Closing Remarks

Dr. Patrick Deane, Principal and Vice-Chancellor

Please join in the singing of O Canada

*O CANADA! our home and native land!
True patriot-love in all of us command.
With glowing hearts we see thee rise,
The True North strong and free,
From far and wide, O Canada,
We stand on guard for thee.*

*God keep our land, glorious and free,
O Canada, we stand on guard for thee.
O Canada, we stand on guard for thee.*

*O CANADA! Terre de nos aïeux,
Ton front est ceint de fleurons glorieux!
Car ton bras sait porter l'épée,
Il sait porter la croix!
Ton histoire est une épopée
Des plus brillants exploits.*

*Et ta valeur, de foi trempée,
Protégera nos foyers et nos droits.
Protégera nos foyers et nos droits.*

Recession

Audience should remain standing while the platform party and graduates recess.

Nancy Olewiler

Nancy Olewiler is a distinguished economist who has made significant contributions to the fields of natural resource and environmental economics. A professor emerita at Simon Fraser University, Nancy was founding Director of its School of Public Policy and continued in that role for over 15 years. She was a professor in the Department of Economics at SFU and served as its Chair from 1995 to 2000. Prior to moving to SFU in 1990 she was a faculty member in the Department of Economics at Queen's. With a PhD in economics from the University of British Columbia, Nancy has dedicated her career to advancing public policy through extensive research and publications on energy and climate policy, natural capital and ecosystem services, and tax policy. In 1990 for a five-year term, she became the first and thus far, only woman to be Editor of the journal *Canadian Public Policy*. She was the co-author of two widely used textbooks, *The Economics of Natural Resource Use* (with John Hartwick of Queen's) and *Environmental Economics, Canadian Edition*.

Nancy's leadership extends beyond academia. She is currently leading a major four-year project funded by the Pacific Institute for Climate Solutions to help build climate resilience in rural and remote communities in British Columbia. This interdisciplinary project, focusing on housing and energy systems, involves collaboration with BC Housing, First Nations Housing and Infrastructure Council, and Technical Safety BC.

Throughout her career, Nancy has served on numerous federal and provincial advisory committees, including, for the federal government, the Technical Committee on Business Taxation and the External Advisory Committee on Regulatory Excellence. She was a member of the Ecofiscal Commission and currently sits on the Commission on Carbon Competitiveness. Nancy co-chairs B.C.'s Climate Solutions Council and is Chair of the Macroeconomics Accounts Advisory Committee for Statistics Canada. Additionally, she is an expert panelist for the Mitigation and Adaptation committees of the Canadian Climate Institute.

Nancy has also served on the board of directors for TransLink (and their Chair from 2011 to 2013), BC Hydro, the Pembina Institute, Technical Safety BC, and the Institute for Research on Public Policy. She is currently a board member of Genome BC. Her dedication to public service and her impactful research has made her a respected leader in the field of environmental and natural resource economics.

William L. Young, P.Eng

Bill Young began his studies at Queen's University in 1972 after attending Shore School in Sydney, Australia. Although he started his studies in Arts and Science, Bill graduated as a Chemical Engineer in 1977.

He began his Engineering career with Imperial Oil in the Engineering Design Division in Toronto and worked as a project design engineer for Imperial's two western refineries in Vancouver and Edmonton. He received his P. Eng. designation (Ontario) in 1979.

In 1979 Bill was admitted to the MBA program at Harvard University, where he graduated with distinction in 1981. From Harvard Business School he joined Bain & Company - an international management consulting firm in their London, England office. He lived in London for 7 years with a Group which worked with troubled companies to improve operating performance. In 1991, Westbourne took on the management of Canadian retailer Consumers Distributing, and Bill was CEO of this business until 1995. He then returned to the Boston area and worked with a private equity investment firm - Monitor Clipper Partners (MCP) until 2018. Over this period, MCP invested in 45 companies in Canada, the US and Western Europe.

Bill has served as board chair of a number of Canadian public companies: Magna International (2012-2022), AtkinsRealis (formerly SNC Lavalin) (2020-present) and Intact Financial (2022- present). In addition, he chaired the Queen's University Board of Trustees from 2006-2012. And more recently chaired the board of the Canadian Institute for Advanced Research (2019-2024).

Three of Bill and Ruth Dowling's four children: Ken West '22, Sophie Young '18 and William Young, Jr '24 graduated from Queen's University. And Bill's sister Joanne Young is a Queen's '78 alumna.

HONORARY GRADUAND

Veena Rawat

In 1973 Dr. Rawat graduated from Queen's University, Canada, with a PhD. in Electrical Engineering. In 2014 Dr Rawat was appointed 'Officer of the Order of Canada' for her "contributions to telecommunications engineering and for leadership in establishing the global regulatory framework for radio spectrum management". In 2019, Dr Rawat received an honorary doctorate from the University of Ottawa.

Currently she is President and CEO of Expert Strategies International, a US-based consulting firm specializing in telecommunication policies and regulations. She is Senior Spectrum Advisor to the international organization GSMA which represents mobile wireless service providers worldwide.

During 2004 -11, Dr. Rawat was President of Communications Research Centre (CRC), the only Canadian federal government research lab conducting R&D in wireless technologies. Before heading CRC, Dr. Rawat spent 28 years within the Canadian Government where she held executive positions managing programs related to radio frequency spectrum engineering, policy and regulations for wireless services. Between 2011-14, Dr. Rawat worked as Vice President and Ambassador to ITU (International Telecommunications Union, a UN agency) for BlackBerry.

Dr. Rawat has had many "firsts" in her career, a trail blazer, starting from first female PhD in 1973 in Electrical Engineering from Queens University, Canada, to being the first woman (and first Canadian as well) to chair ITU's (a United Nations Agency) highest level meeting for wireless communications (World Radio Conference- WRC) in 2003, for which she was awarded ITU's gold medal by the ITU's Secretary General.

She is a Fellow of WWRF (Wireless World Research Forum), Fellow of the Canadian Academy of Engineering (CAE), and member of the External Advisory Board of Spectrum X Center, NSF, USA.

HONORARY GRADUAND

Cheryl L'Hirondelle

A mixed-blood, multi and interdisciplinary artist, singer/songwriter and critical thinker, L'Hirondelle's creative practice investigates and articulates a dynamism of Cree worldview (nēhiyawin itāpisiwin) in contemporary time-place incorporating Indigenous language(s), music, audio, video, VR, sewn objects, the olfactory, and audience/user participation to create immersive environments toward 'radical inclusion' and decolonization. As a songwriter, L'Hirondelle focuses on nēhiyawēwin (Cree language) and Indigenous sound shapes, contemporary song forms and personal narrative songwriting as methodologies toward survivance.

Cheryl was part of the historic Minquon Panchayat, a group of Indigenous and artists of colour who radically challenged and changed the artist-run centre movement in the early 1990s. Since 2008, she has been co-writing songs with incarcerated women, men, and detained youth in federal prisons, provincial correctional centres, and municipal detention centres. The project entitled *Why the Caged Bird Sings* is a series of singles, a limited edition double vinyl album, and karaoke videos. Additionally, a touring exhibition of media and sensory-rich transmissions using virtual reality (VR), video, hyper-directional audio, and olfactory create immersive experiences featuring the lyrics, voices and musical arrangements that resulted from the artist's decades-long commitment to engaging in collaborative songwriting processes with incarcerated and detained populations in Saskatchewan.

In 2004 L'Hirondelle was also the first Aboriginal artist from Canada to be invited to present new media work at DAK'ART Lab, as part of the 6th Edition of the Dakar Biennale for Contemporary African Art, Dakar, Senegal. In both 2005 and 2006, She was the recipient of the imagineNATIVE New Media Award for her online net.art projects: treatycard.ca, 17:TELL and wēpināsowina.net. Cheryl's previous musical efforts have also garnered her critical acclaim with two Canadian Aboriginal Music Awards 2006 and 2007 (with M'Girl). In 2009 was recognized as an Honoree in the Net.Art category from the esteemed Webby Awards for the interdisciplinary project, *nikamon ohci askiy* (songs because of the land) – a project that is considered a contemporary and interdisciplinary example of Indigenous sonic mapping. L'Hirondelle has also been co-writing 'freedom songs' with incarcerated women, men and detained youth.

Cheryl most recently received the 2021 Governor General's Visual and Media Art Award. Her family roots are from Papaschase First Nation / amiskwaciy wāskahikan (Edmonton) and Kikino Metis Settlement, AB. Her work has been acquired for several permanent collections, and she continues to exhibit, present, perform, and lecture nationally and internationally.

AWARDS

Agnes Benidickson Tricolour Award

Admission to the Tricolour Society through the Agnes Benidickson Tricolour Award is the highest honour given to a Queen's student for non-academic, non-athletic activities. Recipients are chosen by their fellow students. The award is named after Dr. Agnes Benidickson who was Chancellor of Queen's University from 1980 until 1996. It is bestowed in recognition of the valuable and distinguished service of outstanding individuals to the University.

Kyla Gibson

Kyla is graduating with a Bachelor of Science in Life Sciences and received the Angles Benidickson Tricolour Award in April 2024. Kyla dedicated her time outside of the classroom to creating a more inclusive campus for equity-deserving groups. As a founder of the Commitment Scholars engagement committee, she designed and implemented a mentorship program, helping set up scholars for success. Kyla led her peers as a Dance Captain for the Queen's African and Caribbean Student Association and fostered an environment which empowered cultural identities on the team and brought an appreciation for African and Caribbean cultures in the broader Queen's community. Kyla took on a number of volunteer roles, including positions with the Queen's Black Academic Society, the Anti-Hate Advisory Group, and the Shift Survey Student Advisory Group. Kyla researched in the Banfield Laboratory and acted as a critical voice to the Board of Trustees about the importance of undergraduate research opportunities.

Ore Maxwell

Ore is graduating with a Bachelor of Health Science and received the Angles Benidickson Tricolour Award in April 2025. Ore trailblazed spaces of belonging through community-building efforts. As a Commitment Scholar, Ore helped develop inclusive programming for critical conversations on topics like cultural competency and power dynamic through the Conversation Café during Student Voices Week and uses her talent for public speaking to inspire new scholars. Ore co-founded Queen's Cancer Kids First club to support pediatric cancer patients and caregivers in Uganda through care packages and educational resources. Ore mentored and uplifted others as an Equity Ambassador, Residence Don, QSuccess Senior Mentor, and tutor for equity-deserving elementary students in Kingston. Ore companionably supported patients participating in lung research with the Renwick Lab and Hotel Dieu Hospital.

Meena Waseem

Meena is graduating with a Bachelor of Commerce and received the Agnes Benidickson Tricolour Award in April 2024. Meena has been a positive force for change and committed her time at Queen's to addressing gaps on campus. She co-led a group of students who presented faculty administration with an equity plan in areas such as admissions, curriculum, and financial aid. Meena helped develop the 'Ramadan-in-Residence' initiative to create inclusive and robust programming with dining supports for students observing Ramadan. In Meena's roles with the Queen's Women in Leadership club, she created inclusive socials and opportunities for mentorship. Meena has trained Queen's clubs and campus groups on equitable leadership, developing a new interactive training curriculum based on real cases from campus life. Meena served on the Queen's Journal BIPOC Advisory Board, Sexual Assault Centre of Kingston Board, and frequently engages in public speaking that addresses topics such as trauma recovery, leadership, mental health, and disability.

AWARDS

Prize for Excellence in Research for Outstanding Emerging Researchers

Established in 1980, this award recognizes major contributions in research having significant impact in recent years. One prize would be awarded in the area of humanities and social sciences, and the second in the area of the natural sciences, health sciences and engineering.

Heather Aldersey

Heather Aldersey's program of research focuses on promoting the full inclusion of people with disabilities globally. Dr. Aldersey achieves this by studying improved support for people with disabilities and their families, effective implementation of community-based rehabilitation and community based inclusive development programs, and translation of disability policy to practice.

George diCenzo

George diCenzo's scientific interests lie in agricultural microbiology, plant – microbe interactions, bacterial genome function, and the biodegradation of plastic waste. Dr. diCenzo has a strong interest in the development of new biotechnologies to address pressing issues in sustainable agriculture and plastic recycling.

Dr. diCenzo is an expert in rhizobium genomics, metabolism, and taxonomy, with extensive experience in isolating rhizobia and characterizing their interactions with legumes. He has helped secure over \$33 million in funding, of which ~\$8 million is related to research with rhizobia and other agriculturally relevant microbes. His expertise in this area has led to the establishment of collaborations with researchers based in 10 countries; invitations to speak as a Plenary Speaker at the 2021 and 2023 European Nitrogen Fixation Conferences (a leading conference in his field) and as the Opening Keynote Speaker of the 2024 Portuguese-Spanish Nitrogen Fixation Congress; invitations to serve on the Editorial Board of the Journal of Bacteriology, as an Editor at the Canadian Journal of Microbiology, and as a member of the Subcommittee on Taxonomy of Rhizobia and Agrobacteria of the International Committee on Systematics of Prokaryotes; and has resulted in being awarded the 2017 Armand Frappier award from the Canadian Society of Microbiologists.

Suraj Persaud

Suraj Persaud's research expertise is centered on corrosion of nuclear materials, including applications for current plant operation, nuclear waste management, and advanced nuclear systems. Dr. Persaud was appointed UNENE Research Chair in Corrosion Control and Materials Performance in July 2020. The Chair program supports a major research focus in corrosion, stress corrosion cracking, and high temperature oxidation of materials relevant to current nuclear power systems, including application of novel material characterization techniques. His research scope has also expanded in recent years to include large programs in advanced characterization of degradation in spent fuel containers, and corrosion relevant to small modular reactors (SMRs). Prior to joining Queen's University, Dr. Persaud was a Research Scientist at Canadian Nuclear Laboratories (CNL) in the Radiation Chemistry and Corrosion branch. He completed his doctoral work in 2015 at the University of Toronto performing mechanistic studies evaluating stress corrosion cracking in Ni alloys.

AWARDS

Award for Excellence in Graduate Student Supervision

Established in 2005, this award is to recognize those outstanding Supervisors who demonstrate excellence in advising, monitoring and mentoring graduate students through their training. The award recognizes one faculty member from the social sciences and humanities and one from life sciences, natural sciences and engineering.

Kai Salomaa

Kai Salomaa received his PhD at the University of Turku in 1989 and has been professor in the School of Computing at Queen's since 2000. He has supervised 15 MSc and 14 PhD students many of whom have secured prestigious academic prizes and fellowships. Dr. Salomaa's former students have been successful in faculty positions and, for example, hold director-level positions in the finance sector.

Dr. Salomaa's research lies in foundations of computer science, in particular, in formal languages and state complexity. He has over 250 refereed publications.

AWARDS

Alumni Award for Engaging Students as Partners in Learning

Established in 2005, this award is to recognize those outstanding Supervisors who demonstrate excellence in advising, monitoring and mentoring graduate students through their training. The award recognizes one faculty member from the social sciences and humanities and one from life sciences, natural sciences and engineering.

burcu habibe baba

Dr. burcu baba (they/she) is an Assistant Professor in the Department of Gender Studies who leads with a deliberate and forward-thinking approach to student-centered pedagogy, as seen in their teaching of GNDS 125: Race, Gender and Popular Culture. Rooted in the constructivist approach to teaching, Dr. burcu baba treats students as full partners in education. Through collaborative and continual course design, flexible assessments, and inclusive learning environments, Dr. burcu baba's methodology has fostered deep engagement and critical reflection among students. Their commitment to innovation, ranging from AI-integrity strategies to course animation and collaborative re-framing of concepts like 'unlearning', demonstrates a unique humility and openness in academia.

Sara Nabil

Dr. Sara Nabil is an Assistant Professor in the School of Computing and the head of the HCI Design Studio. Her interdisciplinary research blends interaction with interior, fashion, and product design, using soft sensing, e-textiles, and shape-changing materials to explore the future of adaptive, embodied technologies. Her inclusive, research-driven pedagogy empowers students as co-creators of knowledge. By incorporating Research through Design (RtD) methods such as learning through making and annotated portfolios, she invites students to bring their creative hobbies into the classroom and direct the trajectory of their learning. Her course design reflects a strong commitment to equity and mentorship, with a focus on empowering female-identifying and underrepresented students. Dr. Nabil's innovative teaching approach has enabled students to transform coursework into peer-reviewed, co-authored publications at top-tier conferences. Through cross-faculty mentorship and a studio culture that treats students as collaborators, she fosters an environment of trust, creativity, and lifelong learning.

Monakshi Sawhney

Dr. Monakshi Sawhney is an Assistant Professor in the School of Nursing with a cross appointment to the Department of Anesthesiology and Perioperative Medicine. In addition, she is a practicing Nurse Practitioner with a specialty in acute and chronic pain management. Her research focuses on anti-oppressive pedagogy, equitable healthcare practices, pain management, infection prevention, and outcomes associated with advanced practice nursing. She is transforming both healthcare and education through evidence-based, equity-focused innovation and collaborative learning environments where students are co-researchers and co-educators. In a graduate course she taught, Current Issues in Nursing Research, Innovative Approaches to IPAC Education for Undergraduate Nursing Students, students co-designed and led all phases of a research project, and presented their findings at the Canadian Association of Schools of Nursing (CASN) biennial conference. This experience deepened their understanding and amplified their voices within the academic community. She currently serves as co-chair of the CASN conference (2023–2025), is an elected member of Queen's University Senate, and a recipient of the inaugural ICN NP/APN Network's Excellence Award for Clinical Practice. Through her scholarship and mentorship, Dr. Sawhney empowers future nurses to lead with knowledge, empathy, and purpose.

AWARDS

Baillie Awards for Excellence in Secondary School Teaching

Established in 2007 to enable students graduating from Queen's University to honour educators who, during the students' high school careers, exercised upon the students a decisive and formative influence and set them upon the course which brought them first to Queen's and subsequently to graduation.

Awards are given annually and each award recognizes an exceptional teacher who has served as a role model and mentor, instilled a love of learning, and inspired academic excellence and the pursuit of higher education.

Amberlea Daigneau

Bishop Macdonnell Catholic High School, Guelph, Ontario

Nominated by Blake Gill, BScH Mathematics, Arts Minor in French Studies

Blake Gill, who is graduating with a Bachelor of Science (Honours) in Mathematics, received his lowest high school grade in grade 9 English. But he credits that teacher, Amberlea Daigneau, with setting him on his academic path, which is Concurrent Education and teaching. When Blake was discussing post-secondary options and possible undergraduate pathways with her, Concurrent Education was mentioned. Blake decided then to strive to make a positive impact in the lives of students, as Ms. Daigneau had impacted him. As his English teacher, she instilled a life-long love of reading, lending Blake books and emphasizing the power of literature for communication and change. Blake describes her classroom as welcoming, and her genuine concern for students facing challenges was evident. She led by example when it came to inclusion, advocating for LGBTQ+ rights inside and outside of the school. On teaching placements, Blake says he is inspired to match her presence, kindness, and patience.

"[Ms. Daigneau] is in everyone's corner, encouraging students to embrace their talents – whether in Math, English, Theatre, Plumbing, Mechanical Work, and more. It is no wonder that multitudes of students flock to her room for comfort and guidance (she also taught me the word 'multitudes'). Amberlea Daigneau...is the teacher of a lifetime."

Paul Nalli

Toronto Catholic District School Board, Toronto, Ontario

Nominated by Alisa Robinson, BSch Life Sciences, Arts Minor in Black Studies

Dr. Paul Nalli is a Principal with the Toronto Catholic District School Board, currently seconded as an Education Officer in the Anti-Racism Directorate within the Ministry of Citizenship and Multiculturalism. Alisa, who is graduating with a Bachelor of Science (Honours) in Life Sciences and Black Studies, credits Mr. Nalli as a pivotal ally and advocate during and after her time at St. Francis Xavier Catholic Secondary School in Milton, ON. While serving as vice-principal, Mr. Nalli was the administrative liaison supporting the teacher- and student-led Representation Matters club—an affinity space where QTBIPOC students gathered to share lived experiences and inform change efforts within their school community. He remained accessible and visible, advocating alongside students and staff to address systemic barriers, including racism, hate, and discrimination. Under the principal's leadership and bolstered by the tireless efforts of staff and students, Mr. Nalli championed school-wide initiatives and equity-focused professional development, including a community of practice called When Faith Meets Equity, by ensuring students had platforms to be seen and heard and helping create conditions for these efforts to thrive. At the heart of Mr. Nalli's leadership is R.A.I.S.E.—Representation, Amplification, Inspiration, Support, and Empowerment—a framework he developed and piloted as an administrator and formalized through his doctoral research at Arizona State University. Guided by the five senses, R.A.I.S.E. adopts an asset-based approach that humanizes and individualizes rather than categorizes and polarizes, enabling educators to build stronger relationships with students and the community. As a first-generation university student, Alisa shares that she continues to thrive through Mr. Nalli's mentorship, which has helped her navigate post-secondary education and foster transformative change in educational spaces.

“Although my learning from Mr. Nalli did not come directly from his classroom, his mentorship and supervision during my time in secondary school (and beyond) have shaped my understanding in ways that no course alone could.”

Jennifer Petkovic

Pierre Elliott Trudeau High School, Markham, Ontario

Nominated by Kevin Liang, BAsC Mathematics and Engineering with Professional Internship

A computer technology and technology design teacher, Jennifer Petkovic goes above and beyond for her students, according to her nominator, Kevin Liang. Kevin, who is graduating with a Bachelor of Applied Science in Mathematics and Engineering, describes himself as being quiet and uncertain before he joined his school's robotics club and met Ms. Petkovic. Over the next three years, Ms. Petkovic guided the team through more than 10 competitions, attaining a school record at provincials, and taught Kevin and his teammates lasting lessons that he describes as: being present and taking an interest in others matters, experiences drive learning, and personal connections can motivate and transform people. Ms. Petkovic, who is a Queen's alumna, conveyed these lessons through her actions: demonstrating genuine care for her students, giving her time and attention to co-curriculars, and changing the course of Kevin's high school experience. His positive experiences and interest in robotics led him to Ms. Petkovic's classes on technology. This in turn led him to his academic program, and to extra-curricular involvement, peer mentorship, and leadership at Queen's. She continues to be a role model of an exceptional educator, as Kevin is pursuing graduate studies, and planning to become a professor.

"To be honest, I don't think Ms. Petkovic ever stopped teaching me...when I would think about the difficulties I faced, the mentorship I had to provide, and the fear of taking on another challenge, I thought of her. I may have been alone at times, but I never really felt lonely...I had someone like her who would go above and beyond for me, so I was never afraid to do the same for others. I know now, better than ever, that the most outstanding educators are those who teach lessons that last a lifetime."

Jennifer Vivian
Westdale Secondary School, Hamilton, Ontario
Nominated by Sophia Herrington, BFAH Visual Art

Jennifer Vivian teaches art at Westdale Secondary School in Hamilton, where her nominator, Sophia Herrington, completed the Arts and Culture Specialist High Skills Major. Sophia is graduating with a Bachelor of Fine Arts (Honours) in Visual Arts and credits Mrs. Vivian with leading her to consider fine arts as an academic and career path. Beyond leading the Arts and Culture stream, Mrs. Vivian promoted art opportunities in the community to her students, facilitating real-world experiences like showcasing their work at the Art Gallery of Hamilton. She helped Sophia secure a co-op placement teaching art, which introduced Sophia to the power of art education, and supervised her as she completed the International Baccalaureate Art Certificate. From teaching Sophia how to stretch a canvas, to assisting her with photographing her application portfolio for Queen's, Mrs. Vivian was there throughout Sophia's high school experience, creating community and a sense of belonging for her students, helping them develop their skills, and demonstrating all the arts could be.

"Mrs. Vivian didn't just teach me how to make art, she taught me art could be my future...Her unwavering support, encouragement, and dedication to her students changed my perspective on what I could achieve, and I truly believe I would not be where I am today without her. It is because of Mrs. Vivian that I pursued Fine Arts at Queen's...She has shaped me into the artist and person I am today, and I am forever grateful for the impact she has had on my life."

Amber Wadsworth

Parkside Collegiate Institute, St. Thomas, Ontario

Nominated by Briar McCaw, BHScH Health Sciences

Amber Wadsworth, a geography teacher, swim coach, and guidance counsellor at Parkside Collegiate Institute, is described by her nominator, Briar McCaw, as someone who sees her students' potential and encourages them to grow. When personal and health challenges arose in high school and Briar was unsure how to continue forward, Mrs. Wadsworth offered support, advocacy, and a continuing belief in Briar's resilience and adaptability. The skills she helped Briar develop have served her throughout her time at Queen's. Mrs. Wadsworth modelled this ability to respond to challenges; when Briar's swim team did not have a coach, Mrs. Wadsworth volunteered despite having no prior experience in the sport. She supported Briar's interest in swimming and water safety, and prompted Briar to start teaching swimming in the community, including to Mrs. Wadsworth's own children. With Mrs. Wadsworth's encouragement and guidance, Briar built a community swim lesson business focusing on equity, accessibility, and safety. Briar's commitment to drowning prevention and community service led her to explore a future in health and medicine. Mrs. Wadsworth was there to cheerlead her through the university application process and talk through her decisions, encouraging Briar to choose a program that would push her to continue to grow, think critically, collaborate, and realize her potential.

"Choosing Queen's felt like a full-circle moment. It wasn't just the academics that drew me in, it was the mindset she helped me develop. The belief that the most meaningful paths are often the ones that stretch us the most. Because of her, I stepped into the next chapter not with fear, but with confidence, courage, and an unshakable sense of purpose."

INDIGENOUS GIFTING CEREMONY

Every year, Four Directions Indigenous Student Centre (FDISC), on behalf of the University, the Indigenous Council of Queen's University (ICQU) and the Vice-Provost and Dean of Student Affairs, presents graduating Indigenous students with special gifts during their convocation ceremonies.

In honour of their accomplishments as Indigenous graduates of Queen's University, they are gifted with either a Blackfoot Peoples Mountain Blanket, a Metis sash, a drum, or a feather fan.

The Blackfoot Peoples Mountain Blanket was chosen because the rich colours and fabric patterns honour our Mother Earth. Following convocation, the Indigenous graduates are invited back to FDISC to put their handprint on the canvas wall hangings, along with their name, program, year of graduation and community, leaving their mark on Queen's in perpetuity.

"In my community we have oheroton, a rite of passage ceremony. I was never able to participate. Receiving this gift was like my own rite of passage, reaffirming that we will succeed as indigenous people within these institutions."

THE ACADEMIC HOOD

The hood as an academical vestment is distinctly British and is worn by graduates of English speaking universities all over the world. In its original form it was the upper part of the cowl worn by the Monks and Friars of the middle ages. The hood covered the head during inclement weather and in the draughty cloisters when taking exercise. If not needed for this purpose it could be pulled off and allowed to hang behind over the tippet. The tippet was the lower part, a short cape, reaching to the elbow and forming a very welcome article of clothing in the monasteries and hostels which were still unglazed at the end of the 15th century. Indeed, it would appear that glass was not in general use until 1650, for three years later an order was issued to all students at Oxford to "keep his chamber windows in repair after they have once been glazed by the college". The cowl still forms part of the dress of the religious orders, but the hood, separated from the tippet now denotes a graduate of some British or American University or similar institution while the tippet is worn by certain dignitaries of both the Roman and the Anglican church. A smaller type is also used to distinguish Diocesan Readers.

THE COAT OF ARMS

The Coat of Arms of the University that hangs behind the Chancellor's dais is based on that of Edinburgh University, the institution after which Queen's was modeled. The Coat of Arms consists of a gold shield with red edges, divided into four triangular compartments by a blue, diagonal St. Andrew's cross, which represents the university's Scottish origins. A golden book, symbolizing learning, sits open at the centre of the cross. In each of the four compartments is an emblem of the university's Canadian and British origins: a pine tree for Canada, a thistle for Scotland, a rose for England, and a shamrock for Ireland. The red colour of the border is a mark of cadency, indicating that Queen's is younger than Edinburgh University. The border is decorated with eight gold crowns, symbolic of Queen Victoria and the university's royal charter. The official heraldic description of the coat of arms is: "Or on a Saltire Azure between in chief a Fir tree eradicated in base a Thistle stalked and leaved in fesse a Red Rose barbed seeded stalked and leaved all proper and a Trefoil Vert an open Book of the first a Bordure also Gules charged with eight Ancient Crowns Gold". The shield is underlined by the Latin phrase "Sapientia et Doctrina Stabilitas" which is translated as "Wisdom and Learning shall be the stability of thy times".

Although the Coat of Arms has been in use since the 20th century, it was not until 1953 that it was sanctioned by the College of Arms of England and subsequently registered through Letters Patent, dated 27 November 1981, and recorded in the Public Register of All Arms and Bearings in Scotland, that is the Court of the Lord Lyon, Edinburgh, Scotland. On 30 September 1991, during Queen's Sesqui-centennial Celebrations, the Coat of Arms was registered in the Canadian Registry of Flags, Arms and Badges.

'OIL THIGH'

Written in 1898, this song is a distinctive Queen's tradition, performed at sporting events and most University occasions. It consists of the old song "Queen's College Colours," often sung to the accompaniment of a low-kicking can-can dance. In most instances, the song is sung beginning with the chorus, followed by the first verse of the lyrics, and ending with the chorus one last time.

The name "Oil Thigh" comes from the chorus of the song, which begins with the Gaelic words "Oil thigh na Banrighinn a'Banrighinn gu brath" ("The college of the wife of the King forever"). At football games, it is a tradition that students perform an 'Oil Thigh' after every touchdown.

The lyrics are sung to the traditional tune used for the American 'Battle Hymn of the Republic'.

Lyrics

*Queen's College Colours we are wearing once again,
Soiled as they are by the battle and the rain,
Yet another victory to wipe away the stain!
So, Gaels, go in and win!*

Chorus: Oil thigh, na Banrighinn...

*Varsity's not invincible, they tremble at the news
Of Queen's College Colours and are shaking
in their shoes.
Yet another victory, the chance we dare not lose.
So, Gaels, go in and win!*

Chorus: Oil thigh, na Banrighinn...

*McGill has met defeat before, they've heard
the same old tale
Of Queen's College Colours, boys,
the ones that seldom fail,*

*Remember Captain Curtis and the conquerors of Yale,
So, Gaels, go in and win!*

Chorus: Oil thigh, na Banrighinn...

*Western's White and Purple have come down
to Queen's to score,
We sent them back to London as they'd ne'er
been sent before.
And Queen's again were victors as they were
in days of yore,
So, Gaels, go in and win!*

*There may be other colours to the breezes
oft unfurled,
And many another college yell by student
voices hurled;
Queen's College Colours are the dearest
in the world,
So, Gaels, go in and win!*

Chorus

*Oil thigh na Banrighinn a'Banrighinn gu brath!
Oil thigh na Banrighinn a'Banrighinn gu brath!
Oil thigh na Banrighinn a'Banrighinn gu brath!
Cha-gheill! Cha-gheill! Cha-gheill!*
