MEETINGS

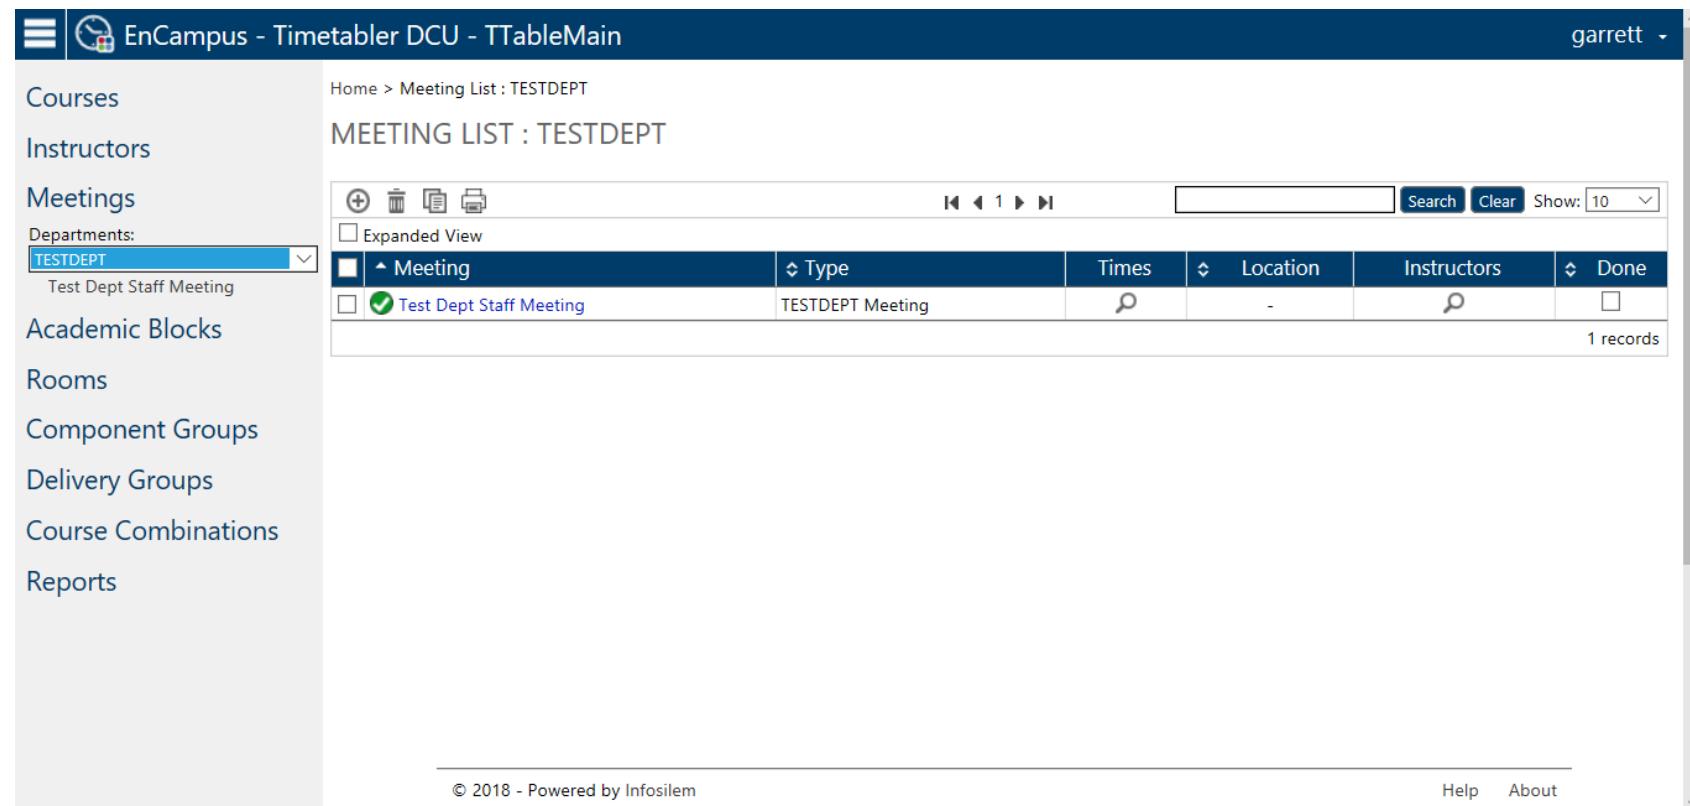

Overview

Departments have the ability to reserve a time in the timetable to hold a department meeting.

A central inventory or a departmentally owned room can be reserved in the DCU for the meeting, and instructors can be added.

Timetabling will try to ensure the meeting time does not conflict with instructors' courses, as much possible.

It is expected that department meetings will occur at times according to the University's slot system.

The screenshot shows the EnCampus - Timetabler DCU - TTableMain application. The left sidebar has a navigation menu with links: Courses, Instructors, Meetings, Departments (selected), Academic Blocks, Rooms, Component Groups, Delivery Groups, Course Combinations, and Reports. The main content area is titled 'MEETING LIST : TESTDEPT'. It shows a table with one record:

Meeting	Type	Times	Location	Instructors	Done
Test Dept Staff Meeting	TESTDEPT Meeting	-	-	-	-

At the bottom of the main content area, there is a footer with links: Help, About, and a copyright notice: © 2018 - Powered by Infositem.

COURSES

Overview

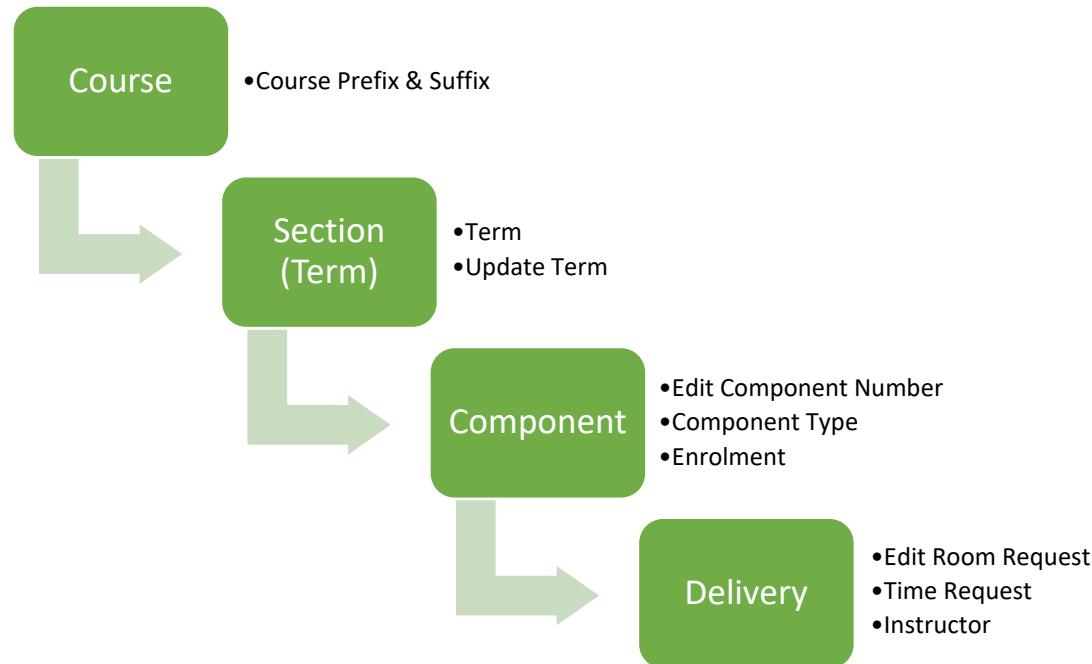

Fall and winter course offerings are available in the DCU for an update for the next academic year.

The previous year's course offerings are used as a starting point for the update.

Please ensure courses and component types (LEC, TUT etc.) are approved by your Faculty/School's curriculum committee.

Undergraduate Art and Science, Law, Nursing, Engineering and Commerce courses are to be entered into the DCU for timetabling purposes, in addition to Occupational and Rehabilitation Therapy and Psychology graduate courses.

Course – Section (Term) – Component – Delivery are all nested within one another

The screenshot shows the 'SECTION EDITING' screen. At the top, there are buttons for 'New', 'Show Timetable', 'Change Request', 'Save', and navigation links 'First', 'Previous', 'Next', 'Last'. Below these are five input fields: 'Department' (TESTDEPT), 'Course Number' (TEST 101), 'Section' (2189), 'Term' (2189), and 'Description' (empty). To the right of the 'Section' and 'Term' fields are two buttons: a checked checkbox with a green checkmark and a 'Done' button.

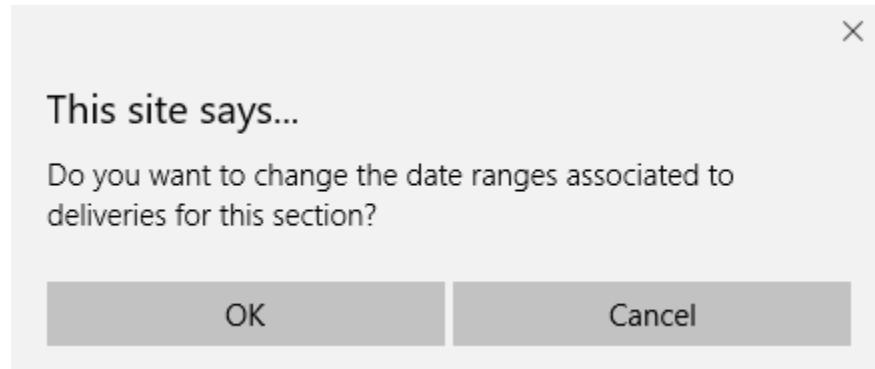

Change the “Section” (Free Form Text) and “Term” (Drop-down Menu)

The “Section” and the “Term” must match

Once you change the “Term” from the drop-down menu a screen may appear

Note: This screen will appear if there are “dates” and “times” requested in a component within the section

If an empty section, screen will not appear

Click "Ok" to confirm

You will see the "Section Editing Screen"

Click  **Save**

COMPONENT

Overview

Components are the type of classes that are to be offered as approved by the Faculty/School curriculum process. For example: LEC, TUT.

In the component area of the DCU, you will add/delete/edit component types, edit enrolment, and if a Topics Course edits the component description field to record the Course Topic ID number and description.

COMPONENT EDITING

The screenshot shows the 'Component Information' section with fields for Department (TESTDEPT), Course Number (TEST 100), Section (Move to section...), Name (001), Type (LEC), Maximum Enrollment (20), RN (LEC), and Description (empty). To the right are checkboxes for 'Done' (checked) and 'Exclude from academic block builder'. The 'Component Attributes' section contains a table with rows for 'Add Consent' (Value: Department Consent) and 'Drop Consent' (Value: Department Consent). Navigation buttons at the top include New, Show Timetable, Save, and links to First, Previous, Next, and Last.

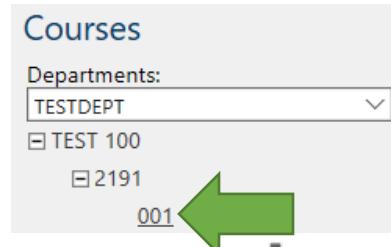

Type	Value
Add Consent	Department Consent
Drop Consent	Department Consent

Component Attributes is where course add/drop consent and the Teaching Mode is to be recorded.

Topics Courses Entering into DCU

Topics courses must be approved by your Faculty's curriculum process.

In order for us to set up the term offering of a topics course in People Soft, we require the course topic ID number AND the course topic description, for example: GPHY370, topic ID=4, topic description=The Lives of Animals.

Within the DCU, the place where topic ID and description are to be recorded is under component editing, component description. For any existing topics course in the DCU and rolled forward from last year, we have entered "Topic # & Topic Title" in the component description. You will need to update this field to record the number and the title OR delete the component/course if it isn't offered next year.

DELIVERY

Overview

The delivery area in the DCU is where room and time requests and the instructor(s) are entered.

The screenshot shows the DCU Delivery interface with the following sections:

- Time Requests:** A table with columns for **Pattern** and **Order**. One row is visible: **3 slots x 1 hour** (Order 0).
- Room Requests:** A section with a message: **No room requested.** It includes a **Room Requirements:** text area.
- Instructors:** A section with a search bar and **Search** and **Clear** buttons.

At the top, there are navigation buttons: **Show Timetable**, **Add**, **Remove**, **Duplicate**, and **Batch Update**. A sidebar on the left shows a list with item **01**.

Room Requests

Room Request is empty to by default for a new delivery and if a room is required you must add room type, pavilion etc. Leaving the room request blank will result in no room being assigned.

You can only add one room per delivery

If multiple rooms are needed you need to add the delivery for each room

The screenshot shows a software interface titled 'Room Requests'. At the top, there are two buttons: a plus sign (+) for adding a new room and a trash can icon for deleting. Below the buttons, a message in bold text says 'No room requested.'.

Click the icon in the Tool Bar Menu for Room Requests

You will see this screen

The screenshot shows a detailed configuration screen for 'Room Requests'. It includes fields for 'Room Type' (with a dropdown menu), 'Pavilion' (with a dropdown menu), 'Campus' (with a dropdown menu), 'Room' (with a dropdown menu), and 'Characteristic(s) required' (with a checkbox). Below these are sections for 'Scheduling' (with a table showing '30 x 1 = 30'), 'Characteristic(s)' (with a table showing 'Name' and 'Description'), and 'Room Requirements' (a large text input field). At the bottom, there are 'Search' and 'Clear' buttons.

Room Type: Select a “Room Type” and an option from the drop-down list that meets your requirements

Once done the “Pavilion” (Pavilion is the building) and “Room” will be clickable

Note: For Room Types L (lab), Y (departmentally owned) and AL (active learning) you must select which room from the drop-down menu

Pavilion: Select an option from the Pavilion drop-down menu

Room: You can only fill this in if a Forced Room Request

Room Requirements: The requirements field is a notes field where departments can enter text

IMPORTANT: Use Ratio to request rooms smaller than the enrolment.

Ratio: If the room required is smaller than enrolment, enter this information a ratio.

For example. Enrolment=100, 4 rooms at 25 needed, enter 4 deliveries each with .25 ratio.

Scheduling	Ratio	Total capacity
100	x	0.25 = 25

Note: Any Ratio greater than 1 will be changed to 1 prior to scheduling.

Characteristics: Characteristics such as Blackboards, Document Cameras, etc., are optional.

***As of September 2021, any room of 80 seats or greater capacity will have lecture capture/streaming and a digital connection. Lecture capture/streaming allows the recording of lectures to a USB drive or streaming to the Queen's streaming service.

When finished selecting click Ok

DELIVERY GROUPS

Overview

A delivery group is created when...

- There are multiple instructors teaching a component, and each instructor teaches different dates. Delivery should be created for each instructor & their teaching dates.
- The teaching dates should not overlap. Those deliveries need to be grouped “same time same room” (STSR) to ensure they schedule at the same time in the term.
 - E.g. ENGL499, 2189, 001, LEC, 01, 2018/09/06 to 2018/10/26, Instructor: Testy McTest
AND ENGL499, 2189, 001, LEC, 02, 2018/10/27 to 2018/12/07, Instructor: Shiny McStar
 - Delivery 01 and 02 need to have a delivery group. Name of that group ENGL499 001 LEC 01 & 02. The group type is STSR.
- More than one room is required for a component. There can only be one room per delivery, so multiple deliveries need to be created based on the number of rooms required. The type of group for this is the same time different room (STDR).
 - E.g. FREN399, 2189, 001, LEC, 01, 2018/09/06 to 2018/12/07, *KINGST pavilion, DC room type*, instructor: Testy McTest
AND FREN399, 2189, 001, LEC, 01, 2018/09/06 to 2018/12/07, *ELLIS pavilion, AL room type, Ellis 319 room*.
 - Delivery 01 and 02 need to have a delivery group. Name of that group FREN399 001 LEC 01 & 02

VIEW GROUP ERRORS

Overview

For component or delivery groups to be valid, the two parts of the group (both components or both deliveries) must have identical room and time requests. You will see group errors if the room and/or time requests do not match. The expanded view is the easiest way to find Group Conflicts.

REPORTS

OVERVIEW

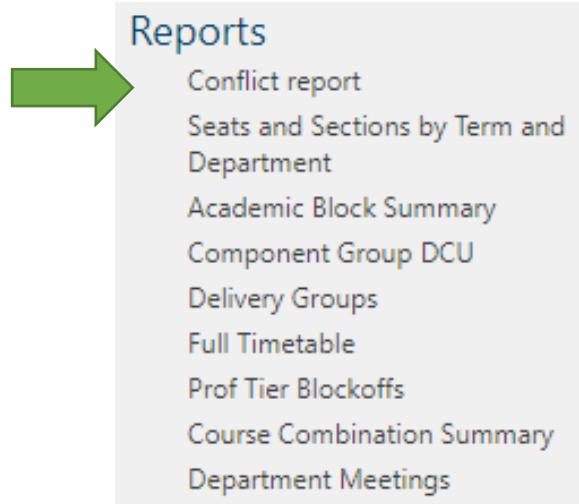

There are two kinds of reports available for your use.

- 1) Those that come with the software which may be helpful for validation.
- 2) Queen's customized reports to help you validate your data and for your record-keeping and sign-off of annual data entry. Information about which reports are required to be emailed to timetabling for sign-off is contained in the "sign-off" section of this manual.

GLOSSARY

Academic Block	A set of course components that must be scheduled conflict-free with each other.
Active Learning Classrooms (AL)	Newly designed classrooms for active and collaborative learning.
AUD	All rooms that are => 200 capacity belong to the AUD pavilion. There are 10 auditoriums on the Main Campus, and one at West Campus.
Basic Rules of Timetabling	Timetabling policy established by the University Timetable Committee. See: https://www.queensu.ca/provost/teaching-and-learning/university-timetabling
Central Room Inventory	https://www.queensu.ca/classrooms/
Component	A component is a section, for example LEC, TUT.
Component Attribute	DCU field to capture then add and drop consent needed for PeopleSoft registration configuration. There are three types, department consent, instructor consent or no consent.
Course Combination	A process that is used by Timetabling to schedule specific courses conflict-free for a certain number of students. For most departments that use course combinations, these will be used later to block register students into their required courses. The department submits a list of unique course combinations, by program and level with the number of students in each. This data set is used to build academic blocks (see above), showing the minimum number of courses and sections that need to be scheduled conflict-free to accommodate student registration.
DCU	Data Collection Utility. Web-based tools used by departments to submit timetabling information for processing.
Campus Web Portal	Campus is the University's room booking software. Departments have view access to the Campus portal to search room availability. Campus is used after the final timetable is posted.

Forced Time, Forced Scheduling

If a course is not timetabled using the University's timetable software, the time of the course must be "forced" to be at a particular time (normally at the request of the department). This is referred to as forced scheduling. Departmental requests for forced scheduling will be considered on a limited basis and must be requested by the Unit Head, giving clearly articulated reasons for the request, to the University Timetable Committee. Enter the forced time or forced pattern request into the DCU. We will echo back forced time information later in March at which time the reason for the forced time request can be clarified.

Courses scheduled after 5:30 pm do not have to be approved through the UTC.

In considering these requests that are supported with explanations, the Committee will be guided by precedents and decisions made in the previous years' timetabling cycles. Only approved requests will be processed by the University Registrar's Office.

Group

Groups are requested by a department for a set of components and/or deliveries that must be scheduled at the same time. There are different types of groups, including:

- Same time, same room - PeopleSoft
- Same time, same room
- Same time, same room (Alt)
- Same time, different room
- Same time, different room (Alt)

If you are unsure as to what type of group to use for specific course requirements, contact the Timetabling Office.

Instructor Type	There are four instructor types: <i>Standard</i> , <i>Back to Back Allowed</i> , <i>Teaching Release Day Standard</i> , and <i>Teaching Release Day Back to Back</i> . The <i>Standard</i> type does not allow for back to back schedule for that instructor. The <i>Back to Back Allowed</i> type will allow for back to back schedule, only if necessary (note back to back scheduling is not guaranteed for this type). <i>Teaching Release Day Standard</i> is to be used if a day free from teaching is required for research. The Scheduler will then assign a day. <i>Teaching Release Day Back to Back</i> is to be used if an instructor needs a Teaching Release Day AND wants their courses back to back.
Pattern	The times that a component is delivered, based on the Queen's slot system https://www.queensu.ca/registrar/sites/uregwww/files/uploaded_files/pdfs/Timetabling_slot_chart_text.pdf Examples of patterns are 3 slots X 1 hour, 2 slots X 1.5 hours, 1 slot X 2 hours, 1 slot X 3 hours.
Pavilion	Timetabling term that is equivalent to a building, with one exception. Auditorium rooms have their own pavilion called "AUD".
Room Characteristic	Denotes specific characteristics within a room, e.g., "02" means blackboard extra
Room Type	The predominant layout of a room, e.g. seminar-style, tiered, etc. See room type legend in this document.
Section in DCU	In the DCU, the term "section" means term.
Slot System	Queen's approved pattern times when courses can be scheduled.

Tie

A tie is created (by the Timetabling staff) to ensure that a pair of courses, or sections, or delivery patterns of a course occur in a specific sequence. Another way to say this is that a tie is built to establish sequencing requirements for elements of a course. There are different types of ties, including:

- After any occurrence
- No back-to-back
- Back-to-back
- Day in between
- Different days
- Same day

NOTE: Ties are not contained in the DCU, they are provided to you in a separate document. If you are unsure as to how to request sequencing requirements to meet the needs of a course, contact the Timetabling Office.

APPENDIX “A” – Timetabling Updates | Overview

DCU Requirements (Notes) Fields

There are two places in the DCU where you can record notes. These fields are called “requirement” fields and are found in two places and are to be used for specific purposes only, as follows:

1) Instructors, Instructor Editing, Instructor Requirements

Use the instructor requirements notes field to enter if the instructor is spouse opposite and with whom, and whether there are any special need requirements for rooms. These are the ONLY notes that will be reviewed if entered in this field.

2) Course Combinations, Course Combination Editing, Requirements

Use this requirement notes field to enter any relevant information you need to add to your course combination request.

Please do contact us with any questions if you are unsure.

Please Note: Deliveries, Room Requests, Room Requirements notes field will NOT be used

Notes in the is field will not be reviewed.

A/B courses not necessarily in the same room

Full-year courses (aka A/B courses) are not scheduled in the same room each term by default.

Teaching and Learning Website

The Centre for Teaching and Learning maintains a website on teaching and learning spaces including photographs of rooms, building location, room capacity and accessibility. Also included are features for teaching and learning including installed technology. See: <https://www.queensu.ca/classrooms/>

Active Learning (AL) & Flexible Learning (FS) Rooms

For full details of the University's Active Learning & Flexible Learning classroom inventory see: [Queen's Teaching and Learning Spaces | Teaching and Learning Spaces](#)

All FS rooms have full data/video and whiteboards. Any of the flexible seating rooms will be assigned based on enrollment.

Classroom Assistance

ITS has established a Classroom Support Centre. Any classroom assistance requests, regardless of their nature, should go to the support centre, ext. 36744 OR use the online form <https://www.queensu.ca/its/forms/itsc/helpform/>. Examples of requests include missing chairs, cleanliness of the room, equipment not working, and errors in bookings. Requests can be submitted by staff, students, and instructors.

Tie Submissions

Ties are unable to be collected in the DCU. They will be collected via a spreadsheet. If your department has used Ties in the past you will be receiving a preloaded spreadsheet with the year prior's information. If this will be your department's first time using Ties then a blank copy will be sent to you. You will notice at the bottom of the excel workbook are two tabs, one for collecting component ties and the other for delivery ties, as seen below.

On each tab, the tables have been colour-coded for ease of use. The **blue** portion of the table is all the data relevant to the first element of your tie, while the **green** represents the second element of your tie. Finally, **red** is the relationship between the first and second elements. An example is: Art History wants ARTH 120 002 the tutorial to be after the ARTH 120A 001 lecture at any time. This would appear in the spreadsheet-like:

A	B	C	D	E	F	G	H	I	J	K	L	M
Status	First Department ID	First Course ID	Term	First Component ID	First Component Type ID	Tie Type	Second Department ID	Second Course ID	Second Term	Second Component ID	Second Component Type ID	Description
ARTDEPT	ARTH 120A	2199	002	TUT	After ANY Occur	ARTDEPT	ARTH 120A	2199	001	LEC		

Here is a close up of each coloured section:

B	C	D	E	F
First Department ID	First Course ID	Term	First Component ID	First Component Type ID
ARTDEPT	ARTH 120A	2199	002	TUT

H	I	J	K	L
Second Department ID	Second Course ID	Second Term	Second Component ID	Second Component Type ID
ARTDEPT	ARTH 120A	2199	001	LEC

A	G	M
Status	Tie Type	Description
Keep	After ANY Occur	BIOL 206 TUT 002 & 003 back to back
Update/New		
Remove		

The description in the red section is the elements related to the tie, which we use for naming the Tie and choosing the type. Indicating the courses and component numbers and types with their relationships.

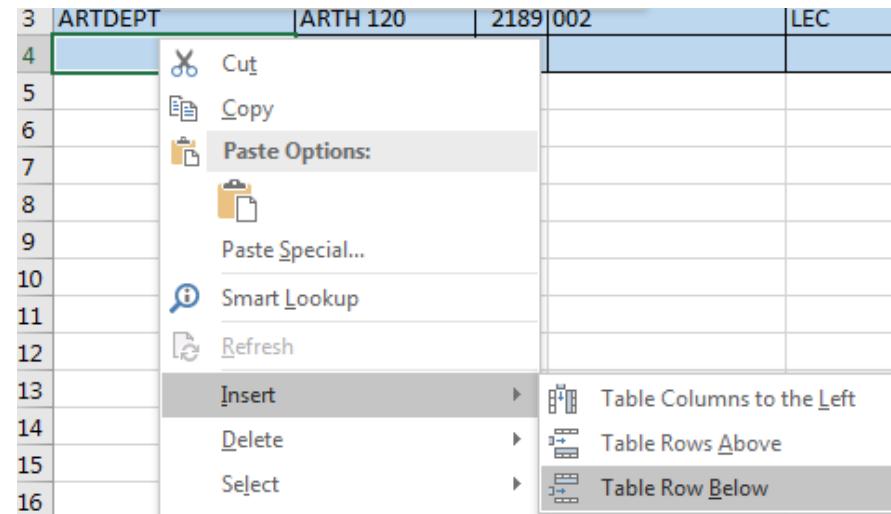

To make things easier some of the cells have been fixed with a drop-down menu to make data entry easier and reduce room for error. As seen here:

Only the cells without a drop-down menu are free-form text entry.

5	ARTDEPT	
6	ARTVDEPT	
7	BIOLDEPT	
8	BMSDEPT	
9	BUSDEPT	
	CHEEDEPT	
	CHEMDEPT	
	CIVLDEPT	

If you have to add a new line right-click in the table and select “Insert > Table Row Below”.

When you select Update/New the text will change to a bolded red to indicate a change. If Remove is selected a strikethrough will go through the text to indicate the removal.
