ADVANCED PERINATAL MENTAL HEALTH PSYCHOThERAPY TRAINING

May 22, 2020 | 9:00 am - 4:30 pm EST
Queen's University via ZOOM Webinar!

This one-day course is an evidence-based curriculum designed for mental health and psychotherapy providers who have previously completed at least 14 hours of perinatal mental health training. This advanced training covers differential diagnosis, evidence-based psychotherapeutic approaches, and advanced therapeutic issues. It combines expert presentation with case studies, group discussion, and practical examples of treatment approaches. This course or an equivalent six-hour advanced training course is a pre-requisite for the PSI Perinatal Mental Health Certification, in the mental health/psychotherapy specialty.

Register online:
https://forms.gle/dFCJWrAs53XAQUXG7

Training:
9:00 am - 4:30 pm EST

Registration includes training materials (to be mailed), and certification of continuing education.

Registration Fee:
Regular: $250
Student: $200

Above prices are for 1 day of training. A $50 discount will be applied if participating in all 3 days of training.
