part-time for the remaining terms of the internship year
CLIN	PSYC 994	Special Topics in Clinical Psychology I	Focus on specific issues within the clinical area. May be offered by visiting scholars or current faculty.
CLIN	PSYC 995	Special Topics in Clinical Psychology II	

Clinical Programme Curriculum (For graduate students starting from Fall 2023)

MSc course requirements:

1. **Thesis course:**

- PSYC 899 MSc Thesis

Note: MSc students need to enroll in PSYC 899 for all their terms until they graduate.

2. **Other required courses and practica:**

MSc 1:

- PSYC 801 Design of Experiments
- PSYC 802 Intro to Multivariate Analysis
- PSYC 805 Intro Assessment
- PSYC 806 Intro Assessment
- PSYC 827 Adult Clinical¹
- PSYC 829 Ethical & Professional Issues

MSc 2:

- PSYC 809 Child- Adolescent Clinical¹
- PSYC 847 Treatment Theory & Process¹
- PSYC 838, PSYC 839 Introductory Clinical Practica

PhD course requirements:

1. **Thesis course:**

- PSYC 999 PhD Thesis

Note: PhD students need to enroll in PSYC 999 for all their terms until they graduate.

2. **Other required courses and electives:**

- PSYC 910 Advanced Assessment²
- PSYC 922 Multicultural Clinical Practice
- PSYC 978 Research Skills/Program Evaluation²
- At least one of the advanced Therapy Courses:
 - PSYC 957 Advanced Therapy I
 - PSYC 973 Couple Therapy
 - PSYC 974 Advanced Therapy II
 - PSYC 983 Advanced Child/Adolescent Therapy

Electives: Doctoral students take three additional courses from those offered in the Clinical Program or in the other areas of the Department or University, to be approved by supervisor and Clinical Chair.

3. **Practice courses:**

- PSYC 989, PSYC 990 Advanced Clinical Practice
- PSYC 991, PSYC 992 Advanced Clinical Practice
- PSYC 993 Clinical Internship

Note: PhD students need to enroll in PSYC 993 for all three terms of their internship year.

¹ Offered in alternating years for MSc1 and MSc2

² Offered in alternating years for PhD1 and PhD2
