## Background:

The Student Experience Office (SEO) at Queen’s aims to prepare and support students to achieve not only their personal, social, and academic goals, but also their professional and community aspirations. The SEO supports co-curricular learning and development by offering programs and services to orient students to university life, support their successful transitions into and through university, and encourage their leadership development and community engagement while at university.

Mentors in the Upper Year Peer Mentor Program are trained to provide one-on-one academic and personal support for up to three (3) program participants via weekly 1-hour meetings. The program is open to all upper year students (from 2nd year to PHD). Transition doesn't stop after the first year, so the Peer Mentor Program is designed to match students in second year or above with upper-year peer mentors to build confidence, encourage healthy lifestyles, and contribute to a satisfying university experience.

Mentorship is an ideal opportunity for students who are looking to find meaningful ways to engage with their peers in a structured setting and to give back to Queen’s.

Some benefits of being an Upper-Year Peer Mentor include:
