Council Giving Update/Deadline: Councillors are expected to set an example for fellow alumni by making a charitable contribution to support Queen’s philanthropic priorities. Council aspires to a 100% participation rate of giving, at a level that is meaningful to each Councillor, on an annual basis. In the absence of any personal interest or commitment, Councillors are encouraged to direct their gifts to the University Council Bursary, which assists students in financial need.

Council currently has a giving rate of 76% (of the 46 Councillors, 34 have donated, 1 donation was made on behalf of a Councillor, 11 have not donated). But we still have to the end of April to meet our goal of 100%. To arrange your gift (at any level), please donate online, or contact emily.mackwood@queensu.ca. Let’s get to 100%!

As you may recall, in December 2020 Advancement sent each of the 7,300 members of the Class of 2020 a custom notebook to congratulate them on completing their time at Queen’s and to mark the start of a new chapter. Many of you volunteered to sign bookmarks for insertion – thank you. A small number of these notebooks also included a [special ticket for 2020 grads](#). With a [blue ticket](#), they’ll receive a complimentary Queen’s diploma frame. A [red ticket](#) means they’ll receive a custom career support package including one-on-one career counseling. For Smith grads, this means a Queen’s Executive Education virtual course. And finally, a [gold ticket](#) presents a unique opportunity for these grads to meet with some of our most distinguished alumni. Thank you to Councillor Daniel Tisch who will connect with our graduates on May 19th, forging new connections between classes and generations, all united by the Queen’s experience.

Queen’s students are worried about how COVID-19 will impact job availability. One of the most effective ways University Councillors can help this generation of students with their career development goals is through employment opportunities (summer, part-time, internships, full-time). And, it may be possible to access government funding and hiring incentives.

**Career Services** has launched a set of Summer Jobs webpages that provide students with information to help them build their best summer. Recent events like the summer opportunities networking event and the summer opportunities at camps have been positively received by both employers and students. Please share that potential employers can reach out to the Career Services team for information on posting jobs on the MyCareer job board. The Career Service QUIP team is available to answer questions from employers looking to hire an intern for 12 to 16 months.

Don’t forget to connect with students and recent grads to offer your guidance on the Queen’s Connects Career Network on LinkedIn!

DID YOU KNOW?

Completed in 1911, Gordon Hall was a gift of the government of Ontario and its cornerstone was laid by Premier Sir James Whitney in April 1910. It is named after the Rev Daniel Miner Gordon, principal of Queen's from 1902 to 1917.

The building was a much needed addition to Queen's and provided a home for the Department of Chemistry for over 90 years until it moved to Chernoff Hall.

Gordon Hall has been added onto several times. The Gordon Annex, a large wing that projects at right angles from the rear of building, was built between 1947 and 1949. The Frost Wing, named in honour of Grenville Barker Frost, professor of chemistry from 1925 to 1956 and head of the department from 1956 to 1960, was built in 1961 and attached to the south end of the annex. An extra floor was also added to the building in 1964.

The land on which the annex and the Frost Wing were built held grass tennis courts until the 1940s. Extensive renovations in the early 2000s included the demolition of the Frost Wing. Reopened in 2006, Gordon Hall is now home to the Office of the University Registrar, Career Services, the School of Graduate Studies, and the Office of the Associate Vice-Principal and Dean of Student Affairs.
