### Please join in the singing of O Canada

*O CANADA! our home and native land!  
True patriot-love in all of us command.  
With glowing hearts we see thee rise,  
The True North strong and free,  
From far and wide, O Canada,  
We stand on guard for thee.*

*God keep our land, glorious and free,  
O Canada, we stand on guard for thee.  
O Canada, we stand on guard for thee.*

*O CANADA! Terre de nos aïeux,  
Ton front est ceint de fleurons glorieux!  
Car ton bras sait porter l'épée,  
Il sait porter la croix!  
Ton histoire est une épopée  
Des plus brillants exploits.*

*Et ta valeur, de foi trempée,  
Protégera nos foyers et nos droits.  
Protégera nos foyers et nos droits.*

## Recession

Audience should remain standing while the platform party and graduates recess.

## Monique Frize

Monique (Aubry) Frize was the first woman to obtain a degree in Engineering (Electrical) at the University of Ottawa in 1966. In 1970, she completed an M.Phil. and D.I.C. at Imperial College of Science and Technology in London UK while holding an Athlone Fellowship from the British Council. In 1986, Monique completed an M.B.A. at Université de Moncton, and a doctorate at Erasmus University in Rotterdam, The Netherlands in 1989.

Monique Frize was a Clinical Engineer at Notre-Dame Hospital (1971-1979) and the Director of Clinical Engineering Services Regions I & VII in Moncton (1979-1989). She was appointed to the Northern Telecom/NSERC Women in Engineering Chair and professor in Electrical Engineering at UNB, in Fredericton. In 1997, she was appointed as the NSERC/Nortel Women in Science and Engineering Chair (Ontario) at Carleton University and the University of Ottawa.

Monique has been involved in dozens of committees and Boards. She received five honorary doctorates and was appointed Officer of the Order of Canada in 1993. She is a Fellow CAE, EC, IEEE, IFMBE, CMBES. Monique is a Distinguished Professor at Carleton University, a Professor Emerita at the University of Ottawa, and a co-founder of INWES and of CIWES-ICFIS.

She has published eight books and more than 250 papers in journals and conference proceedings. Her research areas have been clinical decision support systems, medical imaging, clinical engineering, women in science and engineering and ethics for bioengineers.

## David Alexander Robertson

David A. Robertson is one of Canada's most influential voices in literature and public discourse. A member of Norway House Cree Nation, he is an award-winning author, graphic novelist, and podcaster whose work explores Indigenous identity, mental health, and the importance of storytelling. Across a wide range of genres and audiences, Robertson's writing offers powerful insights into history, family, and resilience.

Throughout his career, Robertson's work has received widespread recognition, including two Governor General's Literary Awards. Internationally, he has been named Canada's nominee for the Hans Christian Andersen Award, one of the world's most prestigious honours in children's literature. In recognition of his contributions to the arts and public dialogue, he has also received honorary doctorates from the University of Manitoba and the University of Lethbridge.

At the heart of Robertson's work is a deep commitment to sharing Indigenous stories and perspectives. His novels, including *The Theory of Crows*, explore identity, belonging, and the complexities of human relationships. His memoir *Black Water* reflects on family history, intergenerational trauma, and cultural reconnection. He is also the creator of the award-winning podcast *Kiwew*, which further explores storytelling, language, and Indigenous experience.

As a keynote speaker, Robertson brings these themes to audiences through deeply personal and engaging presentations. Drawing from his life and work, he speaks about Indigenous rights, reconciliation, mental health, and the power of stories to create understanding. His talks encourage meaningful dialogue and foster empathy, leaving audiences with a deeper sense of connection and shared responsibility.

Beyond his own writing, Robertson is committed to supporting the next generation of storytellers. As editorial director of Swift Water Books, the first Indigenous-led imprint at a major Canadian publishing house, he helps create space for new Indigenous voices in publishing. He continues to shape the future of Canadian literature.

## Agnes Benidickson Tricolour Award

---

Admission to the Tricolour Society through the Agnes Benidickson Tricolour Award is the highest honour given to a Queen's student for non-academic, non-athletic activities. Recipients are chosen by their fellow students. The award is named after Dr. Agnes Benidickson who was Chancellor of Queen's University from 1980 until 1996. It is bestowed in recognition of the valuable and distinguished service of outstanding individuals to the University.

### Hannah Burrows

Hannah is graduating with an MSc. in Psychology (Cognitive Neuroscience) and received the Agnes Benidickson Tricolour Award in April 2025. Her research explored dog-human interactions and how guardian perceptions relate to canine behaviour, with implications for training, welfare, and working dog contexts. Hannah co-founded To Help You Reach Knowledge, a non-profit dedicated to improving financial literacy and equitable access to higher education in Canada. She co-authored a textbook to guide students in securing scholarships and financial aid, which received the 2023 Financial Consumer Agency of Canada's Top Undergraduate Paper. Hannah also led a team of students with the Provost's Office in an interdisciplinary investigation and creation of a comprehensive report on continuing education opportunities for Queen's. Hannah has uplifted and inspired those around her as a residence don, teaching assistant, and panelist with her innovative thinking and supportive mentorship.

### Bisola Olaseni

Bisola is graduating with a BHSc (Honours) and received the Agnes Benidickson Tricolour Award in April 2026. As Lead Equity Ambassador for Undergraduate Admissions and Recruitment, Bisola worked to increase access to education by championing inclusive practices and crafting supportive programs for prospective equity-deserving students. She also led experiential learning opportunities for equity-deserving high schoolers in Kingston to explore careers in health care as a coordinator for the Queen's Health Sciences Outreach and Summer Program. Bisola supported faculty members in evaluating and making recommendations for a new racism and health course, and she researched increasing access to effective care for children with complex developmental needs with Holland Bloorview Kids Hospital. Bisola also worked as a Residence Don, Teaching Assistant, and the Co-Chair of Queen's Student Diversity Project among other roles. Her leadership has been described as transformative in building an inclusive community.

## **Oluwamisimi (Simi) Oluwole**

Simi is graduating with a BNSc and received the Agnes Benidickson Tricolour Award in April 2026. She co-founded the Queen's Sickle Cell Awareness Group of Ontario and led a pioneering interprofessional simulation on sickle cell disease, secured grant funding, and collaborated with the Schools of Medicine and Nursing. The project led to positive changes in health education and patient care. She served on the Senate Committee on Academic Development and Procedures and served as chair of the AMS judicial committee, where she upheld fair processes and student representation in university decisions. Simi actively created spaces of belonging for Black students and strengthened the Queen's community as president of Queen's Canadian Black Nurses Alliance, Black initiatives and inclusion facilitator at Yellow House, a QSuccess mentor, and a QHS Student EDIIA coordinator.

## **Nishana Ramsawak**

Nishana is graduating with a PhD in Civil Engineering and received the Agnes Benidickson Tricolour Award in April 2023. Nishana's research focused on water quality degradation in drinking water distribution systems using a field, experimental and modeling approach. At Queen's she was one of the first Graduate Inclusivity Fellows, served on several university committees to improve teaching and address skill gaps. She was also an instructor for Black Youth in STEM, and a workshop developer for several STEM summer camps. Nishana's commitment to service extends far beyond academia. During the COVID-19 pandemic, she established the charity, Helping Handbags Kingston, which provides essential items for vulnerable women. It has now been adopted by Queen's Civil Engineering Department following her graduation.

## Award for Excellence in Graduate Student Supervision

---

Established in 2005, this award is to recognize those outstanding Supervisors who demonstrate excellence in advising, monitoring and mentoring graduate students through their training. The award recognizes one faculty member from the social sciences and humanities and one from life sciences, natural sciences and engineering.

### Christopher DeLuca

Dr. DeLuca (Ph.D., Queen's University) is a Professor in Educational Assessment at the Faculty of Education, Queen's University. Dr. DeLuca leads the Classroom Assessment Research Team and is Director of the Queen's Assessment and Evaluation Group. Previously, Dr. DeLuca was an Assistant Professor at the University of South Florida (Tampa, USA) and has worked in the area of policy research in London, England. Previously, Dr. DeLuca held the position of Associate Dean within the School of Graduate Studies and Postdoctoral Affairs. Dr. DeLuca's research examines the intersection of assessment, curriculum, and pedagogy from socio-cultural frameworks. His work largely focuses on supporting teachers in negotiating these critical areas of practice to enhance student learning for all. Specifically, he investigates how pre-service and in-service teachers learn to engage the complexities of assessment in relation to the tension between the evolving accountability culture in schools and the imperative for inclusivity as a fundamental pedagogical principle.

Dr. DeLuca's research has been published in national and international journals, and has been recognized through several awards including the Queen's Faculty of Education Research Excellence Award, the American Educational Research Association Outstanding Paper in Classroom Assessment Award, and the R.W. Jackson Award from the Canadian Society for the Study of Education. Further, his research has received continuous funding from the Social Sciences and Humanities Research Council of Canada. Dr. DeLuca has served as the Chair of the American Educational Research Association's Classroom Assessment SIG, President of the Canadian Educational Researchers' Association, and Editor of the Canadian Journal of Education. Dr. DeLuca is Lead Editor of *Assessment in Education: Principles, Policy and Practice*.

## Bruce Tufts

Dr. Bruce Tufts (PhD, University of British Columbia) is a Professor in the Department of Biology, Faculty of Arts and Science at Queen's University. His research focuses on the conservation and sustainable use of freshwater fisheries in Canada, with an emphasis on wild fish populations targeted by recreational fisheries. He also conducts research aimed at improving inland aquaculture through recirculating systems. Since joining Queen's in 1990, graduate training has been central to Dr. Tufts' program. He has supervised 45 graduate students, resulting in 52 MSc and PhD theses, and is widely recognized as an outstanding mentor. His trainees have an exceptional record of success, with many securing positions in their chosen fields. During the first 25 years of his career, his research was primarily supported by NSERC, and seven of his former students went on to become professors at universities in Canada, the United States, and Scotland. Others have pursued successful careers as conservation biologists, environmental consultants, medical doctors, and educators. Since 2014, Dr. Tufts' research program has been supported by the Greenberg Family Fund (\$350,000 annually), which has provided stable, long-term funding for personnel, infrastructure, and student training in fisheries biology and conservation. This support has enabled a focused effort on preparing the next generation of fisheries scientists. Since 2015, he has mentored 24 graduate students (including a current cohort of five), most of whom have gone on to successful careers as fisheries biologists, assessment specialists, program leads, and district supervisors in provincial, federal, and international organizations, including the Ontario Ministry of Natural Resources, Fisheries and Oceans Canada, and the Pacific Salmon Commission.

## Prize for Excellence in Research for Outstanding Emerging Researchers

---

Established in 1980, this award recognizes major contributions in research having significant impact in recent years. One prize would be awarded in the area of humanities and social sciences, and the second in the area of the natural sciences, health sciences and engineering.

### **Laurent Karim Béland**

Laurent Karim Béland is an Associate Professor in Mechanical and Materials Engineering at Queen's University and a computational materials scientist specializing in atomistic and multiscale modelling. His research advances understanding of radiation effects, nuclear materials, porous and construction materials, and emerging challenges in critical minerals and energy technologies. He has authored over 89 peer-reviewed publications, secured more than \$5M in competitive research funding as lead principal investigator, and trained over 60 highly qualified personnel. His work has been recognized by the Ontario Early Researcher Award, and by international invitation and keynote lectures..

### **Graeme Howe**

Dr. Graeme Howe is an Associate Professor of Chemistry whose research bridges fundamental enzymology and global sustainability challenges. His work combines chemical insight with innovative bioinformatics to discover and engineer enzymes capable of breaking down plastics, assembling new pharmaceuticals, and advancing sustainable biotechnologies. Since joining Queen's in 2019, he has built a rapidly growing research program focused on developing next-generation biocatalysts for sustainable chemistry. A recipient of the Polanyi Prize in Chemistry and one of ChemSusChem's "Emerging Talents in Sustainability Research," Dr. Howe is also a dedicated mentor committed to training the next generation of scientists.

## Baillie Awards for Excellence in Secondary School Teaching

---

Established in 2007 to enable students graduating from Queen's University to honour educators who, during the students' high school careers, exercised upon the students a decisive and formative influence and set them upon the course which brought them first to Queen's and subsequently to graduation.

Awards are given annually and each award recognizes an exceptional teacher who has served as a role model and mentor, instilled a love of learning, and inspired academic excellence and the pursuit of higher education.

### Amanda Belluz

**Our Lady of Lourdes Catholic High School, Guelph, Ontario**

**Nominated by Oluwamisimi D. Oluwolel, BNSc**

Oluwamisimi Oluwole describes how Amanda Belluz created and nurtured belonging, community, and confidence.

When Oluwamisimi started at Bishop Macdonell Catholic High School in grade 11, she was moving to a new school, in a new city, during the pandemic. In that moment, learning that she wouldn't be receiving a kilt as part of the school uniform – they were being discontinued – felt unexpectedly disappointing. Mrs. Belluz didn't hesitate, saying – "If you want a kilt, we will get you a kilt" and followed through. This was a first sign of how Mrs. Belluz would create pathways to community.

When Oluwamisimi expressed an interest in student council, Mrs. Belluz introduced her to the president; when she felt isolated, Mrs. Belluz connected her with other students of colour, with whom she formed lasting relationships. She helped Oluwamisimi smoothly transition into the International Baccalaureate program, restructuring her schedule to enable her to complete the prerequisites in her first semester. In the classroom, she taught Oluwamisimi how to ask better questions, challenge assumptions, and refine her thinking. She was confident Oluwamisimi could succeed, and she helped Oluwamisimi build that certainty in herself by staying invested, connecting her to peer tutors, rallying community support during personally difficult periods, and guiding Oluwamisimi in building skills she will bring to her nursing practice.

*"She changed how I see myself as a learner and what I believe I am capable of achieving. She instilled in me a love of learning, pushed me toward academic excellence, and helped me believe that I belonged in higher education. I am nominating her because her impact did not end when I left her classroom. It continues to shape who I am today."*

## Brad Clapp

Ecole Olds High School, Olds, Alberta

**Nominated by Jenna Martens, BAH Psychology**

Brad Clapp recently retired after 30 years teaching English Language Arts and Social Studies. His nominator Jenna Martens participated in the Academic Team program, spearheaded by Mr. Clapp. She credits Mr. Clapp with fundamentally shifting her approach to learning and education and setting her on the path that has led to her convocation today. Teaching in a small town, Mr. Clapp upheld high standards and treated his students as future scholars. He encouraged the pursuit of academic excellence, as well as the value of learning for its own sake. He assigned summer reading, and challenging texts, guiding his students to uncover depth, meaning and an understanding of the human experience through literature. Jenna says his assessments could be intimidating – timed essay exams, and extensive research projects – but they prepared her well for university-level studies. Mr. Clapp's academic rigour always co-existed with care – celebrating his students' personal successes, checking in with them in times of loss or challenge, and always encouraging their aspirations. He asked everyone in his class to write about their post-secondary plans. When Jenna limited her response to local schools, Mr. Clapp challenged her to look beyond the familiar – a conversation which directly led her to apply to Queen's.

*"Mr. Clapp often reminded us to "be profound", not only in our writing but in how we moved through the world. He encouraged us to think deeply, speak thoughtfully and take our ideas seriously. This expectation taught me to value depth over convenience in both my academic work and personal life... The confidence, discipline, and intellectual curiosity I carry with me today are a direct result of his influence."*

## Adrienne Coddett

Woodroffe High School, Ottawa, Ontario

**Nominated by Kasai Major-Browne, BAH Psychology**

Kasai Major-Browne credits Adrienne Coddett with changing his life during his time in the Black Youth Forum program. In 2017, Ms. Coddett founded the Black Youth Forum to provide a space where Black students could gather and share lived experiences that impacted their engagement in school life, learning, and well-being. Through the forum, which was also a high school course, Kasai found community, identity and opportunities to make change, and celebrate Black culture. Ms. Coddett enabled Kasai to participate in a focus group that discussed what changes could be made in schools to improve mental health and wellbeing, and in an online panel discussion, "The Power of Language", attended by over 400 educators, administrators, and school board officials. Ms. Coddett also connected Kasai to a community-based pilot project, Prezidential Youth Media, (led by another former student of Ms. Coddett). Kasai led the final project, a video celebrating the beauty and history of Black hair, which was covered by CBC Ottawa. Kasai joined Queen's as a Commitment Scholar, and used the skills and experiences he developed through Ms. Coddett to help Queen's student clubs document their events and connect more authentically with their audiences through videography.

*"I am still in contact with Ms. Coddett to this day, and she will forever serve as a mentor to me. I look up to her impact and the way she carries such a powerful yet caring demeanour. Ms. Coddett has been a transformative member of the Ottawa community for many decades. Her work is invaluable, and I will always praise her for the profound impact she has had on my journey."*

## Sarah Gallah

St. Joseph's Morrow Park Catholic Secondary School, North York, Ontario

**Nominated by Jonathan Adams, BScH Life Sciences, Science Minor in Chemistry**

A Science, Geography, and French teacher, Sarah Gallah is an exceptional educator who cares deeply for students, according to her nominator, Jonathan Adams. Jonathan reflects that from the moment he joined Ms. Gallah's grade 9 Science class, he found himself in an environment where exploration and inquiry were encouraged, and where learning was not all about grades, but about approaching the unknown with curiosity and confidence. She integrated hands-on activities, and independent study projects to introduce her students to the scientific method in action. Ms. Gallah infused her teaching with real-world learnings from professional experiences, including her participation in a scientific expedition to Antarctica. Jonathan says her high academic standards were matched by her genuine care and compassion for her students, checking in with them during difficult periods and ensuring they knew they were valued as whole people, and not only for coursework or academic performance. She helped students plan for their future, writing reference letters, and talking about her experiences at Queen's, inspiring students to see science as a field where they could make a meaningful impact.

*"The high standards she set for me in high school have continued to guide the academic excellence I strive for in my university studies. Now as I complete my undergraduate degree and apply to MSc programs in medicine and research related fields, I continue to follow the path she helped me envision so many years ago. A path that combines scientific exploration with a desire to improve human health and wellbeing."*

## Gary Hwe Shen Seow

Michael Power St. Joseph High School, Etobicoke, Ontario

**Nominated by Erhowvosere Otubu,  
BASC Computer Engineering with Professional Internship**

Erhowvosere Otubu, credits Gary Hwe Shen Seow - who has an Electrical Engineering degree - with inspiring him and modeling the type of leadership he hopes to uphold as he graduates with a Bachelor of Applied Sciences in Computer Engineering. Before meeting Mr. Seow in Grade 10, Erhowvosere was enrolled in the International Baccalaureate program. He often felt isolated and was uncertain about whether he could succeed in Engineering, where he didn't see himself reflected. Erhowvosere was then introduced to Mr. Seow, who spoke about Computer Engineering not only as a technical field, but as a pursuit of excellence, with ethical and social responsibility. Erhowvosere decided to switch out of the IB program, and focus on Calculus, Physics, and Computer Science. His motivation, grades, and ability to work through challenges all soared. Erhowvosere recalls Mr. Seow speaking to him with a level of respect and expectation that validated his presence in the room, and he credits Mr. Seow with being a mentor, role model, and source of belief in Erhowvosere's potential when he was still discovering it in himself. His experiences in Mr. Seow's class led him to Queen's and Smith Engineering, a software developer internship, and the co-presidency of the Queen's chapter of the National Society of Black Engineers.

*"Beyond academics, Mr. Seow modeled integrity, compassion, and a genuine commitment to student success, often going above and beyond by checking in on students' wellbeing and creating space for conversations about our futures... Since being here at Queen's, he continues to motivate me and provide guidance whenever I need a mentor, proving that his commitment to his students doesn't end after high school."*

## Riley McMullen

Tagwi Secondary School, Avonmore, Ontario

**Nominated by Alex Leroux, BScH Astrophysics and Vienna Wiens,  
BAH Joint Honours in Gender Studies and Sociology**

Riley McMullen teaches Indigenous Studies, English, Drama, Leadership, and Guitar. His nominators Vienna Wiens and Alex Leroux detail Mr. McMullen's contributions to their school community, and the positive impact he had on their educations, their broader secondary school experiences, and their decisions to attend Queen's. Both students emphasized the energy and rigour Mr. McMullen brought to online learning during the pandemic, particularly in his Indigenous Studies class where his care and real-world connections stood out to them. Vienna credits her decision to pursue a Bachelor of Education to Mr. McMullen's approach to his profession, in and outside of the classroom. He planned school-wide events and activities, ran a peer mentorship and transition program for new students, and hosted an annual leadership conference, creating opportunities for students to engage and explore new areas of interest, find their voice, and build their skills and confidence. Alex says Mr. McMullen inspired him to take on multiple leadership roles at Queen's, on campus and in the local community. Mr. McMullen shared his experiences of campus life and learning and offered support and encouragement through the post-secondary application process.

*"Mr. McMullen leads by example in everything he does. His dedication, positivity, and belief in his students have had a lasting impact on my journey." - Alex Leroux*

*"He didn't just want students to get into university; he wanted us to thrive there. Now I am graduating from the very university he encouraged me to consider, and I give him much credit for where I am today." - Vienna Wiens*

## Shannon Sinclair

Birchmount Park Collegiate Institute, Scarborough, Ontario

**Nominated by Scarlett Pourmatin, BSCh Specialization in Biology - Psychology**

Scarlett Rushowy recalls Shannon Sinclair's Nutrition classroom as a community – where life skills and teamwork were taught alongside academics, and where her efforts to create an inclusive and safe space were noticed and appreciated by her students. Students congregated in her classroom at lunch to eat, do homework, and talk, and it was also where they could get a discreetly provided, and often much needed, snack. Ms. Sinclair carried this commitment to inclusion into her teaching style. Lessons were engaging and creative; Scarlett notes some students would be recruited to co-teach to support their focus and build their confidence. She paid close attention to what her students needed – checking in, connecting them with opportunities like job openings, and supporting student advocacy for a post-COVID prom, as the teacher representative on the student council. Ms. Sinclair encouraged every student to think about the future; she discussed transitions from high school and what might come next, and shared stories about her undergraduate experience at Queen's, which led to a higher-than-usual number of her students attending university, with several choosing Queen's.

*"To this day, she still keeps in touch with a number of us; and in my first year, she met two of us attending Queen's for coffee when she was in town. I cannot speak highly enough of Ms. Sinclair, not only as an educator and mentor, but also as an extremely kind and caring person who truly exemplifies the best of a teacher who takes a holistic approach; she became the "one caring adult" to so many of us, with her positive guidance and support throughout school and beyond."*

# INDIGENOUS GIFTING CEREMONY

---

Every year, Four Directions Indigenous Student Centre (FDISC), on behalf of the University, the Indigenous Council of Queen's University (ICQU) and the Vice-Provost and Dean of Student Affairs, presents graduating Indigenous students with special gifts during their convocation ceremonies in honour of their accomplishments as Indigenous graduates of Queen's University.

Indigenous graduates are invited back to FDISC to put their handprint on the canvas wall hangings, along with their name, program, year of graduation and community, leaving their mark on Queen's in perpetuity.

*"In my community we have oheroton, a rite of passage ceremony. I was never able to participate. Receiving this gift was like my own rite of passage, reaffirming that we will succeed as indigenous people within these institutions."*

*– J. Sunday, Akwesasne (BSc Kinesiology 2019)*

# THE ACADEMIC HOOD

---

The hood as an academical vestment is distinctly British and is worn by graduates of English-speaking universities all over the world. In its original form it was the upper part of the cowl worn by the Monks and Friars of the Middle Ages. The hood covered the head during inclement weather and in the draughty cloisters when taking exercise. If not needed for this purpose it could be pulled off and allowed to hang behind over the tippet. The tippet was the lower part, a short cape, reaching to the elbow and forming a very welcome article of clothing in the monasteries and hostels which were still unglazed at the end of the 15th century. Indeed, it would appear that glass was not in general use until 1650, for three years later an order was issued to all students at Oxford to “keep his chamber windows in repair after they have once been glazed by the college”. The cowl still forms part of the dress of the religious orders, but the hood, separated from the tippet now denotes a graduate of some British or American University or similar institution while the tippet is worn by certain dignitaries of both the Roman and the Anglican church. A smaller type is also used to distinguish Diocesan Readers.

# THE COAT OF ARMS

---

The Coat of Arms of the University that hangs behind the Chancellor's dais is based on that of Edinburgh University, the institution after which Queen's was modeled. The Coat of Arms consists of a gold shield with red edges, divided into four triangular compartments by a blue, diagonal St. Andrew's cross, which represents the university's Scottish origins. A golden book, symbolizing learning, sits open at the centre of the cross. In each of the four compartments is an emblem of the university's Canadian and British origins: a pine tree for Canada, a thistle for Scotland, a rose for England, and a shamrock for Ireland. The red colour of the border is a mark of cadency, indicating that Queen's is younger than Edinburgh University. The border is decorated with eight gold crowns, symbolic of Queen Victoria and the university's royal charter. The official heraldic description of the coat of arms is: "Or on a Saltire Azure between in chief a Fir tree eradicated in base a Thistle stalked and leaved in fesse a Red Rose barbed seeded stalked and leaved all proper and a Trefoil Vert an open Book of the first a Bordure also Gules charged with eight Ancient Crowns Gold". The shield is underlined by the Latin phrase "Sapientia et Doctrina Stabilitas" which is translated as "Wisdom and Learning shall be the stability of thy times".

Although the Coat of Arms has been in use since the 20th century, it was not until 1953 that it was sanctioned by the College of Arms of England and subsequently registered through Letters Patent, dated 27 November 1981, and recorded in the Public Register of All Arms and Bearings in Scotland, that is the Court of the Lord Lyon, Edinburgh, Scotland. On 30 September 1991, during Queen's Sesqui-centennial Celebrations, the Coat of Arms was registered in the Canadian Registry of Flags, Arms and Badges.

# ‘OIL THIGH’

---

Written in 1898, this song is a distinctive Queen’s tradition, performed at sporting events and most University occasions. It consists of the old song “Queen’s College Colours,” often sung to the accompaniment of a low-kicking can-can dance. In most instances, the song is sung beginning with the chorus, followed by the first verse of the lyrics, and ending with the chorus one last time.

The name “Oil Thigh” comes from the chorus of the song, which begins with the Gaelic words “Oil thigh na Banrighinn a’Banrighinn gu brath” (“The college of the wife of the King forever”). At football games, it is a tradition that students perform an ‘Oil Thigh’ after every touchdown.

The lyrics are sung to the traditional tune used for the American ‘Battle Hymn of the Republic’.

## Lyrics

*Queen’s College Colours we are wearing once again,  
Soiled as they are by the battle and the rain,  
Yet another victory to wipe away the stain!  
So, Gaels, go in and win!*

*Chorus: Oil thigh, na Banrighinn...*

*Varsity’s not invincible, they tremble at the news  
Of Queen’s College Colours and are shaking  
in their shoes.  
Yet another victory, the chance we dare not lose.  
So, Gaels, go in and win!*

*Chorus: Oil thigh, na Banrighinn...*

*McGill has met defeat before, they’ve heard  
the same old tale  
Of Queen’s College Colours, boys,  
the ones that seldom fail,*

*Remember Captain Curtis and the conquerors of Yale,  
So, Gaels, go in and win!*

*Chorus: Oil thigh, na Banrighinn...*

*Western’s White and Purple have come down  
to Queen’s to score,  
We sent them back to London as they’d ne’er  
been sent before.  
And Queen’s again were victors as they were  
in days of yore,  
So, Gaels, go in and win!*

*There may be other colours to the breezes  
oft unfurled,  
And many another college yell by student  
voices hurled;  
Queen’s College Colours are the dearest  
in the world,  
So, Gaels, go in and win!*

## Chorus

*Oil thigh na Banrighinn a’Banrighinn gu brath!  
Oil thigh na Banrighinn a’Banrighinn gu brath!  
Oil thigh na Banrighinn a’Banrighinn gu brath!  
Cha-gheill! Cha-gheill! Cha-gheill!*
