A Message from the QUAA

I hope you had a restful holiday season, and I want to wish you a Happy New Year. Reflecting on the past year, I'm excited to see a return to getting together in-person, including at Homecoming and numerous Branch and Chapter events. I'm especially proud of the events that supported progress related to equity, diversity, inclusion and indigeneity. Most notably, the A Mile in Their Shoes Program offered non-Indigenous alumni an opportunity to learn about the Indian Residential School system and support Queen's in implementing the Truth and Reconciliation Commission of Canada's 94 Calls to Action. More needs to be (and will be) done on this front, but I'm encouraged by the enthusiasm of alumni to support this important issue.

Looking forward, I'm feeling optimistic about what the coming year holds. If the applications for QUAA grants are any indication, there are many alumni keen to return to meaningful, in-person programming. We are also anticipating a return to the QUAA Awards Gala and in-person Alumni Volunteer Summit (AVS) later this year. AVS is truly a highlight of the year when, as a member of Assembly, you will be invited to campus for a day of important programming related to your volunteer efforts and is an opportunity for volunteers to meet in-person. A regular rhythm of Branch and Chapter events is setting in, and planning for Homecoming 2023 is already underway. Throughout the year, we'll use this space to highlight opportunities for you to stay engaged and share your expertise to help better the Queen's alumni community.

If you have any questions or ideas to support alumni engagement through the QUAA, do not hesitate to reach out - always happy to chat.

Cha Gheill,

Colin McLeod, Artsci’10

Volunteer President & Chair of QUAA Board of Directors
Councillor Spotlights

Supporting Students in Creative Ways: The Ol' Medical Colouring Book

The Ol’ Medical Colouring Book is an initiative aimed at providing students with a “colouring book” – a complimentary, stress-relieving activity to support their mental health while incorporating the history and images they may be exposed to throughout their studies. The book also includes helpful tips for managing stress, links to Student Wellness Services (SWS),
and pointers to library assistance and resources. The project would not have been realized without the hard work and dedication of Carolyn Kane, an Experiential Learning in Historical Practice student in the Faculty of Arts and Science. For more information, please contact: Brendan Edwards, Curator, Rare Books and Special Collections.
