

Turning Technologies Clicker Lending Library

Clickers for STLHE 2014 Presenters

As a presenter at STLHE 2014, we encourage you to make use of our on-site Clicker Lending Library (at no cost) to truly interact with and engage your audience.

- Ask questions.
- Determine the demographics of who is in your audience – in real time.
- Gauge baseline knowledge.
- Reinforce the focus of your presentation with targeted questions, statistics, comparisons.

Turning Technologies Canada Inc. is proud to sponsor the upcoming 2014 STLHE Conference. Our team will be on-site for this event, in support of Dr. Eric Mazur's interactive presentation and as a long-time supporter of STLHE events across Canada. Turning Technologies creates leading audience response and data collection systems proven to enhance meetings, trainings and events.

What are clickers?

Clickers are response technology that allows speakers to ask questions and receive real-time participant feedback. TurningPoint polling software natively integrates with PowerPoint® presentations, polls with any application using a floating toolbar and offers self-paced polling that:

- instantly displays results to produce detailed reports;
- tracks audience data or polls anonymously to gather honest feedback;
- collects valuable information and creates interactive environments;
- engages participants and immediately assesses understanding;
- generates reports with customizable views and exports into several formats;
- includes remote meetings, web-response options and multi-site polling;
- transforms presentations into exciting, collaborative experiences that involve audiences;
- sparks additional dialogue and allows all participants to vote and be heard.

What if I **HAVE** used Clickers before?

If you've used this technology before, a brief telephone conversation will get you up and running with the latest version of TurningPoint.

I have **NOT** used Clickers before?

If you have not used Clickers, we encourage you to participate in a brief demo in webinar format. This will give you the opportunity to familiarize yourself with the dynamic features of TurningPoint that might be of value to you – how to create an interactive PowerPoint slide, asking meaningful questions, asking effective multiple choice questions, building demographic questions into your presentation, using gaming and competition features, etc.

How do I arrange to use Clickers in my session?

Please contact Kimberly Rowntree at krowntree@TurningTechnologies.ca or 1.888.522.8689 x 203 by **FRIDAY, JUNE 13, 2014** to make arrangements.

Where do I pick them up?

Once you have made arrangements to use the Clickers with Turning Technologies in advance, you can go to their booth at STLHE 2014 in Student Street (the main foyer) and sign them out for your session. Please return them immediately after your workshop.

Call or write today. Let's interact and engage at the STLHE conference!
