

Science for All:

# THE SCIENTIFIC METHOD

**Ask a Question**

**Make a Hypothesis**

**Test your Hypothesis**

**Analyze Results**

**Make Conclusions**

## Increase access by...

- increasing opportunities for generalizing skills and ideas
- using memory aides and supports
- linking concepts to daily life skills
- incorporating student motivators
- integrating assistive and augmentative and alternative communication supports
- reducing sensory-related barriers

**add ed**

Autism and Developmental Disabilities
