

# Love Wildlife

## Make a Wildlife Rescue Box

### Materials Needed

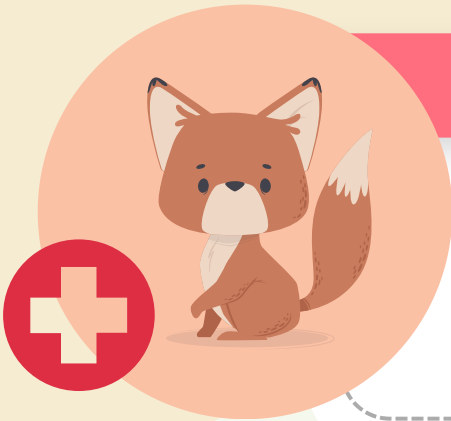

Cardboard box   Pencil or scissors   Old towel

### Instructions

1. With the help of an adult, make air holes along the sides of the cardboard box using a pencil or scissors.
2. Place the towel at the bottom of the box. That's it!

### When to Use

If you notice an animal who is sick, injured or might be an orphan, tell an adult right away to call Sandy Pines Wildlife Centre at **613-354-0264**. Instructions will be given to get the animal into your rescue box and transported to our centre for treatment.

### Signs that an animal might be sick, injured, or orphaned:

Shivering

Alone near a nest

Not moving when you go near

Bleeding

Limping

Crying
