

WHAT IS SEXUAL CONSENT?

POSITIVE

Showing in words and actions that you **freely** agree to participate in a sexual activity.

Needs an **enthusiastic** YES, it must be **clear**.

ONGOING

Continuing to give permission throughout the sexual encounter. You can withdraw your consent at any time.

Consent is asking **every time** - an ongoing process of **giving** and **getting** permission.

INFORMED

Consent must be given by someone who is **willing** and able to express themselves coherently.

Consent must be **informed**. It is knowing the risks and benefits and choosing to proceed.

Consent is **wanting** to do something, not feeling like you have to or should do it.

WHAT CONSENT ISN'T

 Consent is NEVER implied. The absence of a **NO** is not a **YES**.

 Saying yes on one occasion doesn't mean someone will say yes every time.

 People who are significantly impaired by alcohol or drugs, people who are asleep, unconscious, or otherwise unable to communicate, cannot consent. 

 Saying yes to one act doesn't mean someone has said yes to others. If the conditions of the act change, consent is no longer valid. 

 Consent may be compromised by an existing power imbalance within a relationship.

 Silence is NOT consent. 

 Consent cannot be obtained through coercion, psychological or emotional manipulation, physical violence, or threat.

PUTTING IT IN PERSPECTIVE

1 in 4 North American women will experience **SEXUAL ASSAULT** during their lifetime¹

 **80%** of those cases will be perpetrated by someone they know

1 in 2 **TRANSGENDER PEOPLE** are sexually abused or assaulted²

Almost all Canadians agree that sexual activity between partners should be consensual but

67% **DON'T UNDERSTAND** what consent means³

In 2019, **16.6%** of **QUEEN'S STUDENTS** reported experiencing sexual touching without their consent⁴
